Tomei, 1999 Twentieth-Century Russian Poetry Katharine Hodgson, Joanne Shelton, Alexandra Smith, 2017-04-21 The canon of Russian poetry has been reshaped since the fall of the Soviet Union A multi-authored study of changing cultural memory and identity this revisionary work charts Russia's shifting relationship to its own literature in the face of social upheaval Literary canon and national identity are inextricably tied together the composition of a canon being the attempt to single out those literary works that best express a nation's culture This process is of course fluid and subject to significant shifts particularly at times of epochal change This volume explores changes in the canon of twentieth century Russian poetry from the 1991 collapse of the Soviet Union to the

end of Putin's second term as Russian President in 2008. In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy, the way was open for wholesale reinterpretation of twentieth-century poets such as Iosif Brodskii, Anna Akhmatova, and Osip Mandelstam, their works and their lives. In the last twenty years, many critics have discussed the possibility of various coexisting canons rooted in official and non-official literature and suggested replacing the term Soviet literature with a new definition: Russian literature of the Soviet period. Contributions to this volume explore the multiple factors involved in reshaping the canon understood as a body of literary texts given exemplary or representative status as classics. Among factors which may influence the composition of the canon are educational institutions, competing views of scholars and critics including figures outside Russia, and the self-canonising activity of poets themselves. Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre-revolutionary cultural traditions through a narrative of the past which foregrounds continuity. Despite persistent nostalgic yearnings in some quarters for a single canon, the current situation is defiantly diverse, balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground. Required reading for students, teachers, and lovers of Russian literature.

Twentieth Century Russian Poetry brings our understanding of post-Soviet Russia up to date. [Poetry of Witness: The Tradition in English, 1500-2001](#) Carolyn Forché, Duncan Wu, 2014-01-27. A groundbreaking anthology containing the work of poets who have witnessed war, imprisonment, torture, and slavery. A companion volume to *Against Forgetting*, *Poetry of Witness* is the first anthology to reveal a tradition that runs through English language poetry. The 300 poems collected here were composed at an extreme of human endurance while their authors awaited execution, endured imprisonment, fought on the battlefield, or labored on the brink of breakdown or death. All bear witness to historical events and the irresistibility of their impact. Alongside Shakespeare, Milton, and Wordsworth, this volume includes such writers as Anne Askew, tortured and executed for her religious beliefs during the reign of Henry VIII; Phillis Wheatley, abducted by slave traders; Samuel Bamford, present at the Peterloo Massacre in 1819; William Blake, who witnessed the Gordon Riots of 1780; and Samuel Menashe, survivor of the Battle of the Bulge. *Poetry of Witness* argues that such poets are a perennial feature of human history and it presents the best of that tradition, proving that their work ranks alongside the greatest in the language.

Tamizdat Yasha Yakov Klots, 2023-05-15. *Tamizdat* offers a new perspective on the history of the Cold War by exploring the story of the contraband manuscripts sent from the USSR to the West. A word that means publishing over there, *tamizdat* manuscripts were rejected, censored, or never submitted for publication in the Soviet Union and were smuggled through various channels and printed outside the country, with or without their authors' knowledge. Yasha Klots demonstrates how *tamizdat* contributed to the formation of the twentieth-century Russian literary canon: the majority of contemporary Russian classics first appeared abroad long before they saw publication in Russia. Examining narratives of Stalinism and the Gulag, *Klots* focuses on

contraband manuscripts in the 1960s and 70s from Khrushchev's Thaw to Stagnation under Brezhnev Klots revisits the traditional notion of late Soviet culture as a binary opposition between the underground and official state publishing He shows that even as tamizdat represented an alternative field of cultural production in opposition to the Soviet regime and the dogma of Socialist Realism it was not devoid of its own hierarchy ideological agenda and even censorship Tamizdat is a cultural history of Russian literature outside the Iron Curtain The Russian literary diaspora was the indispensable ecosystem for these works Yet in the post Stalin years they also served as a powerful weapon on the cultural fronts of the Cold War laying bare the geographical stylistic and ideological rifts between two disparate yet inextricably intertwined fields of Russian literature one at home the other abroad Open Access edition funded by the National Endowment for the Humanities
