**U.S. Army War College Guide to Strategy** , *Congress and Defense Spending* Barry Rundquist, Thomas M. Carsey, 2002 Since World War II the U S government has spent more than 10 trillion on defense Although everyone in the United States must pay taxes supporting defense contracts ten states have obtained 75 percent of all defense contracts and expenditures In *Congress and Defense Spending* Barry S Rundquist and Thomas M Carsey examine how the distribution of defense contracts is influenced by the interaction of state and local economies with the organization of Congress and how previous state representation on defense committees has affected current committee representation *Reclaiming Prosperity* Todd Schafer, 1996 Timely reading for general readers as well as students and faculty Choice EPI has assembled some of the best minds in the country to offer sound solutions to the problems our country faces Richard Gephardt *U.S. Army War College Guide to National Security Issues: National security policy and strategy* J. Boone Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 Volume II continues the analyses and discussion of national security policy and strategy **The Science of War** Michael E. O'Hanlon, 2013-04-21 An essential introduction to modern defense policy The U S military is one of the largest and most complex organizations in the world How it spends its money chooses tactics and allocates its resources have enormous implications for national defense and the economy *The Science of War* is the only comprehensive textbook on how to analyze and understand these and other essential problems in modern defense policy Michael O Hanlon provides undergraduate and graduate students with an accessible yet rigorous introduction to the subject Drawing on a broad range of sources and his own considerable expertise as a defense analyst and teacher he describes the analytic techniques the military uses in every crucial area of military science O Hanlon explains how the military budget works how the military assesses and deploys new technology develops strategy and fights wars handles the logistics of stationing and moving troops and equipment around the world and models and evaluates battlefield outcomes His modeling techniques have been tested in Iraq and Afghanistan including the methods he used to predict higher than anticipated troop fatalities in Iraq controversial predictions that have since been vindicated *The Science of War* is the definitive resource on warfare in the twenty first century Gives the best introduction to defense analysis available Covers defense budgeting Shows how to model and predict outcomes in war Explains military logistics including overseas basing Examines key issues in military technology including missile defense space warfare and nuclear weapons testing Based on the author s graduate level courses at Princeton Columbia and Georgetown universities **Assessing the potential for civil-military integration : technologies, processes, and practices.** , *Assessing the Potential for Civil-military Integration* United States. Congress. Office of Technology Assessment, 1994 *Shaping American Military Capabilities after the Cold War* Richard Lacquement, 2003-02-28 For more than 40 years U S defense policy and the design of military capabilities were driven by the threat to national security posed by the Soviet Union and its allies As the Soviet Union collapsed analysts

wondered what effect this dramatic change would have upon defense policy and the military capabilities designed to support it Strangely enough this development would ultimately have little effect on our defense policy Over a decade later American forces are a smaller but similar version of their Cold War predecessors The author argues that despite many suggestions for significant change the bureaucratic inertia of comfortable military elites has dominated the defense policy debate and preserved the status quo with only minor exceptions This inertia raises the danger that American military capabilities will be inadequate for future warfare in the information age In addition such legacy forces are inefficient and inappropriately designed for the demands of frequent and important antiterrorist and peace operations Lacquement offers extensive analysis concerning the defense policymaking process from 1989 to 2001 including in particular the 2001 Quadrennial Defense Review This important study also provides a set of targeted policy recommendations that can help solve the identified problems in preparing for future wars and in better training for peace operations
