Animals Of The Western Rangelands:

Sharing Common Ground on Western Rangelands ,1996 **Animals of the Western Rangelands** Ernest H. Elms,1986
Introduces thirty one animals that live in various environments in the American West including the buffalo mountain lion prairie dog roadrunner and desert tortoise **Rangeland Wildlife Ecology and Conservation** Lance B. McNew,David K. Dahlgren,Jeffrey L. Beck,2023-09-01 This open access book reviews the importance of ecological functioning within rangelands considering the complex inter relationships of production agriculture ecosystem services biodiversity and wildlife habitat More than half of all lands worldwide and up to 70% of the western USA are classified as rangelands uncultivated lands that often support grazing by domestic livestock The rangelands of North America provide a vast array of goods and services including significant economic benefit to local communities while providing critical habitat for hundreds of species of fish and wildlife This book provides compendium of recent data and synthesis from more than 100 experts in wildlife and rangeland ecology in Western North America It provides a current and in depth synthesis of knowledge related to wildlife ecology in rangeland ecosystems and the tools used to manage them to serve current and future wildlife biologists and rangeland managers in the working landscapes of the West The book also identifies information gaps and serves as a jumping off point for future research of wildlife in rangeland ecosystems While the content focuses on wildlife ecology and management in rangelands of Western North America the material has important implications for rangeland ecosystems worldwide **Rangeland Wildlife** Paul R. Krausman,1996 *Live Cattle and Beef* United States International Trade Commission,1993 **Protection, Management, and Control of Wild Free-roaming Horses and Burros** United States. Congress. Senate. Committee on Energy and Natural Resources. Subcommittee on Public Lands and Reserved Water,1983
Caribbean Basin Initiative United States. Congress. Senate. Committee on Energy and Natural Resources,1983
Technical Bulletin ,1994 *General Technical Report RM.* ,1995 *The Western Range Revisited* Debra L. Donahue,1999 Livestock grazing is the most widespread commercial use of federal public lands The image of a herd grazing on Bureau of Land Management or U S Forest Service lands is so traditional that many view this use as central to the history and culture of the West Yet the grazing program costs far more to administer than it generates in revenues and grazing affects all other uses of public lands causing potentially irreversible damage to native wildlife and vegetation The Western Range Revisited proposes a landscape level strategy for conserving native biological diversity on federal rangelands a strategy based chiefly on removing livestock from large tracts of arid BLM lands in ten western states Arizona California Colorado Idaho Nevada New Mexico Oregon Utah Washington Wyoming Drawing from range ecology conservation biology law and economics Debra L Donahue examines the history of federal grazing policy and the current debate on federal multiple use sustained yield policies and changing priorities for our public lands Donahue a lawyer and wildlife biologist uses existing laws and regulations historical documents economic statistics and current scientific thinking to make a strong case

for a land management strategy that has been until now unthinkable A groundbreaking interdisciplinary work *The Western Range Revisited* demonstrates that conserving biodiversity by eliminating or reducing livestock grazing makes economic sense is ecologically expedient and can be achieved under current law *Agricultural Research*, 2000 *Range and Animal Sciences and Resources Management - Volume II* Victor R. Squires, 2010-07-07 *Range and Animal Sciences and Resources Management* is a component of *Encyclopedia of Food and Agricultural Sciences Engineering and Technology Resources* in the global *Encyclopedia of Life Support Systems EOLSS* which is an integrated compendium of twenty one Encyclopedias Rangelands comprise over forty percent of the earth's land surface and as one of the most prevalent land systems on the planet rangelands are critical habitats for myriad plant and animal species and form many of the world's major watersheds Rangelands are categorized in two distinct ways a as a type of land or b a type of land use This theme with contributions from distinguished experts in the field discusses about *Range and Animal Sciences and Resources Management* in several related topics These two volumes are aimed at the following five major target audiences University and College students Educators Professional practitioners Research personnel and Policy analysts managers and decision makers and NGOs **Federal Register**, 1994-07-08 [The Wildlife Techniques Manual](#) Nova J. Silvy, 2020-07-28 The 1 selling wildlife management book for 40 years now updated for the next generation of professionals and students Since its original publication in 1960 *The Wildlife Techniques Manual* has remained the cornerstone text for the professional wildlife biologist Now fully revised and updated this eighth edition promises to be the most comprehensive resource on wildlife biology conservation and management for years to come Superbly edited by Nova J Silvy and published in association with *The Wildlife Society* the 50 authoritative chapters included in this work provide a full synthesis of methods used in the field and laboratory Chapter authors all leading wildlife professionals explain and critique traditional and new methodologies and offer thorough discussions of a wide range of relevant topics To effectively incorporate the explosion of new information in the wildlife profession this latest edition is logically organized into a 2 volume set Volume 1 is devoted to research techniques and Volume 2 focuses on pragmatic management methodologies Volume 1 describes research design and proper analytic methods prior to conducting research as well as methods and considerations for capturing and handling wild animals and information on identification and marking of captured animals It also includes new chapters on nutritional research and field sign identification and on emerging topics including structured decision making Finally Volume 1 addresses measurements of wildlife abundance and habitat and research on individual animals Volume 2 begins with a section on the relationship between research and management including public outreach described in a context that encourages engagement prior to initiation of management An adaptive management approach is described as a cornerstone of natural resource management followed by a section on managing landscapes and wildlife populations The volume also includes new chapters on ethics in wildlife science and conservation conflict resolution and management and land reclamation A standard text in a variety of

courses the Techniques Manual as it is commonly called covers every aspect of modern wildlife management and provides practical information for applying the hundreds of methods described in its pages This deft and thorough update ensures that The Wildlife Techniques Manual will remain an indispensable resource one that professionals and students in wildlife biology conservation and management simply cannot do without **Restoring America's Wildlife, 1937-1987** Harmon

Kallman,1987 Fittingly the Act's chief sponsors were a Senator from Nevada Key Pittman and a Representative from Virginia A Willis Robertson The Pittman Robertson Act as it came to be called sped through Congress and was signed into law by President Franklin Roosevelt on September 2 1937 From a modest beginning the Pittman Robertson program has grown with the economy and the human population of our country By now it has channeled nearly 1 7 billion in Federal excise tax receipts augmented by some 600 million from the States into activities to restore wildlife The projects include State acquisition of acreage needed to bring wildlife back research into wildlife requirements and problems active management of habitats and development of scientific ways to enable wildlife and people to share our land in harmony The program has strengthened State governments and built wildlife management into a respected profession **Rangeland Grasshopper**
