Black Elected Officials 1999:

Black Elected Officials ,2000 *Black Elected Officials* David A. Bositis,2002 **Statistical Abstract of the United States** ,2010 **Black-Latino Relations in U.S. National Politics** Rodney E. Hero,Robert R. Preuhs,2013-01-21 Social science research has frequently found conflict between Latinos and African Americans in urban politics and governance as well as in the groups attitudes toward one another Rodney E Hero and Robert R Preuhs analyze whether conflict between these two groups is also found in national politics Based on extensive evidence on the activities of minority advocacy group in national politics and the behavior of minority members of Congress the authors find the relationship between the groups is characterized mainly by non conflict and a considerable degree of independence The question of why there appears to be little minority intergroup conflict at the national level of government is also addressed This is the first systematic study of Black Latino intergroup relations at the national level of United States politics *God and Government in the Ghetto* Michael Leo Owens,2008-11-15 In recent years as government agencies have encouraged faith based organizations to help ensure social welfare many black churches have received grants to provide services to their neighborhoods poorest residents This collaboration activist churches explain is a way of enacting their faith and helping their neighborhoods But as Michael Leo Owens demonstrates in *God and Government in the Ghetto* this alliance also serves as a means for black clergy to reaffirm their political leadership and reposition moral authority in black civil society Drawing on both survey data and fieldwork in New York City Owens reveals that African American churches can use these newly forged connections with public agencies to influence policy and government responsiveness in a way that reaches beyond traditional electoral or protest politics The churches and neighborhoods Owens argues can see a real benefit from that influence but it may come at the expense of less involvement at the grassroots Anyone with a stake in the changing strategies employed by churches as they fight for social justice will find *God and Government in the Ghetto* compelling reading Whose Black Politics? Andra Gillespie,2010-01-29 Using multiple case studies this title probes the implications of the emergence of a vanguard of leaders of African American politics It establishes a theoretical framework based on the interaction of three factors black leaders crossover appeal their political ambition and connections to the black establishment *The New Black Politician* Andra Gillespie,2013-09 Looks at the 2002 Newark mayoral race between Cory Booker and the more established black incumbent Sharpe James which articulated how moderate black politicians are challenging civil rights veterans for power Race and Multiraciality in Brazil and the United States G. Reginald Daniel,2010-11-01 **Changing White Attitudes toward Black Political Leadership** Zoltan L. Hajnal,2006-12-25 Despite the hopes of the civil rights movement researchers have found that the election of African Americans to office has not greatly improved the well being of the black community By shifting the focus to the white community this book shows that black representation can have a profound impact Utilizing national public opinion surveys data on voting patterns in large American cities and in depth studies of Los Angeles and Chicago

Zoltan Hajnal demonstrates that under most black mayors there is real positive change in the white vote and in the racial attitudes of white residents This change occurs because black incumbency provides concrete information that disproves the fears and expectations of many white residents These findings not only highlight the importance of black representation they also demonstrate the critical role that information can play in racial politics to the point where black representation can profoundly alter white views and white votes

Newby,2014-02-03 It is rare that a major leader of a protest movement also becomes an accomplished scholar who provides valuable insight into the movement in which he participated Yet this was precisely what Ronald W Walters 1938 2010 did Born in Wichita Kansas the young Walters led the first modern sit in protest during the summer of 1958 nearly two years before the more famous Greensboro sit in of 1960 After receiving a doctorate from American University Walters embarked on an extraordinary career of scholarship and activism Shaped by the civil rights and black power movements and the African and Caribbean liberation struggles Walters was a pioneer in the development of black studies and black science in political science A public intellectual as well as advisor and strategist to African American leaders Walters founded numerous organizations that shaped the post civil rights era A must read for scholars students pundits political leaders and activists What Has This Got to Do with the Liberation of Black People is a major contribution to the historiography of the civil rights and black power movements African American intellectual history political science and black studies

Educational Freedom in Urban America David Salisbury,Casey Lartigue Jr.,2004-05-25 In 1954 the U S Supreme Court declared segregated public schools unconstitutional The ruling in Brown v Board of Education set public education on a course toward equality Yet five decades later schools are not equal

Minority children living in America's inner cities suffer disproportionately from a failing education system with black and Hispanic students dropping out of public high schools at much higher rates than whites. There is, however, reason for hope. The expansion of school choice offers new opportunities for children struggling in failing schools. In this collection, a dozen leading scholars, educators, and reformers, including Andrew Coulson, Floyd Flake, Frederick Hess, and Paul E. Peterson, examine the legacy of *Brown v. Board* and its relation to the modern-day school choice movement. A school administrator and a charter school founder also reveal the challenges and obstacles faced by enterprising teachers in trying to help their students. Together, these experts expose the modern barriers that deprive inner-city children of a good education and call for increased school choice as the most effective way to achieve the goals of *Brown v. Board*. Educational Freedom in Urban America is essential reading for anyone concerned with the condition of our inner-city schools and the racial and social inequities that still exist in American education.

African Americans in Georgia Pearl K. Ford, 2010 Provides an understanding of the intersection of race and region while addressing contemporary issues such as the future of elementary and higher education, the nature of health care disparities, and voting and representation. The research presented here reveals that race and class-based problems remain, and geography often is a contributing factor to those differences.

Intersectionality and Politics Carol Hardy-Fanta, 2013-05-13 Cutting-edge research on the intersection of race, gender, and politics. Traditionally, there has been a significant lack of empirical attention given to the ways in which race, ethnicity, gender, and political representation overlap. *Intersectionality and Politics* is the groundbreaking collection of contemporary research and essays that applies the concept of intersectionality specifically to descriptive and substantive representation by African American, Latino, and Asian American elected officials. This unique compilation looks at numerous states and focuses on multiple racial/ethnic groups to demonstrate the importance of this theory for understanding the political leadership of people of color and women. *Intersectionality and Politics* is the wide-ranging text that is both an informative overview and a thought-provoking analysis of a subject that has received little practical study. Articles in this important text cover a expansive gamut from women of color as elected officials and the changing face of leadership in America today to an exploration of the growing interest in intersectionality and a look toward the potential of future research, making it a useful and comprehensive one-stop resource. Contributors to *Intersectionality and Politics* explore critical topics such as the contours and context of descriptive representation with a focus on women of color, the puzzle of women of color's proportionately higher percentage of office holding in state legislatures, agenda setting behavior of African American female state legislators, the impact of race and gender on the likelihood of legislative bill submission and passage, patterns of gendered representation and related legislative advocacy within Latino delegations in the Southwest, new findings on the Latino gender gap, the public policy implications of intersectionality theory, and many more. Complete with extensive bibliographies and a wealth of tables and figures to highlight the striking findings, *Intersectionality and Politics* is ideal for

undergraduate and graduate students and educators in political science ethnic studies Latino Black Asian studies gender studies sociology and women s studies Policymakers politicians and those working in high minority areas will also find this to be an invaluable text **Long March Ahead** R. Drew Smith,2004-12-16 Ten essayists discuss the black church s public activism on national policy issues in the post Civil Rights period focusing on issues such as health care affirmative action welfare reform and public education **Educational Freedom in Urban America** David F. Salisbury,Casey Lartigue,2004 This book offers a prescription for reform that includes freedom of choice among public and private schools
