Assyrian Medical Texts From The Originals In The British Museum

Leo G. Perdue

Assyrian Medical Texts From The Originals In The British Museum:

Assyrian Medical Texts from the Originals in the British Museum Reginald Campbell Thompson, 1923 **Assyrian Medical Texts from the Originals in the British Museum** Reginald Campbell Thompson, 1983 Assyrian Medical Texts, from the Originals in the British Museum. [Transcribed, with Preface,] by R.C. Thompson Reginald Campbell Thompson, 1923 Assyria Medical Texts from the Originals in the British Museum ,1923 **Diagnoses in Assyrian and Babylonian Medicine** Jo Ann Scurlock, Burton Andersen, 2010-10-01 To date the pathbreaking medical contributions of the early Mesopotamians have been only vaguely understood Due to the combined problems of an extinct language gaps in the archeological record the complexities of pharmacy and medicine and the dispersion of ancient tablets throughout the museums of the world it has been nearly impossible to get a clear and comprehensive view of what medicine was really like in ancient Mesopotamia The collaboration of medical expert Burton R Andersen and cuneiformist JoAnn Scurlock makes it finally possible to survey this collected corpus and discern magic from experimental medicine in Ashur Babylon and Nineveh Diagnoses in Assyrian and Babylonian Medicine is the first systematic study of all the available texts which together reveal a level of medical knowledge not matched again until the nineteenth century A D Over the course of a millennium these nations were able to develop tests prepare drugs and encourage public sanitation Their careful observation and recording of data resulted in a description of symptoms so precise as to enable modern identification of numerous diseases and afflictions

Assyrian and Babylonian Scholarly Text Catalogues Ulrike Steinert, 2018-06-11 The reconstruction of ancient Mesopotamian medical ritual and omen compendia and their complex history is still characterised by many difficulties debates and gaps due to fragmentary or unpublished evidence This book offers the first complete edition of the Assur Medical Catalogue an 8th or 7th century BCE list of therapeutic texts which forms a core witness for the serialisation of medical compendia in the 1st millennium BCE The volume presents detailed analyses of this and several other related catalogues of omen series and rituals constituting the corpora of divination and healing disciplines The contributions discuss links between catalogues and textual sources providing new insights into the development of compendia between serialization standardization and diversity of local traditions Though its a novel corpus based approach this volume revolutionizes the current understanding of Mesopotamian medical texts and the healing disciplines of conjurer and physician The research presented here allows one to identify core text corpora for these disciplines as well as areas of exchange and borrowings between them

Translating Writings of Early Scholars in the Ancient Near East, Egypt, Greece and Rome Annette Imhausen, Tanja Pommerening, 2016-11-21 Ancient cultures have left written evidence of a variety of scientific texts But how can should they be translated Is it possible to use modern concepts and terminology in their translation and which consequences result from this practice Scholars of various disciplines discuss the practice of translating ancient scientific texts and present examples of these texts and their translations Corpus of Mesopotamian

Anti-Witchcraft Rituals Tzvi Abusch, Daniel Schwemer, Mikko Luukko, Greta Van Buylaere, 2019-10-01 Among the most important sources for understanding the cultures and systems of thought of ancient Mesopotamia is a large body of magical and medical texts written in the Sumerian and Akkadian languages. An especially significant branch of this literature centers upon witchcraft. Mesopotamian anti witchcraft rituals and incantations attribute ill health and misfortune to the magic machinations of witches and prescribe ceremonies, devices and treatments for dispelling witchcraft, destroying the witch and protecting and curing the patient. The Corpus of Mesopotamian Anti Witchcraft Rituals aims to present a reconstruction of this body of texts; it provides critical editions of the relevant rituals and prescriptions based on the study of the cuneiform tablets and fragments recovered from the libraries of ancient Mesopotamia. *Mesopotamian Eye Disease Texts* Markham J. Geller, Strahil V. Panayotov, 2020-10-26 There is to date no comprehensive treatment of eye disease texts from ancient Mesopotamia and no English translation of this material is available. This volume is the first complete edition and commentary on Mesopotamian medicine from Nineveh dealing with diseases of the eye. This ancient work, languishing in British Museum archives since the 19th century, is preserved on several large cuneiform manuscripts from the royal library of Ashurbanipal from the 7th century BC. The longest surviving ancient work on diseased eyes, the text predates by several centuries corresponding Hippocratic treatises. The Nineveh series represents a systematic array of eye symptoms and therapies, also showing commonalities with Egyptian and Greco-Roman medicine. Since scholars of Near Eastern civilizations and ancient and general historians of medicine will need to be familiar with this material, the volume makes this aspect of Babylonian medicine fully accessible to both specialists and non-specialists, with all texts being fully translated into English.

Magical Passages in Ancient Near Eastern Rituals Ilan Peled, 2025-09-24 This book focuses on the element of thresholds, makeshift gates, makeshift structures and house doors as concepts of liminality in ancient Near Eastern magical rituals and the idea of transformation they reflect. Readers gain an in-depth understanding of theories of liminality and rites of passage and how they illuminate fascinating aspects of social behavior and religious and cultic practices in ancient Near Eastern societies, specifically those of Hatti and Mesopotamia. Ritual liminality manifested in the use of makeshift and permanent architectural elements was meant to facilitate two different aims: transformation from one category to the other using makeshift gates and structures, and separation between categories using house doors. The book presents the pertinent ritual texts in their original languages, analyzes these texts in detail and offers comparative discussions of the different cultures that practiced these rituals. *Magical Passages in Ancient Near Eastern Rituals* is suitable for students and scholars interested in ancient religions, rituals and cults, particularly in the ancient Near East, as well as those working on ancient history, philology, anthropology and religious studies more broadly. **The Alkaloids: Chemistry and Physiology**

, 1965-01-01 *The Alkaloids: Chemistry and Physiology* *Evil Archaeology* Heather Lynn, 2025-09-12 An investigation into the historical and archaeological evidence of demons, curses and possession, featuring some of the most gruesome artifacts and

sites ever discovered Demons jinn possession sinister artifacts and gruesome archaeological discoveries haunt the pages of the new book by Dr Heather Lynn Evil Archaeology investigates the archaeological record for artifacts and evidence of evil entities revealing how demons from the ancient world may be dwelling among us It also looks at the history and lore behind real relics believed to be haunted and includes historical accounts of demonic possession that go as far back as King Solomon invoking demons to help him build his famed temple Is there really a prehistoric fertility goddess figure that has been known to bring death to the families of anyone who holds it Are there real vampire graveyards Can the archaeological record prove the existence of demons and malevolent entities Some tantalizing questions Evil Archaeology addresses include What is the origin of demons What role did Sumerian demons play in the development of civilization Are curses real Can material objects contain evil What about places What can we do to protect ourselves according to historical records Was Jesus an exorcist

The Dead Sea Scrolls In Context (2 vols) Armin Lange, Emanuel Tov, Matthias Weigold, 2011-09-09 The Dead Sea Scrolls enrich many areas of biblical research as well as the study of ancient and rabbinic Judasim early Christian and other ancient literatures languages and cultures With nearly all Dead Sea Scrolls published it is now time to integrate the Dead Sea Scrolls fully into the various disciplines that benefit from them This two volume collection of essays answers this need It represents the proceedings of a conference jointly organized by the Hebrew University of Jerusalem and the University of Vienna in Vienna on February 11 14 2008

Aramaic Bowl Spells Shaul Shaked, James Nathan Ford, Siam Bhayro, 2013-06-17 The corpus of Aramaic incantation bowls from Sasanian Mesopotamia is perhaps the most important source we have for studying the everyday beliefs and practices of the Jewish Christian Mandaean Manichaean Zoroastrian and Pagan communities on the eve of the Islamic conquests The bowls are from the Sch yen Collection which has some 650 texts in different varieties of Aramaic Jewish Aramaic Mandaic and Syriac and forms the largest collection of its kind anywhere in the world This volume presents editions of sixty four Jewish Aramaic incantation bowls with accompanying introductions translations philological notes photographs and indices The themes covered include the magical divorce and the accounts of the wonder working sages anina ben Dosa and Joshua bar Pera ia It is the first of a multi volume project that aims to publish the entire Sch yen Collection of Aramaic incantation bowls

Visualizing the invisible with the human body J. Cale Johnson, Alessandro Stavru, 2019-11-05 Physiognomy and ekphrasis are two of the most important modes of description in antiquity and represent the necessary precursors of scientific description The primary way of divining the characteristics and fate of an individual whether inborn or acquired was to observe the patient s external characteristics and behaviour This volume focuses initially on two types of descriptive literature in Mesopotamia physiognomic omens and what we might call ekphrastic description These modalities are traced through ancient India Ugaritic and the Hebrew Bible before arriving at the physiognomic features of famous historical figures such as Themistocles Socrates or Augustus in the Graeco Roman world where physiognomic discussions become intertwined with typological analyses of human characters The Arabic compendial culture

absorbed and remade these different physiognomic and ekphrastic traditions incorporating both Mesopotamian links between physiognomy and medicine and the interest in characterological types that had emerged in the Hellenistic period This volume offer the first wide ranging picture of these modalities of description in antiquity *The Cosmological Doctors of Classical Greece* David H. Camden,2023-05-11 The first comprehensive study of the origins motivations and methods of Greek doctors who investigated the universe as a whole *The Sword and the Stylus* Leo G. Perdue,2008-06-10 The all too frequent disregard of historical and social contexts by many wisdom scholars often leads to the distortion of this literature and transforms its teachings into abstract ideas lacking any incarnation in the social and historical world of human living Leo Perdue here argues from a sociohistorical approach that the proper understanding of ancient wisdom literature requires one to move out of the realm of philosophical idealism into the flesh and blood of human history Arguing that wisdom was international in practice and outlook Perdue traces the interaction between both ruling and subject nations and their sages who produced their respective cultures and their foundational worldviews While not always easy to reconstruct he acknowledges the historical and social settings of texts provide necessary contexts for interpretation and engagement by later readers and hearers Wisdom texts did not transcend their life settings to espouse values regardless of time and circumstance Rather they are located in a variety of historical events in an evolving nation reflecting a vast array of different and changing moral systems epistemologies and religious understandings

The Etruscans and the History of Dentistry Marshall J. Becker,Jean MacIntosh Turfa,2017-02-17 The Etruscans and the History of Dentistry offers a study of the construction and use of gold dental appliances in ancient Etruscan culture and their place within the framework of a general history of dentistry with special emphasis on appliances from Bronze Age Mesopotamia and Egypt to modern Europe and the Americas Included are many of the ancient literary sources that refer to dentistry or the lack thereof in Greece and Rome as well as the archaeological evidence of ancient dental health The book challenges many past works in exposing modern scholars fallacies about ancient dentistry while presenting the incontrovertible evidence of the Etruscans seemingly modern attitudes to cosmetic dentistry Culinary Technology of the Ancient Near East Jill L. Baker,2024-10-28 Culinary Technology of the Ancient Near East discusses the technical aspects of meal preparation cooking and baking in the ancient Near East exploring a wide range of topics including kitchens cooking equipment cooking and baking vessels and serving and eating utensils Chapters explore and describe the culinary technologies and techniques employed by the peoples of the ancient Near East from the Neolithic to the Early Roman period considering their unique and pioneering contributions to the development and evolution of gastronomic devices and apparatus and highlighting some of the foods prepared by them recognizing their application and influence in contemporary cooking and baking Baker brings together in a single volume what is known about the culinary technology of the ancient Near East based on the archaeological textual historic and scientific data drawn from a wide range of studies and discusses this data in terms of its cultural historic and socio economic

context She emphasizes these technologies as the foundation upon which modern culinary technology is based and applies relevant ancient techniques to modern systems Overall the volume acknowledges the ingenuity of the ancient mind in order to understand their culinary technology which in turn helps us better understand our own and apply these and new ideas to the present and future This is a fascinating study suitable for students and scholars working on food and households in the ancient Near East as well as those working on the history of food cooking and dining and the history of technology more broadly *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library. Research Libraries,1979
