general agreement about the meaning of a pictorial metaphor can shade over into other more idiosyncratic but equally valid interpretations The final chapter sketches the ways in which the insights gained can be used for further research

**Boom or Bust** Sheena B. Stief, Kristen L. Figgins, Rebecca Day Babcock, 2021-04-01 A vast number of studies have documented the economic and geological effects of oil production but the impact of boom and bust cycles on individuals and communities has received less attention Boom or Bust remedies this gap by highlighting the personal experiences of those directly affected in an economy dominated by oil and natural gas production The Permian Basin is one of the largest oil producing regions in the United States People who live there have benefited from explosive growth only to see opportunities vanish with sudden industry downturns In 2016 the National Endowment for the Humanities funded a grant for the study and collection of energy narratives in this economically volatile region Boom or Bust derives from that community initiative and offers a unique contribution to the developing field of energy humanities The oil field industry may seem to be all about numbers but as Boom or Bust demonstrates residents of oil and gas country whether they work in the oil field or not are at the mercy of an ever shifting economy When the price of oil rises companies move in and newcomers flood the area expanding the employment force And as the population booms so does the infrastructure of cities When prices drop though families must make difficult choices whether to stay put or follow the oil to another location With the ensuing declines in population small businesses close their doors and unemployment levels rise Despite the inevitable declines and despite the increase in alternative energy resources many West Texans feel a sense of pride that borders on patriotism Boom or Bust reveals the full complexity of boomtown culture

**Chinese Traditional Healing (3 vols)** Paul Unschuld, Jinsheng ZHENG, 2014-05-09 Research on past knowledge practices personnel and institutions of Chinese health care has focussed on printed text for many decades The Berlin collections of handwritten Chinese volumes on health and healing from the past 400 years provide a hitherto unprecedented access to a wide range of data They extend the reach of medical historiography beyond the literature written by and for a small social elite to the reality of health care as practiced by private households lay healers pharmacists professional doctors magicians itinerant healers and others The

nearly 900 volumes surveyed here for the first time demonstrate the heterogeneity of Chinese traditional healing. They evidence the continuation of millennia old therapeutic approaches long discarded by the elite and they show continuous adaptation to more recent trends.

Menace to Society Roy Godson, One of the more dangerous contemporary threats to the quality of life is the collaboration of the political establishment with the criminal underworld the political criminal nexus PCN. This active partnership increasingly undermines the rule of law human rights and economic development in many parts of the world. States in transition are especially at risk. Despite the magnitude of the threat there is little understanding of the security threats by the PCNs and how and why political criminal relationships are formed and maintained. Menace to Society is the first attempt to develop an analytical framework for making generalizations about this contemporary scourge. Case studies of Colombia Hong Kong Taiwan Italy Mexico Nigeria Russia and Ukraine and the United States by leading scholars and practitioners included here answer such key questions as How do PCNs get established How is a PCN maintained and destroyed What do the participants want from each other in a PCN What can be learned from those who have successfully countered the PCN. The findings indicate that political economic and cultural factors play a significant role in the formation and evolution of PCNs. When the institutions of the state are weak as in Nigeria and Colombia it is difficult for the state to prevent political criminal collaboration. A lack of checks and balances either from civil society or opposition political parties such as described in the cases of Mexico and Russia is a key factor. Cultural patterns tend to facilitate this kind of collaboration. Markets and economics too bear on the PCN issue. The supply and demand for illegal goods and services not only drugs in many countries creates a market controlled by criminals who need political help to run their business. Menace to Society will be critical reading for security planners foreign and military policymakers and political scientists.

**Wrath Of The Dragon: His Return Shakes The World** Rebecca S Randleas, Ten years ago the most powerful family in East City was brutally wiped out. Ten years later Chu Ming returns with overwhelming strength. His hatred runs as deep as the ocean he will repay blood with blood. In the face of betrayal and deceit he shows no mercy. In the face of love and care he will never let those he cherishes be harmed.

**Do, Die, Or Get Along** Peter Crow, 2007-01-01 St Paul and Dante are six miles apart measured in other ways the distance can be greater. Dante for decades a company town controlled at all levels by the mine owners has only a recent history of civic initiative. In St Paul which arose at a railroad junction public debate entrepreneurship and education found a more receptive home. The speakers are men and women wealthy and poor black and white old timers and newcomers. Their concerns and interests range widely including the battle over strip mining efforts to control flooding the 1989 90 Pittston strike the nationally acclaimed Wetlands Estuaries Project.

and the grassroots revitalization of both towns led by the St Paul Tomorrow and Dante Lives On organizations Their talk of the past often invokes an ethos rooted in the hand to mouth pioneer era of short term gain Just as frequently however talk turns to more recent times when community leaders corporations unions the federal government and environmental groups have begun to seek accord based on what will be best in the long run for the towns      **Reports of the United States Tax Court** United States.
