Anne Of Brittany The Great Of Hours Discovery Of Art:

A Dictionary of Miniaturists, Illuminators, Calligraphers, and Copyists John William Bradley, 1889 *Half-hour lectures on the history and practice of the fine and ornamental arts* William Bell Scott, 1874 **Half-Hour Lectures on the History and Practice of the Fine and Ornamental Arts** William Bell Scott, William James Linton, 2025-07-13 Reprint of the original first published in 1875 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage **The Illuminated Books of the Middle Ages** Henry Noel Humphreys, 1844 **Video Source Book** , 2008 *Recent Improvements in Arts, Manufactures, and Mines* Andrew Ure, 1844 **The art journal London** , 1882 **Queenship in Medieval France, 1300-1500** Murielle Gaude-Ferragu, 2016-08-31 This book examines the power held by the French medieval queens during the fourteenth and fifteenth centuries and their larger roles within the kingdom at a time when women were excluded from succession to the throne Well before Catherine and Marie de Medici the last medieval French queens played an essential role in the monarchy not only because they bore the weight of their dynasty s destiny but also because they embodied royal majesty alongside their husbands Since women were excluded from the French crown in 1316 they were only deemed as queen consorts Far from being confined solely to the private sphere however these queens participated in the communication of power and contributed to the proper functioning of court society From Isabeau of Bavaria and her political influence during her husband s intermittent absences to Anne of Brittany s reign this book sheds light on the meaning and complexity of the office of queen and ultimately the female history of power *Athenaeum and Literary Chronicle* , 1848 **The Athenæum** , 1848 The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture Lost Artefacts from Medieval England and France Katherine Baker, 2022 Contemporary descriptions of objects no longer extant examined to reconstruct these lost treasures Surviving accounts of the material culture of medieval Europe including buildings boats reliquaries wall paintings textiles ivory mirror cases book bindings and much more present a tantalising glimpse of medieval life hinting at the material richness of that era However students and scholars of the period will be all too familiar with the frustration of trying to piece together a picture of the past from a handful of fragments The material turn has put art architecture and other artefacts at the forefront of historical and cultural studies and the resulting spotlight on the material culture of the past has been illuminating for researchers in many fields Nevertheless the loss of so much of the physical remnants of the Middle Ages continues to thwart our understanding of the period and

much of the knowledge we often take for granted is based on a series of arbitrary survivals The twelve essays in this book draw on a wide array of sources and disciplines to explore how textual records from the chronicles of John of Worcester and Matthew Paris and inventories of monastic treasuries and noble women to Beowulf and early English riddles when combined with archaeological and art historical evidence can expand our awareness of artistic and cultural environments Touching on a broad range of issues around how we imaginatively reconstruct the medieval past and a variety of objects both precious and ephemeral this volume will be of fundamental interest to medieval scholars whatever their disciplinary field Contributors Katherine Baker Marian Bleeke Deirdre Carter Laura Cleaver Judith Collard Joshua Davies Kathryn Gerry Karl Kinsella Katherine A Rush Katherine Weikert Beth Whalley Victoria Yuskaitis
