*Black Skins, French Voices* David Beriss, 2018-04-27 This book is about the choices black French citizens make when they move from Martinique and Guadeloupe to Paris and discover that they are not fully French It shows how ethnic activists in the Afro Caribbean diaspora organize to demand what has never been available to them in France

*Race in the Shadow of Law* Eddie Bruce-Jones, 2016-12-01 *Race in the Shadow of Law* offers a critical legal analysis of European responses to institutional racism It draws connections between contemporary legal knowledge practices and colonial systems of thought arguing that many people of colour experience the law as a part of a racial problem rather than a solution to racial injustice Based on a critical legal ethnography of anti racism work in Europe and with an emphasis on the German context the book positions Black and anti racist perspectives at the centre rather than the margins of critically thinking through the intersection of race and law Combining this ethnography with comparative legal analysis discourse analysis and critical race theory the book develops a critical discussion of the European legal frameworks aimed at regulating racism and particularly institutional racism in policy and policing In linking this critique to the transformative potential of social movements however it goes on to examine the strategic and creative possibility of disrupting conventional modes of engaging and resisting law

*Migration in Comparative Perspective* Margaret Byron, Stéphanie Condon, 2008-01-07 This book presents a comparative perspective on post war Caribbean migration to Britain and France This systematic comparison has an innovative focus on gender and life course

*Anthropological Linguistics*, 2004

*Jazz and Postwar French Identity* Elizabeth Vihlen McGregor, 2016-06-23 In the context of a shifting domestic and international status quo that was evolving in the decades following World War II French audiences used jazz as a means of negotiating a wide range of issues that were pressing to them and to their fellow citizens Despite the fact that jazz was fundamentally linked to the multicultural through its origins in the hands of African American musicians happenings within the French jazz public reflected much about France's postwar society In the minds of many jazz was connected to youth culture but instead of challenging traditional gender expectations the music tended to reinforce long held stereotypes French critics musicians and fans contended with the reality of American superpower strength and often strove to elevate their own country's stature in relation to the United States by finding fault with American consumer society and foreign policy aims Jazz audiences used this music to condemn American racism and to support the American civil rights movement expressing strong reservations about the American way of life French musicians lobbied to create professional opportunities for themselves and some went so far as to create a union that endorsed preferential treatment for French nationals As France became more ethnically and religiously diverse due to immigration from Africa Asia and the Caribbean French jazz critics and fans noted the insidious appearance of racism in their own country and had to contend with how their own citizens would address the changing demographics of the nation even if they continued to insist that racism was more prevalent in the United States As independence movements brought an end to the French empire

jazz enthusiasts from both former colonies and France had to reenvision their relationship to jazz and to the music's international audiences. In these postwar decades the French were working to preserve a distinct national identity in the face of weakened global authority most forcefully represented by decolonization and American hegemony. Through this originally African American music, French listeners, commentators, and musicians participated in a process that both challenged and reinforced ideas about their own culture and nation.

Soccer Empire Laurent Dubois, 2010. Laurent Dubois mines the history of French soccer for fascinating theories and riveting stories. His understanding of the relationship between the game and politics is subtle, leading readers deep into important discussions about race and national identity. For those of us who admired the poetics of *Les Bleus*, this is essential reading. Franklin Foer, author of *How Soccer Explains the World*. Laurent Dubois is historian, fan, and graceful writer all in one. In soccer, he has found an innovative way to explore France and its empire. A serious book and an excellent read. Simon Kuper, author of *Soccernomics*. Beautifully lyrical and authoritative. We meet a host of players, colonized and colonizer, following them from their original playing fields, a vast lawn, a concrete lot, to their triumphs in national and international play. Alice Kaplan, author of *The Interpreter*. This book is a brilliant, beautifully written, and unique history of French colonialism and post-coloniality through the lens of football/soccer. Dubois weaves an eminently readable and engaging narrative that tracks tensions around race and national identity through the biographies of key football players and officials who became iconic of the aspirations of peripheral subjects of the French empire. More than a simple history of French football, the book amounts to a description of France's imperial project and an incisive reflection on the race question in contemporary France. It will please both fans of the beautiful game and those inclined to dismiss sports as but the opium of the masses. Paul Silverstein, author of *Algeria in France: Transpolitics, Race, and Nation*.

*Namoluk Beyond The Reef* Mac Marshall, 2018-02-28. This case study examines emigrants from Namoluk Atoll in the Eastern Caroline Islands of Micronesia in the Western Pacific. Most members of the Namoluk Community, born in Namoluk, do not currently live there; some 60 percent of them have moved to Chuuk, Guam, Hawaii, or the mainland United States, such as Eureka, California. The question is how and why those expatriates continue to think of themselves as born in Namoluk and behave accordingly despite being a far-flung network of people with inevitable erosions of shared language and culture.

Muslim Youth Colette Harris, 2018-04-27. This book presents a compelling ethnography of the changes Tajikistan faces at the turn of the twenty-first century as seen through the eyes of its youth. It discusses the ethnographic gaze on the tremendous cultural changes being played out in post-Soviet Tajikistan.

**Tracing Slavery** Markus Balkenhol, 2021-08-13. Looking at the ways in which the memory of slavery affects present-day relations in Amsterdam, this ethnographic account reveals a paradox: while there is growing official attention to the country's slavery past, monuments, festivals, ritual occasions, many interlocutors showed little interest in the topic. Developing the notion of trace as a seminal notion to explore this paradox, this book follows the issue of slavery in everyday realities and offers a fine-grained ethnography of how people refer

to this past often in almost unconscious ways and weave it into their perceptions of present day issues **Diaspora** ,2007

Radio Mango Aude Désiré,2010 Pendant toute une d cennie de 1982 1992 Radio Mango sur Tropic FM a combattu la fois les st r otypes habituels de la soci t d accueil sur les Antilles mais aussi les tentations doudouistes et assimilationnistes de certains acteurs de l poque en proposant une culture de l excellence mise port e de tous les auditeurs Cet ouvrage permet de visiter l histoire culturelle des migrants antillais travers une des ses radios
