Secret Societies Michael Howard, 2007-12-05 An overview of how esoteric brotherhoods have shaped history Examines the secret chronology and clandestine causes of seminal world events Shows how secret societies feed into one another and how they have worked together For thousands of years secret societies guardians of ancient esoteric wisdom have exercised a strong and often crucial influence on the destiny of nations Though largely ignored by orthodox historians the Freemasons Knights Templar and Rosicrucians affected the course of the French and American Revolutions as well as the overthrow of the medieval feudal order Inevitably the true ideals and esoteric practices of these societies have at times been perverted by self serving individuals The Nazis and the Bolsheviks British security forces the founding fathers of America and the Vatican have all justified their actions for good or for ill by claiming the mystic ideals of secret societies Michael Howard explores these connections tracing their effects in politics and statecraft from the time of ancient Egypt up to the present He sheds light on the influence of secret societies on governments and in the lives of many well known figures including Frederick the Great John Dee Francis Bacon Benjamin Franklin Comte de Cagliostro Helena Blavatsky Rasputin and Woodrow Wilson He contends that the recent formation of the European Union was directed by an umbrella group of secret societies and reveals that though secret societies have been persecuted throughout history they have survived and continue to operate powerfully in world affairs today

The Coming of the Terror in the French Revolution Timothy Tackett, 2015-02-23 Between 1793 and 1794 thousands of French citizens were imprisoned and hundreds sent to the guillotine by a powerful dictatorship that claimed to be acting in the public interest Only a few years earlier revolutionaries had proclaimed a new era of tolerance equal justice and human rights How and why did the French Revolution's lofty ideals of liberty equality and fraternity descend into violence and terror By attending to the role of emotions in propelling the Terror Tackett steers a more nuanced course than many previous historians have managed Imagined terrors as Tackett very usefully reminds us can have even more political potency than real ones David A Bell *The Atlantic* Tackett analyzes the mentality of those who became terrorists in 18th century France In emphasizing weakness and uncertainty instead of fanatical strength as the driving force behind the Terror Tackett contributes to an important realignment in the study of French history Ruth Scurr *The Spectator* A boldly conceived and important book This is a thought provoking book that makes a major contribution to our understanding of terror and political intolerance and also to the history of emotions more generally It helps expose the complexity of a revolution that cannot be adequately understood in terms of principles alone Alan Forrest *Times Literary Supplement*

A Master Class on Being Human Anthony Pinn, Brad Braxton, 2023-07-25 A conversation between 2 eminent Black thinkers on how to work together to make the world a better place despite deep religious differences Brad Braxton and Anthony Pinn represent two traditions Christianity and Secular Humanism respectively that have for centuries existed in bitter opposition For too long people with different worldviews have disparaged and harmed one another Instead of fighting each other Braxton and Pinn

talk with listen to and learn from one another Their wide ranging conversation demonstrates the possibility of fruitful exchange that accounts for rather than masks their differences Written amid the Covid 19 pandemic threats to our democracy and national protests for racial justice A Master Class on Being Human shows us that constructive dialogue can help us pursue the common good without sacrificing our distinctive identities In conversations that are frank personal and deeply informed by scholarship Braxton and Pinn discuss topics that are urgent and immediate such as the ongoing violence against Black communities the rise of religiously unaffiliated communities the Black Lives Matter movement They also ponder those broader philosophical and theological questions that inform our politics and sense of what it means to be human the meaning of religion the stubborn dilemma of moral evil the power and problems of hope Braxton and Pinn invite us to join them in a master class as they strive to create a world where differences are not tolerated but instead celebrated In that kind of courageous classroom all can learn how to be better people who in turn transform the world into a better place
