Annual Review Of Sociology Volume 19 1993:

Henri Lefebvre's Critical Theory of Space Francesco Biagi, 2020-08-08 Henri Lefebvre's *Critical Theory of Space* offers a rigorous analysis and revival of Lefebvre's works and the context in which he produced them Biagi traces the historical critical time frame of Lefebvre's intellectual investigations bringing to light a theoretical constellation in which historical methods intersect with philosophical and sociological issues from Marxist political philosophy to the birth of urban sociology from rural studies to urban and everyday life studies in the context of capitalism Examining Lefebvre's extended investigations into the urban sphere as well as highlighting his goal of developing a general political theory of space and of innovating Marxist thought and clarifying the various more or less accurate meanings attributed to Lefebvre's concept of the right to the city analysed in the context of the French and international sociological and philosophical political debate Henri Lefebvre's *Critical Theory of Space* ultimately brings the contours of Lefebvre's innovative perspective itself developed at the end of the short twentieth century back into view in all its richness and complexity **Less Than a Human** Lavinia

Allary, 2015-10-21 Migrants in irregular situations are confronted with dangerous circumstances during their journeys toward Western countries and upon their arrival in those countries of destination While continuously disputed by social and political forces migrants and their children continue to live an isolated life in our communities facing discrimination abuse and labour exploitation Courts and tribunals in our societies try to make sense of this human mobility by sorting out basic human rights and economic privileges in a way which is too revolutionary for conservative parties and too slow and unfair for human rights activists This book focuses on the issue of human rights protection of migrants in irregular situations The concept of protection does not refer to a humanitarian definition of aid and intervention on behalf of the victims of migration Protection here means official recognition by the State and by the law of migrants in irregular situations It also means recognition of the human rights of migrants recognition of the migrant as a political actor and from there political inclusion and politicization of the migrant Discussions in international forums are dominated by Westphalian visions of the world and no change can be envisioned in the near future with this kind of discourse In a highly individualized and fragmented world an undocumented migrants destiny is instead decided on a case by case basis in our national courts and today the most effort is put into advocacy and legal representation How successful the rights claims are today what the political context of their development is and how social and political actors position themselves in regards to irregular migration are points discussed in this book Foreword Prof Francois Crpeau McGill University Canada **Annual Review of Anthropology**, 1994-10 Annual compilation

of critical articles from all areas of the discipline of anthropology **Annual Review of Psychology** Calvin Perry Stone, 1994 Publishes original critical reviews of the significant literature and current developments in psychology *The Diffusion and Consumption of Business Knowledge* Jose Luis Alvarez, 2016-07-27 In the context of a united Europe the influence of business knowledge has become increasingly relevant as managers employees and organisations have to learn

new practices and techniques in response to new knowledge and institutions This book addresses the way in which administrative knowledge is produced diffused and consumed in Europe by academics management gurus publishing houses consultants and practitioners It also looks at its impact on European business systems and management practices

Nations Matter Craig Calhoun,2007-04-20 Craig Calhoun one of the most respected social scientists in the world re examines nationalism in light of post 1989 enthusiasm for globalization and the new anxieties of the twenty first century Nations Matter argues that pursuing a purely postnational politics is premature at best and possibly dangerous Calhoun argues that rather than wishing nationalism away it is important to transform it One key is to distinguish the ideology of nationalism as fixed and inherited identity from the development of public projects that continually remake the terms of national integration Standard concepts like civic vs ethnic nationalism can get in the way unless they are critically re examined as an important chapter in this book does This book is essential reading for undergraduate and postgraduate students of sociology history political theory and all subjects concerned with nationalism globalization and cosmopolitanism

Liberal Nationalisms James Kennedy,2012-10-01 The early twentieth century witnessed the emergence of Scottish and Quebec nationalisms that were closely intertwined with liberal philosophies The Young Scots Society and the Ligue nationaliste canadienne carried these liberal nationalist ideas This book offers a comparative and historical examination of their ideas and politics exploring the Young Scots as a movement as well as the ideas of key Nationalistes James Kennedy argues that the growth of the Young Scots Society and the Ligue nationaliste canadienne was largely in response to changes within empire state and civil society He suggests that the actions of the British Empire and the Canadian state not only prompted nationalist responses in Scotland and Quebec respectively but also shaped their liberal character His comparative analysis provides insights that would not arise from a single case study of either movement while detailing the important roles that geopolitics consociation and federation and organized religion played in the creation of nationalist philosophies The first ever comparative history of nationalism in Scotland and Quebec *Liberal Nationalisms* is an insightful study of nascent political nationalisms and a major contribution to the scholarship of nationalist movements in the early twentieth century

Annual Review of Psychology Mark R. Rosenzweig, Lyman W. Porter,1994-02 Problem of Ethnicity: Role of United Nations in Kosovo Crisis Jasvir Singh,2009 **Latin American State Building in Comparative Perspective**

Marcus J. Kurtz,2013-03-25 This book provides an account of long run institutional development in Latin America that emphasizes the social and political foundations of state building processes Family-School Links Alan Booth, Judith F. Dunn,2013-10-31 Based on the presentations and discussions from a national symposium on family school links held at the Pennsylvania State University this volume brings together psychologists sociologists educators and policymakers studying the bidirectional effects between schools and families This topic the links between families and schools and how these affect children s educational achievement encompasses a host of questions each of key social and educational significance How far

does parental involvement in schools affect children's experiences and achievement at school? What explains the great differences between schools, families, and communities in the extent of such involvement? Are these differences a matter of school practices or do they reflect much broader social and cultural divisions? What is the nature of the impact schools have on children and their families? How can family-school partnerships be fostered in a way that helps children? The chapter authors consider these questions and related issues; present different perspectives; highlight various aspects of the issues; and suggest widely differing answers. This volume's goal is to provide the reader with current information on what is known about family-school-community links and to provoke new ways of thinking about these links and their implications for children's education and well-being. *Demography: Analysis and Synthesis, Four Volume Set* Graziella Caselli, Jacques

Vallin, Guillaume Wunsch, 2006-01-03 This four-volume collection of over 140 original chapters covers virtually everything of interest to demographers, sociologists, and others. Over 100 authors present population subjects in ways that provoke thinking and lead to the creation of new perspectives, not just facts and equations to be memorized. The articles follow a theory-methods-applications approach and so offer a kind of one-stop shop that is well suited for students and professors who need non-technical summaries such as political scientists, public affairs specialists, and others. Unlike shorter handbooks,

Demography: Analysis and Synthesis offers a long-overdue thorough treatment of the field. Choosing the analytical method that fits the data and the situation requires insights that the authors and editors of *Demography: Analysis and Synthesis* have explored and developed. This extended examination of demographic tools not only seeks to explain the analytical tools themselves but also the relationships between general population dynamics and their natural, economic, social, political, and cultural environments. Limiting themselves to human populations only, the authors and editors cover subjects that range from the core building blocks of population change (fertility, mortality, and migration) to the consequences of demographic changes in the biological and health fields, population theories and doctrines, observation systems, and the teaching of demography. The international perspectives brought to these subjects is vital for those who want an unbiased, rounded overview of these complex, multifaceted subjects. Topics to be covered: Population Dynamics and the Relationship Between Population Growth and Structure; The Determinants of Fertility; The Determinants of Mortality; The Determinants of Migration; Historical and Geographical Determinants of Population; The Effects of Population on Health, Economics, Culture, and the Environment; Population Policies; Data Collection; Methods and Teaching about Population Studies. All chapters share a common format. Each chapter features several cross-references to other chapters. Tables, charts, and other non-text features are widespread. Each chapter contains at least 30 bibliographic citations. [The Berlin Aging Study](#) Paul B. Baltes, Karl Ulrich

Mayer, 2001-03-19 The present and future of our society are shaped by an ever-increasing proportion of old and very old people. The Berlin Aging Study is one of the largest interdisciplinary efforts to explore old age and aging. Unique aspects of the Berlin Aging Study are the spectrum of scientific disciplines involved, the range of discipline-specific and interdisciplinary

research topics the focus on very old age 70 to over 100 years and the empirical reference to a representative heterogeneous urban population The study's first cross sectional findings on intellectual abilities self and personality social relationships physical health functional capacity medical treatment mental disorders such as depression and dementia socioeconomic conditions activities everyday competence subjective well being and gender differences are reported in depth in this book The study was carried out in the context of the Berlin Brandenburg Academy of Sciences study group on Aging and Social Development The authors primarily conduct their research at the Berlin Max Planck Institute for Human Development the Free University of Berlin and the Humboldt University Berlin

Methodologies on the Move Anna Amelina, Thomas Faist, Devrim Sel D. Nergiz, 2014-10-14 This volume establishes a new agenda for approaches to migration research and the corresponding methodologies A wide range of international contributors focus on the question of how to overcome the so called methodological nationalism within empirical studies on migration They address two main challenges how to contextualize the empirical research field and how to deal with national and ethnic categorizations within the empirical studies Methodologies on the Move outlines first of all a new epistemological basis for migration research which is pinpointing the relational concept of space Second building on the multi sited method of ethnography it provides detailed insights into novel qualitative and quantitative research designs Third it presents innovative data collection methods on geographic and virtual mobility and on cross border social practices This volume transcends the early criticisms of methodological nationalism in migration research and suggests both general methodological lines as well as helpful tools for empirical analysis This book was originally published as a special issue of Ethnic and Racial Studies

Theoretical and Comparative Perspectives on Nationalism Taras Kuzio, 2007-12-17 This volume brings together 15 articles divided into four sections on the role of nationalism in transitions to democracy the application of theory to country case studies and the role played by history and myths in the forging of national identities and nationalisms The book develops new theories and frameworks through engaging with leading scholars of nationalism Hans Kohn's propositions are discussed in relation to the applicability of the term civic with no ethno cultural connotations to liberal democracies Rogers Brubaker over the usefulness of dividing European states into civic and nationalizing states when the former have historically been nationalizers Will Kymlicka on the applicability of multiculturalism to post communist states and Paul Robert Magocsi on the lack of data to support claims of revivals by national minorities in Ukraine The book also engages with transitology over the usefulness of comparative studies of transitions in regions that underwent only political reforms and those that had quadruple transitions implying

simultaneous democratic and market reforms as well as state and nation building A comparative study of Serbian and Russian diasporas focuses on why ethnic Serbs and Russians living outside Serbia and Russia reacted differently to the disintegration of Yugoslavia and the USSR The book dissects the writing of Russian and Soviet history that continues to utilize imperial frameworks of history analyzes the re writing of Ukrainian history within post colonial theories and discusses the forging of Ukraine s identity within theories of Others as central to the shaping of identities The collection of articles proposes a new framework for the study of Ukrainian nationalism as a broader research phenomenon by placing nationalism in Ukraine within a theoretical and comparative perspective

Rethinking History, Reframing Identity Alexandra Wangler, 2012-04-09 This book contributes to the theoretical and methodological discussion about how the diverging experiences of generations and their historical memories play a role in the process of national identity formation Drawing from narratives gathered within the Ukrainian minority in northern Poland and centered on the collective trauma of Action Vistula where in 1947 about 140 000 Ukrainians were resettled from south eastern Poland and relocated to the north western areas this study shows that three generations vary considerably with regard to their understandings of home integration history and religion Thus generational differences are an essential element in the analysis and understanding of social and political change The findings of this study provide a contribution to debates about the process based nature of national identity the role of trauma in creating generational consciousness and how generations should be conceptualized

The Rise of Think Tanks in China Xufeng Zhu, 2012-10-12 Despite continuing criticism of the Chinese authoritarian political system the range of participants in the

decision making process has widened with different social actors now playing an increasingly important role in the Chinese policymaking process Accordingly the role of think tanks in the policymaking process has generated great interest within and outside China This book explores the behaviour and influence of China's think tanks and explains the reasons and social consequences of the rise of think tanks in China The book raises several questions on the topic How did think tanks emerge in China What are the essential factors that determine think tanks in terms of building their governmental and personal networks How do think tanks work and build their influence in the Chinese policy process What happens to Chinese society when think tanks become important policy participants in the policy process The book goes on to discuss new perspectives on policy processes and elite politics in China and empirically with comparative case study and data from nationwide questionnaire surveys provides a comprehensive picture of think tanks in the current political system of the country

Dignity at Work Randy Hodson, 2001-09-10 Human dignity the ability to establish a sense of self worth and self respect and to enjoy the respect of others is necessary for a fully realized life Working with dignity is a fundamental part of achieving a life well lived yet the workplace often poses challenging obstacles because of mismanagement or managerial abuse Defending dignity and realizing self respect through work are key to workers well being insuring the dignity of employees is equally important for organizations as they attempt to make effective use of their human capital In this book Randy Hodson a sociologist of work and organizational behavior applies ethnographic and statistical approaches to this topic offering both a richly detailed inside look at real examples of dignity in action and a broader analysis of the pivotal role of dignity at work
