Black Separatism:

Black Separatism and Social Reality Raymond L. Hall, 2013-10-22 *Black Separatism and Social Reality* Rhetoric and Reason deals with the contemporary debate over black separatism in America. It brings together for the first time many of the perspectives, ideas, orientations, and ideologies that all directly or indirectly address the question of black separatism, pro and con, from the vantage point of their own realities. It raises fundamental issues that have recurred throughout the last century and continue unabated today, such as whether black Americans should seek their political destiny apart from white Americans or whether economic growth within the black community can eventually lead to true black power. This book is comprised of 31 chapters and begins with a historical overview and social reality of black separatism in America, how and why black separatist movements emerge, and why separatism appeals to some individuals and not to others. The next section explores the similarities of white racist assumptions and black separatism, as well as the arguments for and against separatism. The prospects of black separatism are analyzed along with Pan Africanism and black studies. A comprehensive review of the history of separatist thought and a bibliography concerning the relation of Afro Americans with Africa are presented. The possibility of a violent confrontation between whites and blacks is also considered. Finally, the book ponders the question of whether there is a need for a distinct black social science. This monograph will appeal to sociologists, social scientists, political scientists, politicians, blacks, and scholars of black studies. **Black Separatism** Betty Jenkins, Susan Phillis, Metropolitan Applied Research Center, 1976-03-23. Introduction to African American Studies Talmadge Anderson, James Benjamin Stewart, 2007. There is an ongoing debate as to whether African American Studies is a discipline or multidisciplinary or interdisciplinary field. Some scholars assert that African American Studies use a well-defined common approach in examining history, politics, and the family in the same way as scholars in the disciplines of economics, sociology, and political science. Other scholars consider African American Studies multidisciplinary, a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses, be they anthropological, psychological, historical, etc., to study the African world experience. In this model, the boundaries between traditional disciplines are accepted, and researches in African American Studies simply conduct discipline-based analysis of particular topics. Finally, another group of scholars insists that African American Studies is interdisciplinary, an enterprise that generates distinctive analyses by combining perspectives from different disciplines. **Ebony**, 1969-08. EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American focused magazine. *Black Pride and Black Prejudice* Paul M. Sniderman, Thomas Piazza, 2021-02-09. Do black pride and black prejudice come hand in hand? Does taking pride in being black encourage the

rejection of a common bond with other Americans In this groundbreaking study two leading social scientists mount a challenge to those who would answer yes Paul Sniderman and Thomas Piazza probe these questions in the only way possible asking black Americans themselves to share their thoughts about each other America and other Americans Writing in a strikingly transparent style they open a new window on the ideas and values of real individuals who make up the black community in America today Contrary to the rhetoric of some black leaders Sniderman and Piazza show that African Americans overwhelmingly reject racial separatism and embrace a common framework culture and identity with other Americans Although the authors find that levels of anti-Semitism are notably higher among black Americans than among white Americans they demonstrate that taking pride in being black does not encourage blacks to be more suspicious or intolerant of others who are not black The higher levels of anti-Semitism are instead associated with a gallery of oversimplified and accusatory ideas including a popularized Afrocentrism and charges of vast conspiracies that have won substantial support in the black community Readers of this book will come away with an understanding of how African Americans while insistent on winning racial justice are deeply committed to the values of the American ethos and their identity as Americans

The Critique of Nonviolence Mark Christian Thompson, 2022-06-28 How does Martin Luther King Jr understand race philosophically and how did this understanding lead him to develop an ontological conception of racist police violence In this important new work Mark Christian Thompson attempts to answer these questions examining ontology in Martin Luther King Jr's philosophy Specifically the book reads

King through 1920s German academic debates between Martin Heidegger Rudolf Bultmann Hans Jonas Carl Schmitt Eric Voegelin Hannah Arendt and others on Being gnosticism existentialism political theology and sovereignty It further examines King s dissertation about Tillich as well other key texts from his speculative writings sermons and speeches positing King s understanding of divine love as a form of Heideggerian ontology articulated in beloved community Tracking the presence of twentieth century German philosophy and theology in his thought the book situates King s ontology conceptually and socially in nonviolent protest In so doing The Critique of Nonviolence reads King s Letter from a Birmingham Jail 1963 with Walter Benjamin s Critique of Violence 1921 to reveal the depth of King s political theological critique of police violence as the illegitimate appropriation of the racialized state of exception As Thompson argues it is in part through its appropriation of German philosophy and theology that King s ontology condemns the perpetual American state of racial exception that permits unlimited police violence against Black lives
