Containing more than three hundred poems including nearly a hundred previously unpublished works this unique collection showcases the intellectual range of Claude McKay. 1889-1948 the Jamaican born poet and novelist whose life and work were marked by restless travel and steadfast social protest McKay's first poems were composed in rural Jamaican creole and launched his lifelong commitment to representing everyday black culture from the bottom up. Migrating to New York he reinvigorated the English sonnet and helped spark the Harlem Renaissance with poems such as *If We Must Die*. After coming under scrutiny for his communism he traveled throughout Europe and North Africa for twelve years and returned to Harlem in 1934 having denounced Stalin's Soviet Union. By then McKay's pristine violent sonnets were giving way to confessional lyrics informed by his newfound Catholicism. McKay's verse eludes easy definition yet this complete anthology vividly introduced and carefully annotated by William J. Maxwell acquaints readers with the full transnational evolution of a major voice in twentieth century poetry.

Counter-revolution of the Word Alan Filreis, 2012-09-01 During the Cold War an unlikely coalition of poets editors and politicians converged in an attempt to discredit if not destroy the American modernist avant garde. Ideologically diverse yet willing to bespeak their hatred of modern poetry through the rhetoric of anticommunism these anticommunist antimodernists as Alan Filreis dubs them joined associations such as the League for Sanity in Poetry to decry the modernist conspiracy against form and language. In *Counter-revolution of the Word* Filreis narrates the story of this movement and assesses its effect on American poetry and poetics. Although the antimodernists expressed their disapproval through ideological language their hatred of experimental poetry was ultimately not political but aesthetic. Filreis argues. By analyzing correspondence decoding pseudonyms drawing new connections through the archives and conducting interviews Filreis shows that an

informal network of antimodernists was effective in suppressing or distorting the postwar careers of many poets whose work had appeared regularly in the 1930s Insofar as modernism had consorted with radicalism in the Red Decade antimodernists in the 1950s worked to sever those connections fantasized a formal and unpolitical pre Depression High Modern moment and assiduously sought to de radicalize the remnant avant garde Filreis s analysis provides new insight into why experimental poetry has aroused such fear and alarm among American conservatives

F.B. Eyes William J. Maxwell,2016-12-06 How FBI surveillance influenced African American writing Few institutions seem more opposed than African American literature and J Edgar Hoover s white bread Federal Bureau of Investigation But behind the scenes the FBI s hostility to black protest was energized by fear of and respect for black writing Drawing on nearly 14 000 pages of newly released FBI files F B Eyes exposes the Bureau s intimate policing of five decades of African American poems plays essays and novels Starting in 1919 year one of Harlem s renaissance and Hoover s career at the Bureau secretive FBI ghostreaders monitored the latest developments in African American letters By the time of Hoover s death in 1972 these ghostreaders knew enough to simulate a sinister black literature of their own The official aim behind the Bureau s close reading was to anticipate political unrest Yet as William J Maxwell reveals FBI surveillance came to influence the creation and public reception of African American literature in the heart of the twentieth century Taking his title from Richard Wright s poem The FB Eye Blues Maxwell details how the FBI threatened the international travels of African American writers and prepared to jail dozens of them in times of national emergency All the same he shows that the Bureau s paranoid style could prompt insightful criticism from Hoover s ghostreaders and creative replies from their literary targets For authors such as Claude McKay James Baldwin and Sonia Sanchez the suspicion that government spy critics tracked their every word inspired rewarding stylistic experiments as well as disabling self censorship Illuminating both the serious harms of state surveillance and the ways in which imaginative writing can withstand and exploit it F B Eyes is a groundbreaking account of a long hidden dimension of African American literature

My Dear Boy Carrie Hughes,2013-11-15 My Dear Boy brings a largely unexplored dimension of Langston Hughes to light Carmaletta Williams and John Edgar Tidwell explain that scholars have neglected the vital role that correspondence between Carrie Hughes and her son Langston Harlem Renaissance icon renowned poet playwright fiction writer autobiographer and essayist played in his work The more than 120 heretofore unexamined letters presented here are a veritable treasure trove of insights into the relationship between mother Carrie and her renowned son Langston Until now a scholarly consensus had begun to emerge accepting the idea of their lives and his art as simple and transparent But as Williams and Tidwell argue this correspondence is precisely where scholars should start in order to understand the underlying complexity in Carrie and Langston s relationship By employing Family Systems Theory for the first time in Hughes scholarship they demonstrate that it is an essential heuristic for analyzing the Hughes family and its influence on his work The study takes the critical truism about Langston s reticence to reveal his inner self and shows how his responses to

Carrie were usually not in return letters but instead in his created art Thus My Dear Boy reveals the difficult negotiations between family and art that Langston engaged in as he attempted to sustain an elusive but enduring artistic reputation
