Stivale, 2008-02-04 Friendship in its nature purpose and effects has been an important concern of philosophy since antiquity It was of particular significance in the life of Gilles Deleuze one of the most original and influential philosophers of the late twentieth century Taking L'Abc de Gilles Deleuze an eight-hour video interview that was intended to be aired only after Deleuze's death as a key source Charles J. Stivale examines the role of friendship as it appears in Deleuze's work and life Stivale develops a zigzag methodology practiced by Deleuze himself to explore several concepts as they relate to friendship and to discern how friendship shifts slips and creates movement between Deleuze and specific friends The first section of this study discusses the elements of creativity pedagogy and literature that appear implicitly and explicitly in his work The second section focuses on Deleuze's friendships with Michel Foucault Jacques Derrida Claire Parnet and Félix Guattari and reveals his conception of friendship as an ultimately impersonal form of intensity that goes beyond personal relationships Stivale's analysis offers an intimate view into the thought of one of the greatest thinkers of our time **Chinese Independent**

Animation Wenhai Zhou, 2020-04-23 This study of independent animation opens up a quietly subversive and vibrant dimension of contemporary Chinese culture which hitherto has not received as much attention as dissident art or political activism Scholarly interest in Chinese animation has increased over the last decade with attention paid to the conventional media circle of production distribution and consumption The independent sector has been largely ignored however until now By focusing on distinctive independent artists like Pisan and Lei Lei and situating their work within the present-day media ecology the author examines the relationship between the genre and the sociocultural transformation of contemporary China Animation the author argues has a special significance as the nature of the animation text is itself multilayered and given to multiple interpretations and avenues of engagement Through an examination of the affordances of this independent media entity the author explores how this multifaceted cultural form reveals ambiguities that parallel contradictions in art and society In so doing independent animation provides a convenient mirror for examining how recent social upheavals have been negotiated and how certain practitioners have found effective ways for discussing the post-Socialist reality within the current political configuration **Art Encounters Deleuze and Guattari** S. O'Sullivan, 2005-12-16 In a series of

philosophical discussions and artistic case studies this volume develops a materialist and immanent approach to modern and contemporary art The argument is made for a return to aesthetics an aesthetics of affect and for the theorization of art as an expanded and complex practice Staging a series of encounters between specific Deleuzian concepts the virtual the minor the fold etc and the work of artists that position their work outside of the gallery or outside of representation Simon O'Sullivan

takes Deleuze's thought into other milieus allowing these possible worlds to work back on philosophy Gilles Deleuze Charles J. Stivale, 2014-10-13 Gilles Deleuze is now regarded as one of the most radical philosophers of the twentieth century His work is hugely influential across a range of subjects from philosophy to literature to art architecture and cultural studies Gilles Deleuze Key Concepts provides a guide to Deleuzian thought for any reader coming to his writings for the first time This new edition is fully revised and updated and includes three new chapters on the event psychoanalysis and philosophy

Deleuze's Philosophical Lineage Graham Jones, 2009-03-31 The philosophy of Gilles Deleuze is increasingly gaining the prestige that its astonishing inventiveness calls for in the Anglo American theoretical context His wide ranging works on the history of philosophy cinema painting literature and politics are being taken up and put to work across disciplinary divides and in interesting and surprising ways However the backbone of Deleuze's philosophy the many and varied sources from which he draws the material for his conceptual innovation has until now remained relatively obscure and unexplored This book takes as its goal the examination of this rich theoretical background Presenting essays by a range of the world's foremost Deleuze scholars and a number of up and coming theorists of his work the book is composed of in depth analyses of the key figures in Deleuze's lineage whose significance as a result of either their obscurity or the complexity of their place in the Deleuzian text has not previously been well understood This work will prove indispensable to students and scholars seeking to understand the context from which Deleuze's ideas emerge Included are essays on Deleuze's relationship to figures as varied as Marx Simondon Wronski Hegel Hume Maimon Ruyer Kant Heidegger Husserl Reimann Leibniz Bergson and Freud

The Animal Catalyst Patricia MacCormack, 2014-06-19 The Animal Catalyst deals with the question of what is an animal and also in some instances what is a human It pushes critical animal studies in important new directions it re-examines basic assumptions suggests new paradigms for how we can live and function ecologically in a world that is not simply ours It argues that it is not enough to recognise the ethical demands placed upon us by our encounters with animals or to critique our often murderous treatment of them this simply reinforces human exceptionalism Featuring contributions from leading academics lawyers artists and activists the book examines key issues such as How compassion for animals reinforces ideas of what distinguishes human beings from other animals How speciesism and human centrality are built into the legal system How individualist subjectivity

works in relation to animals who may not think of themselves in the same way How any consideration of animal others must involve a radical deconstruction of our very notion of the human How art philosophy and literature can both avoid speciesism and deliver the human from subjectivity This volume is a unique project which stands at the cutting edge of both animal rights philosophies and posthuman artistic abstract philosophies of identity It will be of great interest to undergraduates and researchers in philosophy ethics particularly continental philosophy critical theory and cultural studies **Foucault's**

Analysis of Modern Governmentality Thomas Lemke,2019-02-26 Lemke offers the most comprehensive and systematic account of Michel Foucault's work on power and government from 1970 until his death in 1984 He convincingly argues using material that has only partly been translated into English that Foucault's concern with ethics and forms of subjectivation is always already integrated into his political concerns and his analytics of power The book also shows how the concept of government was taken up in different lines of research in France before it gave rise to governmentality studies in the Anglophone world A Critique of Political Reason Foucault's Analysis of Modern Governmentality provides a clear and well structured exposition that is theoretically challenging but also accessible for a wider audience Thus the book can be read both as an original examination of Foucault's concept of government and as a general introduction to his genealogy of power
