founding members of Team 10 they were at the heart of the debate on the future course of Modern Architecture Their polemics and designs addressing issues such as the rising consumer society and the orientation of urban planning laid the foundations for New Brutalism and the Pop Art Movement of the 1960s An important adaptation made by the Smithsons and their generation was the rejection of modernism s machine aesthetics The new notions of place and territory were juxtaposed to Le Corbusier s machine habiter To the Smithsons a house was a particular place which should be suited to its location and able to meet the ordinary requirements of everyday life and to accommodate its inhabitants individual patterns of use This exhibition examines the evolution of the Smithsons approach to this everyday art of inhabitation It does this by extensively documenting most of their designs for individual dwellings especially their optimistic House of the Future of 1956 and the series of renovations of and additions to the fairy tale like Hexenhaus in Germany from the late 1980s onward
