Assessing Speaking:

Assessing Speaking Sari Luoma, 2004-06-17 Speaking is a central yet complex area of language acquisition The assessment of this crucial skill is equally complex This book takes teachers and language testers through the research on the assessment of speaking as well as through current tests of speaking The book then guides language testers through the stages of test tasks rating practices and design *Assessing Speaking in Context* M. Rafael Salaberry, Alfred Rue Burch, 2021-07-23 This edited volume investigates the nature and possible applications of an expanded and reconceptualized theoretical construct of speaking as a dynamic socially constructed endeavour It addresses both theoretical perspectives and methodological procedures to define and circumscribe the assessment of contextualized speaking The chapters focus on the complexity brought about by actual interactional competence in speaking tasks and discuss how testing and assessment models and practices can incorporate recent research findings on the inherently dynamic and situated nature of language use The volume presents research on language assessment in a variety of languages other than English including French Chinese and Japanese It also examines the role that embodied action gaze gesture orientation to materials and texts in the environment plays in assessment practices an area that has heretofore remained under explored Chapter 6 is free to download as an open access publication under a CC BY NC ND licence You can access it here <https://zenodo.org/record/5163340/files/YQvJ0IhKjcs>
