*Material Culture and Asian Religions* Benjamin Fleming, Richard Mann, 2014-03-26 Traditionally research on the history of Asian religions has been marked by a bias for literary evidence privileging canonical texts penned in classical languages Not only has a focus on literary evidence shaped the dominant narratives about the religious histories of Asia in both scholarship and popular culture but it has contributed to the tendency to study different religious traditions in relative isolation from one another Today moreover historical work is often based on modern textual editions and increasingly on electronic databases What may be lost in the process is the visceral sense of the text as artifact as a material object that formed part of a broader material culture in which the boundaries between religious traditions were sometimes more fluid than canonical literature might suggest This volume brings together specialists in a variety of Asian cultures to discuss the methodological challenges involved in integrating material evidence for the reconstruction of the religious histories of South Southeast Central and East Asia By means of specific test cases the volume explores the importance of considering material and literary evidence in concert What untold stories do these sources help us to recover How might they push us to reevaluate historical narratives traditionally told from literary sources By addressing these questions from the perspectives of different subfields and religious traditions contributors map out the challenges involved in interpreting different types of data assessing the problems of interpretation distinct to specific types of material evidence e g coins temple art manuscripts donative inscriptions and considering the issues raised by the different patterns in the preservation of such evidence in different locales Special attention is paid to newly discovered and neglected sources to our evidence for trade migration and inter regional cultural exchange and to geographical locales that served as contact zones connecting cultures In addition the chapters in this volume represent the rich range of religious traditions across Asia including Hinduism Buddhism Taoism Shinto and Chinese religions as well as Islam and eastern Christianities

**Asian Horizons** Angelo Andrea Di Castro, David Templeman, 2015-04-01 Asian Horizons is published in honour of the great scholar of Asia Professor Giuseppe Tucci 1894 1984 Through the work of present day scholars both senior and emerging this volume represents their efforts to maintain the impetus of the profound legacy Tucci left Renowned to this day as a founding scholar in an extraordinarily wide variety of disciplines as well as being an explorer of hitherto largely unknown lands such as Tibet Tucci gained a deep knowledge of Asia through a familiarity with its people places and literature His contribution to modern

scholarship is nothing less than remarkable The volume reflects the broad variety of topics in which Tucci himself displayed deep interest and serves as an homage to his work **Theologia Crucis in Asia** A.A. Yewangoe,2024-08-19 *Esoteric Buddhism in Mediaeval Maritime Asia* Andrea Acri,2016-09-05 This volume advocates a trans regional and maritime focused approach to studying the genesis development and circulation of Esoteric or Tantric Buddhism across Maritime Asia from the seventh to the thirteenth centuries ce The book lays emphasis on the mobile networks of human agents Masters textual sources Texts and images Icons through which Esoteric Buddhist traditions spread Capitalising on recent research and making use of both disciplinary and area focused perspectives this book highlights the role played by Esoteric Buddhist maritime networks in shaping intra Asian connectivity In doing so it reveals the limits of a historiography that is premised on land based transmission of Buddhism from a South Asian homeland and advances an alternative historical narrative that overturns the popular perception regarding Southeast Asia as a periphery that passively received overseas influences Thus a strong point is made for the appreciation of the region as both a crossroads and rightful terminus of Buddhist cults and for the re evaluation of the creative and transformative force of Southeast Asian agents in the transmission of Esoteric Buddhism across mediaeval Asia *Asian Business* ,1997 **Asian Theology of Liberation** Aloysius Pieris,1988-03-09 Pieris confronts two of the most urgent and complex questions facing Christians today so many poor people and so many religions He believes that the approaches of the Christian Churches to these questions will determine whether Christianity will continue to have any relevance for Asia or not *Routledge Handbook of East Asian Popular Culture* Koichi Iwabuchi,Eva Tsai,Chris Berry,2016-12-01 Since the 1990s there has been a dramatic increase in cultural flows and connections between the countries in the East Asian region Nowhere is this more apparent than when looking at popular culture where uneven but multilateral exchanges of Japanese Korean Taiwanese Hong Kong and Chinese products have led to the construction of an East Asian Popular Culture This is both influenced by and in turn influences the national cultures and generates transnational co production and reinvention As East Asian popular culture becomes a global force it is increasingly important for us to understand the characteristics of contemporary East Asian popular culture and in particular its transnational nature In this handbook the contributors theorize East Asian experiences and reconsider Western theories on cultural globalization to provide a cutting edge overview of this global phenomenon The Routledge Handbook of East Asian Popular Culture will be of great interest to students and scholars of a wide range of disciplines including Cultural Studies Media Studies Communication Studies Anthropology Sociology and Asian Studies in general
