Understanding Elder Abuse in Minority Populations Toshio Tatara, 2021-10-30 First published in 1999 Research on elder abuse in the United States has made great strides in recent years As a result we have been able to define and discover the causes of elder abuse design tools to assess the risk of abuse develop and implement treatment and prevention strategies and evaluate programs for victims and perpetrators However this research has been derived from studies whose subjects were primarily Caucasian This is not because elder abuse does not take place in minority communities but rather because researchers wanted first to study the issue in its broadest sense

The Lineaments of Wrath James W. Clarke, 2018-01-16 Violence has marked relations between blacks and whites in America for nearly four hundred years In The

Lineaments of Wrath James W Clarke draws upon behavioral science theory and primary historical evidence to examine and explain its causes and enduring consequences Beginning with slavery and concluding with the present Clarke describes how the combined effects of state sanctioned mob violence and the discriminatory administration of race blind criminal and contract labor laws terrorized and immobilized the black population in the post emancipation South In this fashion an agricultural system based on debt peonage and convict labor quickly replaced slavery and remained the back bone of the region s economy well into the twentieth century Quoting the actual words of victims and witnesses from former slaves to gangsta rappers Clarke documents the erosion of black confidence in American criminal justice In so doing he also traces the evolution across many generations of a black subculture of violence in which disputes are settled personally and without recourse to the legal system That subculture the author concludes accounts for historically high rates of black on black violence which now threatens to destroy the black inner city from within The Lineaments of Wrath puts America s race issues into a completely original historical perspective Those in the fields of political science sociology history psychology public policy race relations and law will find Clarke s work of profound importance

Crime against Women Prof. Sarita Vashistha,2021-09-15 Ironically women are still victimised in our society They have been at the receiving end from the very beginning of our civilization and culture Cutting across the regional and political barriers their lot has been the same The wrong perception prevalent in our society is that they are born to be subservient to men and they must be confined to child bearing and rearing only There has been a growing trend of violence against women more so with hunger and greed for material things Progressive changes in personal lifestyle living standards and varied growth caused by urbanisation and changes in social ethos all contribute to violent attitudes and tendencies towards women which have resulted in an increase in crimes against women This book would prove to be of worth for all scholars researchers and social workers who may prefer to know about the subject They would find it easy to read and comprehend It would certainly be an asset for them

Issues in the Psychology of Women Maryka Biaggio,Michel Hersen,2007-05-08 Over the past 15 years I MB have taught a graduate level course in Psychology of Women to students in two different professional psychology programs Because my students were at the doctoral level and often had some familiarity with the psychology of women these courses focused on bringing a feminist analysis of psychology and integrating a feminist analysis into one s scholarly work and professional activities Although I used several fine psychology of women textbooks during this time I found none that was specifically designed for graduate students Thus I always augmented the textbook with journal articles on specific aspects of the topic and these focused articles have typically been well received by the students The s dents whom I have encountered in these courses have often expressed a wish for a textbook that is designed for their needs I think what they are asking for is one that could serve as a foundation for their scholarly analysis of psychology as well as a springboard for thoughtful application of a feminist perspective to the profession of psychology Therefore Issues in the Psychology of Women has been

designed to serve as a textbook for advanced undergraduate or graduate courses including Psychology of Women or Feminist Analysis of Psychology This book is the collective work of authors with special expertise in their chapter topic Family Violence Robert L. Hampton,1999 Since the first edition there has been an expansion of knowledge in the field of family and intimate violence This revision offers a summary of some of the best of current scholarship conducted by family violence researchers

Criminological Perspectives on Race and Crime Shaun L. Gabbidon,2010-02-25 Ideal for use in either crime theory or race and crime courses this is the only text to look at the array of explanations for crime as they relate to racial and ethnic groups Each chapter begins with a historical review of each theoretical perspective and how its original formulation and more recent derivatives account for racial ethnic differences The theoretical perspectives include those based on religion biology social disorganization strain subculture labeling conflict social control colonial and feminism This new Second Edition includes discussions of Deadly Symbiosis critical race theory criminology comparative conflict theory maximization and abortion race and crime In the closing chapter the author considers which perspectives have shown the most promise in the area of race ethnicity and crime

Black Men on Race, Gender, and Sexuality Devon Carbado,1999-07 A groundbreaking anthology of essays providing commentary on gender and sexuality inclusion in the antiracist movement In late 1995 the Million Man March drew hundreds of thousands of black men to Washington DC and seemed even to skeptics a powerful sign not only of black male solidarity but also of black racial solidarity Yet while generating a sense of community and common purpose the Million Man March with its deliberate exclusion of women and implicit rejection of black gay men also highlighted one of the central faultlines in African American politics the role of gender and sexuality in antiracist agenda In this groundbreaking anthology a companion to the highly successful Critical Race Feminism Devon Carbado changes the terms of the debate over racism gender and sexuality in black America The essays cover such topics as the legal construction of black male identity domestic abuse in the black community the enduring power of black machismo the politics of black male white female relationships racial essentialism the role of black men in black women s quest for racial equality and the heterosexist nature of black political engagement Featuring work by Cornel West Huey Newton Henry Louis Gates Jr A Leon Higginbotham Jr Houston Baker Marlon T Riggs Dwight McBride Michael Awkward Ishmael Reed Derrick Bell and many others Devon Carbado s anthology stakes out new territory in the American racial landscape Critical America A series edited by Richard Delgado and Jean Stephancic
