Assessing the Long-term Effects of Foster Care, 1993 **ASSESSING THE LONG-TERM EFFECTS OF FOSTER CARE: A RESEARCH SYNTHESIS... ED408036... U.S. DEPARTMENT OF EDUCATION**, 1998 *Assessing the Long-term Effects of Foster Care* Thomas Patrick McDonald, 1996 What lasting impact has foster care had on the adult lives of former foster children Noting how trends in expectations and outcomes in foster care have changed over the past 30 years this comprehensive and critical review of the impact foster care has had on children provides a framework for the critical assessment of trends in programs and policies identifies what is known and not known concerning the impact of foster care and offers recommendations for future data collection and research as well as program and policy development A welcome addition to the literature for program administrators policymakers and researchers in the child welfare field *Assessing the Long-term Effects of Foster Care* Glen George Cain, 1992 **Assessing Children in the Urban Community** Barbara L. Mercer, Tricia Fong, Erin Rosenblatt, 2015-12-22 This book illuminates the process of child psychological assessment in community psychology through discussion theory and case studies of collaborative systemic treatment of children and their parents *Assessing Children in the Urban Community* presents a semi structured form of collaborative psychological assessment designed to help clients gain new insights and make changes in their lives Traditional psychological assessment focuses on diagnosis and treatment but has been slow to include contextual elements particularly social and cultural contexts into the assessment process and psychological report Clients receiving services in a community psychology clinic pay for their treatment through state welfare coverage They cannot choose their providers they cannot always determine the length and course of their mental health care they often do not have access to transportation to begin services to continue them or to take advantage of follow up recommendations The Therapeutic Assessment model is particularly adaptable to community psychology because it allows maximum interaction in the assessment process and promotes participation and collaboration in an often disempowering system This book will be relevant to clinical psychologists community psychologists social workers family therapists graduate students in psychology social work marriage and family therapists and counseling programs

What Works in Foster Care? Peter J. Pecora, 2010 The Northwest Foster Care Alumni Study found that quality foster care services for children pay big dividends when they grow up Key investments in highly trained staff low caseloads and robust complementary services can dramatically reduce rates of mental disorders and substance abuse This book offers a model foster care programme *Child Welfare for the Twenty-first Century* Gerald P. Mallon, Peg McCartt Hess, 2005-09-14 This up to date and comprehensive resource by leaders in child welfare is the first book to reflect the impact of the Adoption and Safe Families Act ASFA of 1997 The text serves as a single source reference for a wide array of professionals who work in children youth and family services in the United States policymakers social workers psychologists educators attorneys guardians ad litem and family court judges and as a text for students of child welfare practice and policy Features include

Organized around ASFA's guiding principles of well-being, safety, and permanency. Focus on evidence-based best practices. Case examples integrated throughout. First book to include data from the first round of National Child and Family Service Reviews. Topics discussed include the latest on prevention of child abuse and neglect and child protective services, risk and resilience in child development, engaging families, connecting families with public and community resources, health and mental health care needs of children and adolescents, domestic violence, substance abuse in the family, family preservation services, family support services, and the integration of family-centered practices in child welfare, gay and lesbian adolescents and their families, children with disabilities, and runaway and homeless youth. The contributors also explore issues pertaining to foster care and adoption, including a focus on permanency planning for children and youth and the need to provide services that are individualized and culturally and spiritually responsive to clients. A review of salient systemic issues in the field of children, youth, and family services completes this collection.

Resources in Education, 1997 *Handbook of Child Maltreatment* Jill E. Korbin, Richard D. Krugman, 2013-11-26 This Handbook examines core questions still remaining in the field of child maltreatment. It addresses major challenges in child maltreatment work, starting with the question of what child abuse and neglect is exactly. It then goes on to examine why maltreatment occurs and what its consequences are. Next, it turns to prevention, treatment, and intervention, as well as legal perspectives. The book studies the issue from the perspective of the broader international and cross-cultural human experience. Its aim is to review what is known but even more importantly to examine what remains to be known to make progress in helping abused children, their families, and their communities.

Take Me Home Jill Duerr Berrick, 2008-08-27 There is a profound crisis in the United States foster care system. Jill Duerr Berrick writes in this expertly researched, passionately written book: No state has passed the federally mandated Child and Family Service Review; two-thirds of the state systems have faced class action lawsuits demanding change; and most tellingly, well over half of all children who enter foster care never go home. The field of child welfare has lost its way and is neglecting its fundamental responsibility to the most vulnerable children and families in America. The family stories Berrick weaves throughout the chapters provide a vivid backdrop for her statistics. Amanda, raised in foster care, began having children of her own while still a teen and lost them to the system when she became addicted to drugs. Tracy, brought up by her schizophrenic single mother, gave birth to the first of eight children at age fourteen and saw them all shuffled through foster care as she dealt drugs and went to prison. Both they and the other individuals that Berrick features spent years without adequate support from social workers or the government before finally achieving a healthier life; many people never do. But despite the clear crisis in child welfare, most calls for reform have focused on unproven prevention methods, not on improving the situation for those already caught in the system. Berrick argues that real child welfare reform will only occur when the centerpiece of child welfare—reunification, permanency, and foster care—is reaffirmed. *Take Me Home* reminds us that children need long-term caregivers who can help them develop and thrive. When troubled parents can't

change enough to permit reunification alternative permanency options must be pursued And no reform will matter for the hundreds of thousands of children entering foster care each year in America unless their experience of out of home care is considerably better than the one many now experience Take Me Home offers prescriptions for policy change and strategies for parents social workers and judges struggling with permanency decisions Readers will come away reinvigorated in their thinking about how to get children to the homes they need
