Supporting Students through High-Quality Teaching Satu Tuomainen, 2023-08-28 This book provides a Finnish perspective on high quality teaching in higher education and explores Finnish approaches on teaching learning and supporting students. It addresses the concepts of quality in teaching, teaching excellence and effective teaching in today's higher education in which the student body has become increasingly international and heterogeneous. The book discusses how the role of the teacher has changed from authority to facilitator in the past decades while many students still value their university experience based on the teachers they encounter. The book provides a practitioner view on how students can be supported through communication, compassion and expertise and how professional and pedagogical development are essential for high quality teaching in an increasingly competitive, diverse and online world of higher education. The book introduces the principles of Finnish higher education and universities and the Finnish education system in connection with the approach to teaching, teacher education and the highly valued profession of a teacher. What is good teaching in higher education? It can consist of the learning environment, the location, the students and the teacher and many studies show that effective, compassionate, skilled and humanist teachers will leave their mark on students. It is also equally important for teachers to invest in pedagogical training and conduct research on teaching practices, experiments and students' perceptions as part of professional development. International classrooms also require specific considerations as does online learning. The COVID 19 pandemic forced a substantial transfer to online and blended learning in higher education but can quality teaching exist online or have we passed the baton to students to be in charge of their learning to study even more independently?

Developing As a Teacher of History Julian Stern, 1998-06-01 **Lecturing** Sally Brown, Phil Race, 2003-12-16 Lecturing can be a terror, a chore or an exhilarating experience. For most lecturers at one time or another it is all of these things. For many in HE/FE it remains the staple form of teaching and as student groups get ever larger good lecturing becomes ever more important. This is an accessible, friendly and confidence boosting book for inexperienced and experienced lecturers alike. Written in a lively and straightforward style it guides readers through the art of good lecturing. This is a book to use both to gain confidence and to work with as your lecturing becomes more assured. The authors show how to improve lecturing and how lecturing is a flexible and essential tool for enhancing learning and understanding. Illustrated throughout with fascinating case studies and scenarios and with helpful hints and tips, key issues covered include the place and types of lecture, voice and body language, causing learning in lectures, making lectures more effective, lecturing tools and processes, engaging groups, ensuring and developing quality tips for day to day use.
