Asian Women:

Women's Movements in Asia Mina Roces, Louise Edwards, 2010-06-10 *Women's Movements in Asia* is a comprehensive study of women's activism across Asia. With chapters written by leading international experts, it provides a full overview of the history of feminism as well as the current context of the women's movement in 12 countries: the Philippines, China, Indonesia, Japan, Burma, Singapore, Vietnam, Malaysia, Thailand, Cambodia, Hong Kong, Korea, India, and Pakistan. For each of these countries, the manner in which feminism changes according to cultural, political, economic, and religious factors is explored. The contributors investigate how national feminisms are influenced by transnational factors such as the women's movements in other countries, colonialism, and international agencies. Each chapter also considers what Asian feminists have contributed to global theoretical debates on the woman question, the key successes and failures of the movements, and what needs to be addressed in the future. This breadth of coverage, together with suggestions for further reading and watching and an integrated cross-national timeline, makes *Women's Movements in Asia* ideal for use on courses looking at women and feminism in Asia. It will appeal both to students and specialists in the fields of gender, women's, and Asian studies.

Women's Manga in Asia and Beyond Fusami Ogi, Rebecca Suter, Kazumi Nagaike, John A. Lent, 2019-03-14 *Women's Manga in Asia and Beyond* offers a variety of perspectives on women's manga and the nature, scope, and significance of the relationship between women and comics manga, both globally as well as locally. Based on the activities since 2009 of the Women's MANGA Research Project in Asia (WMRPA), the edited volume elucidates social and historical aspects of the Asian wave of manga from ever broader perspectives of transnationalization and glocalization. With a specific focus on women's direct roles in manga creation, it illustrates how the globalization of manga has united different cultures and identities, focusing on networks of women creators and readerships. Taking an Asian regional approach combined with investigations of non-Asian cultures which have felt manga's impact, the book details manga's shift to a global medium, developing, uniting, and involving increasing numbers of participants worldwide. Unveiling diverse Asian identities and showing ways to unite them, the contributors to this volume recognize the overlaps and unique trends that emerge as a result.

Chitra Sankaran,2021-11-01 In recent decades East Asia has gained prominence and has become synonymous with Asia while other Asian regions such as South and Southeast Asia have been subsumed under it The resultant overgeneralization has meant that significant aspects of the global ecological crisis as they affect these two regions have been overlooked Chitra Sankaran refocuses the global lens on these two rapidly developing regions of Asia Combining South Asian and Southeast Asian philosophical views and folk perspectives with mainstream ecocritical and ecofeminist theories she generates a localized critical idiom that qualifies and subverts some established theoretical assumptions This pioneering study introducing a corpus of more than thirty ecofictions by women writers from twelve countries in South and Southeast Asia examines how recent global threats to ecosystems in both nature and culture impact subdominant groups including women This new corpus reveals how women and subalterns engage with various aspects of critical ecologies Using ecofeminist theory augmented by postcolonial and risk theories as the main theoretical framework Sankaran argues that these women writers present unique perspectives that review Asian women s relationships to human and nonhuman worlds
