Wolff and the First Fifty Years of German Metaphysics Corey W. Dyck, 2024-11-05

Wolff and the First Fifty Years of German Metaphysics offers a fresh account of philosophical developments in German philosophy in the first half of the 18th century At the centre of this book is Wolff s seminal text on metaphysics the *Deutsche Metaphysik* of 1719 a text that modernized and advanced German philosophy but also provoked a vigorous intellectual controversy which informed and animated German thought through the decades until Kant s later philosophical revolution Corey W Dyck draws extensively on the wider intellectual context and Wolff s own early philosophical and scientific writings to provide a new and comprehensive account of Wolff s metaphysics with particular emphasis on Wolff s views on the human soul and God Dyck explores the impact of Wolff s text beginning with a widely neglected aspect of Wolff s reception in Germany namely the striking uptake of his philosophy among women intellectuals and Wolff s hostile reception by his Pietist colleagues In the concluding chapters a number of key metaphysical debates in the aftermath of the controversy between Wolff and the Pietists are considered The reader is shown how these two opposed intellectual systems served as the indispensable frame for metaphysical inquiry inspiring and shaping discussion among German thinkers in the first half of the 18th century In the end this all points to the rich philosophical vein exposed through the opening of the fracture between Wolffianism and Pietism and takes a step towards giving Wolff but also his Pietist critics and the philosophers who took up positions between them their rightful place at the beginning of the history of classical German metaphysics

Dismantling the Dream Factory Hester Baer,2012-02 The history of postwar German cinema has most often been told as a story of failure a failure paradoxically epitomized by the remarkable popularity of film throughout the late 1940s and 1950s Through the analysis of 10 representative films Hester Baer reassesses this period looking in particular at how the attempt to dismantle the dream factory of Nazi entertainment cinema resulted in a new cinematic language which developed as a result of the changing audience demographic In an era when female viewers comprised 70 per cent of cinema audiences a women s cinema emerged which sought to appeal to female spectators through its genres star choices stories and formal conventions In addition to analyzing the formal language and narrative content of these films Baer uses a wide array of other sources to reconstruct the original context of their reception including promotional and publicity materials film programs censorship documents reviews and spreads in fan magazines This book presents a new take on an essential period which saw the rebirth of German cinema after its thorough delegitimization under the Nazi regime The Catholic Beethoven Assistant Professor of Musicology Nicholas Chong,2025-01-23 The Catholic Beethoven offers a new view of Beethoven and his religious music by demonstrating that both the composer and his sacred works were influenced by the German Catholicism of his era to a much greater extent than has been thought It draws on revisionist historical research into the role of religion in the Enlightenment especially the Catholic Enlightenment to interpret both the composer s religious works and documentary evidence of his spiritual outlook In addition it is the first book length treatment of Beethoven s sacred music that is not focused only on the Missa solemnis but also examines the Mass in C Christus am Iberge and the Gellert Lieder Islam and Muslims in Germany Ala Al-Hamarneh,Jörn Thielmann,2008-01-01 In the European discourse of post 9 11 reality concepts such as a

oeMulticulturalisma a oeIntegrationa and a oeEuropean Islama are becoming more and more topical The empirically based contributions in this volume aim to reflect the variety of current Muslim social practices and life worlds in Germany The volume goes beyond the fragmented methods of minority case studies and the monolithic view of Muslims as portrayed by mass media to present fresh theoretical approaches and in depth analyses of a rich mosaic of communities cultures and social practices Issues of politics religion society economics media art literature law and gender are addressed The result is a vibrant state of the art publication of studies of real life communities and individuals **Books in Print Supplement** ,1985

The Languages of Early Medieval Charters ,2020-11-23 This is the first major study of the interplay between Latin and Germanic vernaculars in early medieval records Building on previous work on the uses of the written word in the early Middle Ages which has dispelled the myth that this was an age of orality the contributions in this volume bring to the fore the crucial question of language choice in the documentary cultures of early medieval societies Specifically they examine the interactions between Latin and Germanic vernaculars in the Anglo Saxon and eastern Frankish worlds and in neighbouring areas The chapters are underpinned by an important comparative dimension on account of the two regions shared linguistic heritage and numerous cross Channel links Contributors are Stefan Esders Albert Fenton Robert Gallagher Wolfgang Haubrichs Charles Insley Kathryn A Lowe Rosamond McKitterick Rory Naismith Janet L Nelson Edward Roberts Annina Seiler Marco Stoffella Francesca Tinti Kate Wiles Bernhard Zeller See inside the book *Music and Performance During the Weimar Republic* Bryan Randolph Gilliam,1994-07-21 Composers performers and audiences alike sought to negate their recent past in various ways by affirming modern technology electronic or mechanical music sound recordings radio and film exploring music of a more remote past principally Baroque music and celebrating popular music particularly jazz The essays contained in this volume address these fundamental themes *Legacies and Ambiguities* Ernestine Schlant,J. Thomas Rimer,1991-10 The literary legacies of World War II have been mixed and varied especially in West Germany and Japan where the burden of defeat has been expressed by novelists and intellectuals in strikingly different ways Reflecting the cultural differences between the two nations and the experiences of occupation and democratization that occurred after the war the postwar literatures of Germany and Japan intimately reveal the hopes and aspirations the dreams and the nightmares of two peoples confronting the harsh realities of war Using a comparative approach Ambiguous Legacies explores the conditions and values under which the postwar literatures of West Germany and Japan were created Specifically the book assesses the meaning of the German and Japanese literary responses to the World War II the tendencies of denial or silence by German writers the fatalism and passivity of Japanese novels and the importance of the past in defining the recent New subjectivism among German writers and the outpourings of the Introverted Generation by Japanese novelists Ernestine Schlant s introduction sets the context for the individual chapters and offers guideposts for further comparative scholarship The book also includes a useful annotated bibliography and suggestions for further reading The contributors are Arnulf

,2000 **Preaching in Judaism and Christianity** Alexander Deeg,Walter Homolka,Heinz-Günther Schöttler,2008-08-27 It is a widespread idea that the roots of the Christian sermon can be found in the Jewish derasha But the story of the interrelation of the two homiletical traditions Jewish and Christian from New Testament times to the present day is still untold Can homiletical encounters be registered Is there a common homiletical history not only in the modern era but also in rabbinic times and in the Middle Ages Which current developments affect Jewish and Christian preaching today in the 21st century And most important what consequences may result from this mutual perception of Jewish and Christian homiletics for homiletical research and the practice of preaching This book offers the papers of the first international conference Bamberg Germany 6th to 8th March 2007 which brought together Jewish and Christian scholars to discuss Jewish and Christian homiletics in their historical development and relationship and to sketch out common homiletical projects

Religious Reading in the Lutheran North Charlotte Appel,Morten Fink-Jensen,2011-01-18 Religious Reading in the Lutheran North opens up the doors to a part of early modern European history that has often been overlooked In the Nordic countries an abundance of religious literature in the vernacular was produced in the centuries following the Reformation and reading was almost exclusively taught to children in a Lutheran Protestant setting Literacy rates were high and by the mid eighteenth century around ninety per cent of both men and women could read The eight contributions to the present book investigate different aspects of religious reading in Denmark Norway Sweden and Greenland looking at the publication and dissemination strategies of authors and clergymen as well as reading habits and interpretations among Scandinavian readers
