Assessing Democracy In Latin America:

Assessing Democracy In Latin America Philip Kelly, 2021-11-28 Based on fifty years worth of data *Assessing Democracy in Latin America* examines and compares the progress of Latin American countries toward democracy The essays in this volume all written by contributors to the Fitzgibbon Democracy Survey focus their analyses on those factors most germane to the growth maintenance or failure of democratic systems For example in his initial chapter Philip Kelly identifies two variables mechanized agriculture and per capita newspaper circulation as the best statistical indicators of democracy in Latin America Other contributors explore a variety of new topics such as the connection between democracy and environmental movements Kathryn Hochstetler and Steven Mumme political parties John D Martz and social dynamics Robert L Peterson Initiated in 1945 as a method of measuring and ranking Latin American democratic systems the Fitzgibbon Democracy Surveys longevity and scope provide an unparalleled wealth of scholarly research This volume offers what few others like it can a longitudinally deep data set eleven surveys over the past fifty years and closely coordinated coverage of the complete range of Latin American countries by specialists assembled expressly for that purpose *The Unfinished Transition to Democracy in Latin America* Juan Carlos Calleros-Alarcón, 2008-11-20 This book examines the political evolution of the judiciary a usually overlooked political actor and its capacity to contribute to the process of democratic consolidation in Latin America during the 1990s Calleros analyzes twelve countries in order to assess the independence impartiality political strength and efficiency of the judicial branch The picture that emerges with the one exception of Costa Rica is the persistence of weak judicial systems unable in practice to check other branches of government including the executive and the military while not quite effective in fully protecting human rights or in implementing due process of law guarantees Aggravating issues such as corruption heavy case backlogs overcrowding of prisons circumvention of laws and personal vulnerability of judges make the judiciary the least evolved of the three branches of government in the Latin American transitions to democracy *How Europeans View and Evaluate Democracy* Monica Ferrin, Hanspeter Kriesi, 2016 Based on a new data set covering 29 European and neighboring countries this volume shows how Europeans view and evaluate democracy what are their conceptions of democracy how do they assess the quality of democracy in their own country and to what extent do they consider their country's democracy as legitimate The study shows that Europeans share a common view of liberal democracy which is complemented by elements of social and direct democracy which go beyond the basic liberal model The level of their demands in terms of democracy varies however considerably across Europe and is related to their assessment of democracy the worse the quality of democracy in a given country the higher the respective demands on democracy The analysis of the determinants of democratic views and evaluations shows that they depend on the political and economic but less on the cultural context conditions *Comparative Politics* is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on

comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The Comparative Politics series is edited by Emilie van Haute Professor of Political Science Université libre de Bruxelles Ferdinand Muller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Assessing the Quality of Democracy Larry Diamond, Leonardo Morlino, 2005-11-25 Publisher description

World View: The 1995 Strategic Assessment from the Strategic Studies Institute, 1995 Each January the regional analysts at the Strategic Studies Institute SSI U S Army War College assess global trends that are likely to determine the state of the world through the next decade From these assessments study proposals are devised which focus on those issues and trends impacting on the requirements for maintaining America's Army as a strategic force during the coming years In 1995 the analysts at SSI estimate that 14 major determinants will significantly influence the Army's posture U S interests and national military strategy The debate between the services pertaining to roles admissions will continue Fiscal constraints will necessarily exacerbate the competition over roles and missions as each service tries to define its parameters in the wake of political change an uncertain and constantly evolving international situation and the ongoing Revolution in Military Affairs RMA The Army will articulate and refine its vision as a strategic force for the 21st century as it re engineers itself into Force XXI Fiscal constraints will also continue to drive national priorities Added to the budgetary restraints will be the uncertainties accompanying the changes in the political leadership in Congress where Republicans have replaced Democrats as chairs of all committees in both the House and Senate U S forces will continue to be used in Military Operations Other Than War MOOTW However ongoing emphasis on peacekeeping and peace enforcement operations in consonance with United Nations and other coalition partner will cause the debate on the efficacy of this kind of use of U S force to intensify The Caribbean will remain troublesome as the political and economic crisis in Cuba deepens In Haiti rising expectations will not be matched with socioeconomic progress and frustrations could well foster violence as the time for withdrawal of U N peacekeeping forces nears

How Europeans View and Evaluate Democracy Revisited Mónica Ferrín, Hanspeter Kriesi, 2025-01-29 In 2012 How Europeans View and Evaluate Democracy assessed the Europeans views and evaluations of the state of democracy after one of the deepest economic and financial crises worldwide Against the most pessimistic Zeitgeist the book found that there was overwhelming support for democracy in Europe even if the breadth and scope of the citizens demands for their democratic systems varied within and between countries Importantly with very few exceptions the implementation of the basic democratic principle of free and fair elections was well evaluated across Europe However analysis also showed that there was room for improvement in many countries according to the citizens evaluations Overall in 2012 there were no symptoms of a democratic crisis in Europe Ten years and several crises later the authors reassess how Europeans view and evaluate democracy and that many changes that have occurred in the meantime This book How

Europeans View and Evaluate Democracy Revisited compares how Europeans view and evaluate democracy in 2021/22 and in 2012 based on surveys in 24 European countries. It shows that Europeans continue to be attached to democratic ideals and that they continue to be rather dissatisfied with the way these ideals are implemented in their country. The liberal democratic model continues to enjoy great support just as it did a decade ago and there is also support for additional models of democracy for social direct and populist democracy. Surprisingly the populist model turns out to be a complement rather than a substitute for the other models.

Comparative Politics is a series for researchers, teachers and students of political science that deals with contemporary government and politics. Global in scope, books in the series are characterized by a stress on comparative analysis and strong methodological rigour. The series is published in association with the European Consortium for Political Research. For more information visit www.ecpr.net. The series is edited by Nicole Bolleyer, Chair of Comparative Political Science, Geschwister Scholl Institut LMU Munich and Jonathan Slapin, Professor of Political Institutions and European Politics, Department of Political Science, University of Zurich.

Religion and Democracy in Latin America William H. Swatos, Drawn from the pages of *Sociological Analysis: Sociology of Religion* this collection of original essays demonstrates the complexity of the religious structure of Latin America, discussing interactions among Protestant and Roman Catholic religious movements and democratic as well as antidemocratic political agendas.

Handbook of Public Policy Evaluation Frédéric Varone, Steve Jacob, Pirmin Bundi, 2023-10-06 This comprehensive Handbook examines public policy evaluation in democracies. Focusing on the political dimension of the evaluation process it argues that policy evaluation can be an emancipatory tool reducing social inequalities and exclusion and offers novel suggestions on how evaluations can be used to improve democratic policymaking.

International IDEA Handbook on Democracy Assessment Iain Kearton, Sarah Bracking, Stuart Weir, David Beetham, 2021-11-15 The International IDEA Handbook on Democracy Assessment is a robust and sensitive guide to assessing the quality of democracy and human rights in any country around the world. The Handbook introduces an easy to use and universal methodology for assessing the condition of democracy in any country or its progress in democratisation that has been developed in a three year action programme at IDEA, the inter-governmental Institute for Democracy and Electoral Assistance in Sweden. The Handbook provides a means to measure systematically the full range of values, institutions and issues relating to modern democracy that is sensitive to the underlying principles and democracy and

the differences between democracies themselves It is therefore both universal in application and capable of responding to particular aspects of any one nation s democratic arrangements The animating principle of the Handbook is that only citizens of a nation themselves are qualified to assess the quality of their own democratic arrangements Thus it provides a self help guide which gives academics lawyers political practitioners journalists and interested citizens the tools to assess the state of their democracy or any key aspects of their democracy The Handbook is above all a practical working document that draws on the actual experience of assessing democracy in different countries comparative knowledge and research and democratic principles and practice It gives a step by step guide to the purposes and methods of democracy assessment who to involve how to use the research tools how to validate the findings what standards of practice to adopt and how to present and publicise a finished assessment It contains extracts from completed assessments guidance on the use of qualitative and quantitative data examples of codes of democratic practice and international and regional standards and a vast list of accessible data sources The methodology was created by a team of political scientists assembled from all regions of the world by International IDEA and has been tried and tested in a variety of countries including Bangladesh El Salvador Italy Kenya Malawi New Zealand Peru South Korea and the United Kingdom International organisations like the World Bank and UNECA are adapting it for in country use The four main authors and editors have been directly involved from the inception of the project in developing and refining the methodology and participating in and advising on the nine country studies that form the essential practical core of experience on which this invaluable Handbook is based

Routledge Handbook of Democratization Jeffrey Haynes,2012-03-15 This exciting new handbook provides a global overview of the process of democratization offering chapter by chapter discussion at both the country and regional levels and examining the interaction between the domestic and external factors that affect the progression of countries from authoritarian to democratic rule Bringing together 29 key experts in the field the work is designed to contrast the processes and outcomes of democratic reform in a wide range of different societies evaluating the influence of factors such as religion economic development and financial resources It is structured thematically into four broad sections Section I provides a regional tour d horizon of the current state of democratisation and democracy in eight regions around the world Section II examines key structures processes and outcomes of democratisation and democracy Section III focuses on the relationship between democratisation and international relations through examination of a range of issues and actors including the third and fourth waves of democracy political conditionality the United Nations the European Union the African Union and the Organisation of African States Section IV Examines the interaction between democratisation and development with a focus on poverty and inequality security human rights gender war and conflict resolution A comprehensive survey of democratization across the world this work will be essential reading for scholars and policy makers alike
