Black Sheep The Definitive Account Of Marine Fighting Squadron 214 In World War II:

The Black Sheep Bruce Gamble, 1998 The story of the people places and events that made the legend of the Marine Fighting Squadron VMF 214 of WWII fame and of the squadron's pugnacious skipper Greg Pappy Boyington *The Fighting Corsairs* Jeff Dacus, 2020-10-01 From an historian and columnist in Leatherneck and Armor magazines this is the exciting personal account of a Marine fighter squadron in the South Pacific during the critical days of 1943 when the tide turned against the Japanese Based on individual interviews and wartime documents this is a thrilling narrative of the Marines who lived and died during the toughest battles of the entire war It looks at the war through the eyes of some of the greatest fighter pilots of all time including Bob Hanson the Maharajah of Rabaul and highest scoring Corsair pilot in history **Fly Boy Heroes** James H. Hallas, 2022-04-01 On the morning of December 7 1941 Chief Aviation Ordnanceman John W Finn though suffering multiple wounds continued to man his machine gun against waves of Japanese aircraft attacking the Kaneohe Bay Naval Station during the infamous Pearl Harbor raid Just over three years later as World War II struggled into its final months a B 29 radioman named Red Erwin lingered near death after suffering horrific burns to save his air crew in the skies off Japan They were the first and last of thirty U S Navy Army and Marine Corps aviation personnel awarded the Medal of Honor for their actions against the Japanese during World War II They included pilots and crewmen manning fighters and dive bombers and flying boats and bombers One was a general Another was a sergeant Some shot down large numbers of enemy aircraft in aerial combat Others sacrificed themselves for their friends or risked everything for complete strangers Who were these now largely forgotten men Where did they come from What inspired them to rise above and beyond What if anything made them different Virtually all had one thing in common they always wanted to fly They came from a generation that revered the aces of World War I like Eddie Rickenbacker the civilian flyer Charles Lindbergh and the lost aviator Amelia Earhart and then they blazed their own trail during World War II **The Greatest Air Aces Stories Ever Told** Robert Barr Smith, Laurence J. Yadon, 2017-04-03 In thirty five chapters *The Greatest Air Aces Stories Ever Told* covers many of the leading American and British Commonwealth fighter aces of WW I and II together with a few bomber crews whose gallantry made a substantial contribution to the end of WW II Other nations had their aces but this book concentrates on American and Commonwealth pilots These aviators were chosen not only because of their scores and their great courage but also for other qualities which set them apart like the WWII Royal Air Force Wing Commander who shot down more than 20 Germans while flying with two artificial legs Here are a few of the aces Note that the air forces of Europe and the United States did not always have today's names used here for simplicity's sake Albert Ball RAF son of the Lord Mayor of Nottingham winner of the Victoria Cross He had 44 victories in WWI when he was killed at the age of 20 well known to his German foes who much admired him Gabby Gabreski USAF Son of hard working Polish immigrants An ace in WWII with 28 kills and later in Korea with another six He was an accomplished commander finished a long career as a

colonel Mick Mannock RAF Tough and aggressive in spite of his fear of fire he won not only the Victoria Cross but five other high awards for gallantry Highest British scorer of WWI with 73 victories he detested Germans and rejoiced with every kill He was shot down by ground fire in the last year of the war David McCampbell USN Scored 34 WWII kills to become the U S Navy s all time ace In 1944 set an all time record with nine victories on a single mission Winner of the Congressional Medal Pickard RAF Led the RAF rooftop bomber raid on Amiens Prison In WWII freeing many underground members some of whom were facing death and who were promptly spirited away by French partisans Frank Luke USAF Deadly American famous for his busting of German observation balloons in WWI Shot up over German territory he managed to land safely but being Luke tried to fight it out with enemy infantrymen with only his pistol The book will also touch on the equipment these aces flew from the famous Fokkers and Sopwith Camels to the ungainly two seater FE2b which was driven by a pusher engine and looked like a bathtub with wings and a miniature oil derrick glued on the back Also included are our own Grumman carrier fighters the P 40s the P 38s as well as the P 51 Mustang probably the finest fighter of the war a happy marriage of an American airframe and a British engine The deadly graceful Spitfire has its place as do the Hurricane the biplane Gladiator and even the four engine Lancaster **Air Force Magazine** ,1998-07 [Rhino Tanks and Sticky Bombs](#) Robert P. Wettemann,2025-06-10 Coming of age during the Great Depression the American boys who fought in World War II had through necessity developed a unique brand of technological resourcefulness This proficiency Robert P Wettemann Jr contends provided GIs with another weapon in a distinctly American way of war Rhino Tanks and Sticky Bombs is Wettemann s eminently readable account of how this hard won use it up wear it out make it do or do without mentality was critical to America s success giving servicemen the know how and can do spirit to creatively engineer solutions to wartime problems More than all the other soldiers in the conflict American servicemen grew up in a society where the machine was ubiquitous where enduring an unparalleled period of financial distress meant learning to keep their Model Ts Fordson tractors or other machinery operational Wettemann describes how this tinkerer s mentality promoted a technical aptitude and willingness to adapt unmatched by other armies fielded during World War II At the same time the US command structure demonstrated a willingness to evaluate accept and employ such efforts to improve both fighting capacity and the general comfort of US servicemen Seamlessly blending social military intellectual and technological history Rhino Tanks and Sticky Bombs weaves an engaging narrative about the roots of American ingenuity during World War II and makes a compelling case for a specific instance of American distinctiveness that proved crucial to Allied victory **The Black Sheep** Bruce Gamble,2007-12-18 With their renowned squadron leader Greg Pappy Boyington Marine Fighting Squadron VMF 214 was one of the best known and most colorful combat units of World War II The popular television series Baa Baa Black Sheep added to their legend while obscuring the truly remarkable combat record of the Black Sheep and Boyington A retired naval flight officer and former historian for the Naval Aviation Museum Foundation Bruce Gamble provides a highly readable account that serves to

both correct and extend the record of this premier fighting force **Pogiebait's War** Jack H. McCall, 2023-02-03 Jack H McCall Sr was a born storyteller an inveterate practical joker and a proud Tennessean whose flaws included a considerable taste for candy or pogiebait in Marine parlance Like so many other able bodied young people in on the eve of World War II he decided to enlist in the wake of the Japanese attack on Pearl Harbor Much more than a family memoir or nostalgic wartime reminiscence this painstakingly researched biography presents a rich engaging study of the U S Marine Corps particularly McCall s understudied unit the Ninth Defense Battalion the Fighting Ninth The author provides a window into the day to day service of a Marine during World War II with important coverage of fighting in the Pacific Theater McCall also depicts life in wartime Franklin Tennessee and offers a poignant and personal tribute to his father McCall dramatizes some of the classic themes of the war memoir genre war is hell but memories fade but he sets riveting descriptions of decisive action against rarely seen views of mundane work and daily life supported with maps photographs and fresh interpretations Another distinction of this work is its attention to the action on Guam a very unpleasant late war mopping up that has received relatively little scholarly attention In his portrait of the bitter island hopping war in the Pacific the author shows how both U S and Japanese soldiers were often eager innocents drawn to the cauldron of conflict and indoctrinated and trained by their respective governments Reflecting on the action late in life Jack as well as several other Ninth veterans came to a begrudging respect for the enemy Pacific Skies Jerome Klinkowitz, 2009-09-18 From 1941 to 1945 the skies over the Pacific Ocean afforded the broadest arena for battle and the fiercest action of air combat during World War II It was in the air above the Pacific that America s involvement in the war began It was in these skies that air power launched from carriers became a new form of engagement and where the war ultimately ended with kamikaze attacks and with atomic bombs dropped over Japan Throughout the conflict American flyers felt a compelling call to supplement the official news and military reports In vivid accounts written soon after combat and in reflective memoirs recorded in the years after peace came both pilots and crew members detailed their stories of the action that occurred in the embattled skies Their first person testimonies describe a style of warfare invented at the moment of need and at a time when the outcome was anything but certain Gathering more than a hundred personal narratives from Americans and from Japanese Pacific Skies recounts a history of air combat in the Pacific theater Included are the words of such famous aces and bomber pilots as Joe Foss Pappy Boyington Dick Bong and Curtis Lemay as well as the words of many rank and file airmen Together their stories express fierce individualism and resourcefulness and convey the vast panorama of war that included the skies over Pearl Harbor Wake and Guadalcanal and missions from Saipan and Tinian As Pacific Skies recounts the perilous lives of pilots in their own words Jerome Klinkowitz weaves the individual stories into a gripping historical narrative that exposes the shades of truth and fiction that can become blurred over time A book about experiencing and remembering Pacific Skies also is a story of unique perspectives on the war **Air University Library Index to Military Periodicals** , 1998
