Sundays at Moosewood Restaurant Moosewood Collective,2013-10-29 Since its opening in 1973 Moosewood Restaurant in Ithaca New York has been synonymous with creative cuisine with a healthful vegetarian emphasis Each Sunday at Moosewood Restaurant diners experience a new ethnic or regional cuisine sometimes exotic sometimes familiar From the highlands and grasslands of Africa to the lush forests of Eastern Europe from the sun drenched hills of Provence to the mountains of South America the inventive cooks have drawn inspiration for these delicious adaptations of traditional recipes Including a section on cross cultural menu planning as well as an extensive guide to ingredients techniques and equipment Sundays at Moosewood Restaurant offers a taste for every palate Moosewood Restaurant is run by a group of eighteen people who rotate through the jobs necessary to make a restaurant work They plan menus set long term goals and wash pots Moosewood Restaurant contributes 1% of its profits from the sale of this book to the Eritrean Relief Fund which provides food and humanitarian assistance to the Eritrean people Moosewood Restaurant supports 1% For Peace an organization working to persuade the government to redirect 1% of the Defense Department budget towards programs that create and maintain peace in positive ways [The Buddha's Footprint](#) Johan Elverskog,2020-02-21 A corrective to the contemporary idea that Buddhism has always been an environmentally friendly religion In the current popular imagination Buddhism is often understood to be a religion intrinsically concerned with the environment The Dharma the name given to Buddhist teachings by Buddhists states that all things are interconnected Therefore Buddhists are perceived as extending compassion beyond people and animals to include plants and the earth itself out of a concern for the total living environment In The Buddha s Footprint Johan Elverskog contends that only by jettisoning this contemporary image of Buddhism as a purely ascetic and apolitical tradition of contemplation can we see the true nature of the Dharma According to Elverskog Buddhism is in fact an expansive religious and political system premised on generating wealth through the exploitation of natural resources Elverskog surveys the expansion of Buddhism across Asia in the period between 500 BCE and 1500 CE when Buddhist institutions were built from Iran and Azerbaijan in the west to Kazakhstan and Siberia in the north Japan in the east and Sri Lanka and Indonesia in the south He examines the prosperity theology at the heart of the Dharma that declared riches to be a sign of good karma and the means by which spritual status could be elevated through donations bequeathed to

Buddhist institutions He demonstrates how this scriptural tradition propelled Buddhists to seek wealth and power across Asia and to exploit both the people and the environment Elverskog shows the ways in which Buddhist expansion not only entailed the displacement of local gods and myths with those of the Dharma as was the case with Christianity and Islam but also involved fundamentally transforming earlier social and political structures and networks of economic exchange The Buddha's Footprint argues that the institutionalization of the Dharma was intimately connected to agricultural expansion resource extraction deforestation urbanization and the monumentalization of Buddhism itself **Delicious Tofu** Angela

Capitalism Magic Thailand Peter A Jackson, 2021-12-13 By studying intersections among new cults of wealth ritually empowered amulets and professional spirit mediumship which have emerged together in Thailand's dynamic religious field in recent decades Capitalism Magic Thailand explores the conditions under which global modernity produces new varieties of enchantment Bruno Latour's account of modernity as a condition fractured between rationalizing ideology and hybridizing practice is expanded to explain the apparent paradox of new forms of magical ritual emerging alongside religious fundamentalism across a wide range of Asian societies In Thailand novel and increasingly popular varieties of ritual now form a symbolic complex in which originally distinct cults centred on Indian deities Chinese gods and Thai religious and royal figures have merged in commercial spaces and media sites to sacralize the market and wealth production Emerging within popular culture this complex of cults of wealth amulets and spirit mediumship is supported by all levels of Thai society including those at the acme of economic and political power New theoretical frameworks are presented in analyses that challenge the view that magic is a residue of premodernity placing the dramatic transformations of cultic ritual centre stage in modern Thai history It is concluded that modern enchantment arises at the confluence of three processes neoliberal capitalism's production of occult economies the auraticizing effects of technologies of mass mediatization and the performative force of ritual in religious fields where practice takes precedence over doctrine
