Race and Morality Melvyn L. Fein, 2012-12-06 After I had finished my presentation a colleague and I sat rocking on the hotel porch to discuss its merits It was a picture perfect fall day in Jekyll Island Georgia and he was a friend Yes he explained what I was saying seemed to be true And yes it probably needed to be said but why did I want to be the one to say it Wasn't I after all a tenured professor who didn't need to make a fuss in order to retain his job Didn't it make sense to just kick back and enjoy the easy life I had earned The topic of our tete a tete was my speculations about race relations and he was certain that too much honesty could only get me in trouble Given my lack of political correctness people were sure to assume that I was a racist and not give me a fair hearing This was a prospect I had previously contemplated Long before embarking on this volume I had often asked myself why I wanted to write it The ideological fervor that dominates our public dialogue on race guaranteed that some people would perceive me as a dangerous scoundrel who had to be put in his place

Handbook of Father Involvement Natasha J. Cabrera, Catherine S. Tamis-LeMonda, 2012-12-06

This book brings together experts from diverse scientific disciplines who share an interest in the topic of father involvement. Unlike most books in the field which tend to solely draw from a psychological perspective, this Handbook merges theories and research from the unique fields of psychology, economics, demography, sociology, anthropology, and social policy. For the most part, research on fathering is motivated by concern for children's well-being. Social scientists share a core set of questions including: Who are fathers? What is father involvement and how does it affect children and families? What are the determinants of father involvement? How do cultural contexts shape fathers' roles in families? This Handbook sheds light on how a cross-disciplinary approach to the study of fathering can advance knowledge about these fundamental questions. This integrative approach is fundamental to a comprehensive understanding of human development generally and to fathering more specifically. At the core of this book are the goals of describing and understanding the nature, antecedents, and consequences of father involvement across biological status, family structure, culture, and stages in children's development, both within and across scientific boundaries. Each of the scientific disciplines represented offers unique methodological and theoretical approaches to the study of fathering and to the interpretation of behavioral patterns that characterize ecological systems that include as well as extend beyond family units. Together, the chapters offer provocative and challenging insight into the nature and meaning of fatherhood and father involvement by questioning longstanding assumptions about fathers' roles in the lives of families and children in current history.

The New Don't Blame Mother Paula Caplan, 2002-06. First Published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

Caring for Teenage Mothers and Their Children Lee Smith-Battle, 1992.

Feminism, Community, and Communication Betty Mackune-Karrer, Mary E Olson, 2014-06-03. From the minds of therapists on the cutting edge, this informative, innovative collection brings together the work of a group of scholar-therapists, all women who have met regularly for ten years to discuss family therapy, gender, and postmodern ideas. The major themes, feminism, community, and communication, are taken in new directions. *Feminism, Community, and Communication* rethinks therapy, research, teaching, and community work with a renewed emphasis on collaboration, intersubjectivity, and the process of communication as a world-making and identity-making activity. The issues of gender, culture, religion, race, and class figure prominently in this book. In *Feminism, Community, and Communication*, you'll find descriptions of communal perspectives for therapists that stress listening and understanding over interpreting and knowing; the power of love and spirituality in relation to organizational consultation to an agency beset by racial division; research on anorexia and what it means; a mentoring project for rural girls; the Bar Bat Mitzva as therapy; an ethnographic study of Lebanese women. *Feminism, Community, and Communication* takes an exciting, fresh look at these three intertwined concepts, representing a way of thinking and doing therapy, research, community work, and training that highlights the ethical dimension of each. The book takes the position that human beings are meaning-makers in a common world and not simply objects to be scrutinized or assessed by experts.

Black Education Willy DeMarcell Smith, Eva Wells Chunn, This highly focused collection of papers commissioned by the National Urban League offers a candid and courageous portrait of black education in transition. This is a period, as the editors note in their opening remarks, that is characterized by a huge shift from federal responsibility for minority education to authority and autonomy being lodged at the local government level. Further, many institutions that once worked well no longer do so. Many ambitious social programs and policies that originally promised much have been abandoned, have failed, or just faded away. Pivotal to these times and changes is the question of the extent to which the American educational system has been or still is capable of being responsive to incorporating and even instigating equity and excellence for black Americans. This volume asks the hard questions: is the educational system geared up for the maintenance of anything other than mainstream values? can it adapt to minority youth requirements? when, why, and how do educational policies of majorities and minorities clash? How are priorities to be established on the basis of wealth or need? The legal statutes and administrative enforcement of equal educational opportunities are explored in depth and with a deep compassion for all parties involved.

The Postdivorce Family Ross A. Thompson, 1999-03-31 This book analyzes the issues surrounding divorce and its implications for public policy. The authors integrate research and policy perspectives of scholars in various disciplines to focus on the consequences of divorce for children, the parents' responsibilities after divorce, nonresidential parenting, and the effects of a high divorce rate in society.
