Astrology And Alchemy:

Astrology, Magic, and Alchemy in Art Matilde Battistini, 2007 From antiquity to the Enlightenment astrology magic and alchemy were considered important tools to unravel the mysteries of nature and human destiny As a result of the West's exposure during the Middle Ages to the astrological beliefs of Arab philosophers and the mystical writings of late antiquity these occult traditions became rich sources of inspiration for Western artists In this latest volume in the popular Guide to Imagery series the author presents a careful analysis of occult iconography in many of the great masterpieces of Western art calling out key features in the illustrations for discussion and interpretation Astrological symbols decorated medieval churches and illuminated manuscripts as well as fifteenth century Italian town halls and palaces The transformational zymology of magic and alchemy that enlivened the work of a wide range of Renaissance artists including Bosch Brueghel Durer and Caravaggio found renewed expression in the visionary works of nineteenth century artists such as Fuseli and Blake as well as in the creative output of the twentieth century's Surrealists

Alchemy Clare Martin, 2021-02-05 An alchemical approach seeks to release the latent potential which resides within the individual and within the cosmos There was never any question that the work of the alchemists depended upon a knowledge of the planets and their cycles since alchemical transformations could only be successful if carried out at the astrologically appropriate times This book has been steadily fermenting and evolving for over twenty five years and as such it represents a true alchemical process It has gone from being an idea to a passion and then a project and now it is a fully fledged book Learn firstly about the mystical process of alchemy and then discover how it deepens our understanding of the transits of the outer planets to the natal chart A fascinating book that deserves a place in every astrologer's library Clare Martin has an MA in Integrative Psychotherapy and has been a practising astrologer and teacher since 1990 working in London for the Faculty of Astrological Studies of which she was President for nine years and at the Centre for Psychological Astrology Her personal approach to astrological interpretation is fundamentally Jungian and evolved during a long period of studying with a variety of teachers in the western mystery traditions Clare now lives in Dorset where she continues her writing and consultancy work and is a tutor on the Mercury Internet School of Psychological Astrology

Astrological Alchemy Joan Negus, 2010-05 When we use astrology of course we want to look ahead and anticipate the future The easiest and most common method is transits a comparison of where the planets are in the zodiac now or at any time in the future and how they relate to our birth chart But should we wait for our transits to happen and worry if they seem challenging No With this author's positive approach experience and practical advice we can learn how to direct our transits In her thorough explanation of transit cycles Joan Negus emphasizes that transits highlight opportunities She offers suggestions and insights gained through years of observation and client

counseling about how we can consciously plan how to make the most of our good transits while transmuting those challenging base transits into golden opportunities
