Civil War Texas Deborah M. Liles, Angela Boswell, 2016-10-15 *Women in Civil War Texas* is the first book dedicated to the unique experiences of Texas women during the Civil War. It fills the literary void in Texas women's history during this time, connects Texas women's lives to southern women's history, and shares the diversity of experiences of women in Texas during the Civil War. An introductory essay situates the anthology within both Civil War and Texas women's history. Contributors explore Texas women and their vocal support for secession and in support of a war coping with their husbands' wartime absences, the importance of letter writing as a means of connecting families, and how pro Union sentiment caused serious difficulties for women. They also analyze the effects of ethnicity, focusing on African American, German, and Tejano women's experiences. Finally, two essays examine the problem of refugee women in east Texas and the dangers facing western frontier women. These essays develop the historical understanding of what it meant to be a Texas woman during the Civil War and also contribute to a deeper understanding of the complexity of the war and its effects. ***Women and the Texas Revolution***

Mary L. Scheer, 2012. Historically, wars and revolutions have offered politically and socially disadvantaged people the opportunity to contribute to the nation or cause in exchange for future expanded rights. Although shorter than most conflicts, the Texas Revolution nonetheless profoundly affected not only the leaders and armies but the survivors, especially women who endured those tumultuous events and whose lives were altered by the accompanying political, social, and economic changes. ***Twentieth-century Texas***

John Woodrow Storey, 2008. A collection of fifteen essays which cover Indians, Mexican Americans, African Americans, women, religion, war on the homefront, music, literature, film, art, sports, philanthropy, education, the environment, and science and technology in twentieth-century Texas. ***Women and the Creation of Urban Life***

Elizabeth York Enstam, 1998. Those individuals remembered as the founders of cities were men, but as Elizabeth York Enstam shows, it was women who played a major role in creating the definitive forms of urban life we know today. ***Capitol Women***

Nancy Baker Jones, Ruthe Winegarten, 2010-07-22. Along with bar rooms and bordellos, there has hardly been a more male-focused institution in Texas history than the Texas Legislature. Yet the eighty-six women who have served there have made a mark on the institution through the legislation they have passed, much of which addresses their concerns as citizens who have been inadequately represented by male lawmakers. This first complete record of the women of the Texas Legislature places such well-known figures as Kay Bailey Hutchison, Sissy Farenthold, Barbara Jordan, Irma Rangel, Eddie Bernice Johnson, Susan Combs, and Judith Zaffirini in the context of their times and among the women and men with whom they served. Drawing on years of primary research and interviews, Nancy Baker Jones and Ruthe Winegarten offer concise biographies and profiles of all eighty-six women who have served or currently hold office in the Texas Legislature. The biographies describe the women lawmakers' lives, campaign strategies, and legislative successes and defeats. Four introductory essays provide historical and cultural context for the biographies, which are arranged chronologically to give a sense of the passage of time, of relationships among and between women, and of the issues of their eras. ***True Women***

Women Writers and Journalists in the Nineteenth-Century South Jonathan Daniel Wells, 2011-10-24 The first study to focus on white and black women journalists and writers both before and after the Civil War this book offers fresh insight into Southern intellectual life the fight for women's rights and gender ideology. Based on new research into Southern magazines and newspapers this book seeks to shift scholarly attention away from novelists and toward the rich and diverse periodical culture of the South between 1820 and 1900. Magazines were of central importance to the literary culture of the South because the region lacked the publishing centers that could produce large numbers of books. As editors contributors correspondents and reporters in the nineteenth century Southern women entered traditionally male bastions when they embarked on careers in journalism. In so doing they opened the door to calls for greater political and social equality at the turn of the twentieth century.
