Black Tie And Tales:

Black Tie and Tales Arthur Black,2000-09-01 **Tales from the Soft Underbelly of Confusion** Peter A. Barbieri,2007-09 What does it mean to have a personality that is slightly skewed I am not speaking of one that throughout its earthly tenure exhibits qualities of excess be they psychosomatic anal psychotic delusional or narcissistic I am speaking of a personality that on occasion given the depth of emotional entrapment takes matters to the edge of predictable behavior and beyond thus shedding light upon the darkness lurking there Although these qualities might at times apply to some or all of the main characters here they primarily serve as the necessary yet impure ingredients for the alchemist s journey and as such they point out the twists and turns of hints and allusions the oddness of the plots and of course the suggestion of larger more intangible issues In *Tales from the Soft Underbelly of Confusion* character impurities and our rigorous attempt to sublimate and repress them are subtle reminders of the cosmic hoop through which we jump to keep our world ordered and sane

Four Weird Tales Robert W. Chambers,2015-10-22 Adventures come to the adventurous and mysterious things fall in the way of those who with wonder and imagination are on the watch for them but the majority of people go past the doors that are half ajar thinking them closed and fail to notice the faint stirrings of the great curtain that hangs ever in the form of appearances between them and the world of causes behind For only to the few whose inner senses have been quickened perchance by some strange suffering in the depths or by a natural temperament bequeathed from a remote past comes the

knowledge not too welcome that this greater world lies ever at their elbow and that any moment a chance combination of moods and forces may invite them to cross the shifting frontier Some however are born with this awful certainty in their hearts and are called to no apprenticeship and to this select company Jones undoubtedly belonged All his life he had realised that his senses brought to him merely a more or less interesting set of sham appearances that space as men measure it was utterly misleading that time as the clock ticked it in a succession of minutes was arbitrary nonsense and in fact that all his sensory perceptions were but a clumsy representation of real things behind the curtain things he was for ever trying to get at and that sometimes he actually did get at He had always been tremblingly aware that he stood on the borderland of another region a region where time and space were merely forms of thought where ancient memories lay open to the sight and where the forces behind each human life stood plainly revealed and he could see the hidden springs at the very heart of the world Moreover the fact that he was a clerk in a fire insurance office and did his work with strict attention never allowed him to forget for one moment that just beyond the dingy brick walls where the hundred men scribbled with pointed pens beneath the electric lamps there existed this glorious region where the important part of himself dwelt and moved and had its being For in this region he pictured himself playing the part of a spectator to his ordinary workaday life watching like a king the stream of events but untouched in his own soul by the dirt the noise and the vulgar commotion of the outer world
