Whaling Captains of Color Skip Finley, 2022-02-15 The history of whaling as an industry on this continent has been well told in books including some that have been bestsellers but what hasn't been told is the story of whaling's leaders of color in an era when the only other option was slavery Whaling was one of the first American industries to exhibit diversity A man became a captain not because he was white or well connected but because he knew how to kill a whale Along the way he could learn navigation and reading and writing Whaling presented a tantalizing alternative to mainland life Working with archival records at whaling museums in libraries from private archives and interviews with people whose ancestors were whaling masters Finley culls stories from the lives of over 50 black whaling captains to create a portrait of what life was like for these leaders of color on the high seas Each time a ship spotted a whale a group often including the captain would jump into a small boat row to the whale and attack it at times with the captain delivering the killing blow The first second or third mate and boat steerer could eventually have opportunities to move into increasingly responsible roles Finley explains how this skills based system propelled captains of color to the helm The book concludes as facts and factions conspire to kill the industry including wars weather bad management poor judgment disease obsolescence and a non renewable natural resource Ironically the end of the Civil War allowed the African Americans who were captains to exit the difficult and dangerous occupation and make room for the Cape Verdean who picked up the mantle literally to the end of the industry

John Devoy's Catalpa Expedition Philip Fennell, Marie King, 2008-04 The story of John Devoy's 1876 Catalpa rescue is a tale of heroism creativity and the triumph of independent spirit in pursuit of freedom The daily log on board the whaling ship Catalpa begins with the typical recount of a crew intact and a spirit unfettered but such quiet words deceive the truth of the audacious enterprise that came to be known as one of the most important rescues in Irish American history John Devoy's men rescued six Irish political prisoners from the Australian coast allowing millions of fellow Irishmen and American Fenians many of whom secretly financed the dangerous plot to draw courage from the newly exiled prisoners Philip Fennell and Marie King tell the story from John Devoy's own records and the ship's logbooks John Devoy's Catalpa Expedition includes an introduction by Terry Golway and the personal diaries letters and reports from John Devoy and his men
