Black Images:

Empire and Black Images in Popular Culture Joshua K. Wright, 2018-05-12 FOX's musical drama *Empire* has been hailed as the savior of broadcast television drawing 15 million viewers a week. A hip-hop opera inspired by Shakespeare's *King Lear* and 1980s prime time soap *Dynasty*, the series is at the forefront of a black popular culture Renaissance yet has stirred controversy in the black community. Is *Empire* shifting paradigms or promoting pernicious stereotypes? Examining the evolution and potency of black images in popular culture, the author explores *Empire*'s place in a diverse body of literature and media data and discussions on respectability.

The Image of the Black in Western Art David Bindman, 2010 A pioneering work in the field of art history, *The Image of the Black in Western Art* is a comprehensive series of ten books which offers a lavishly illustrated history of the representations of people of African descent from antiquity to the present. Each book includes a series of essays by some of the most distinguished names in art history. Ranging from images of Pharaohs created by unknown hands almost 3,500 years ago to the works of the great masters of European and American art such as Bosch, Dürer, Mantegna, Rembrandt, Rubens, Watteau, Hogarth, Copley, and Goya to stunning new media creations by contemporary black artists, these books are generously illustrated with beautiful, moving, and often little-known images of black people. Black figures, queens and slaves, saints and soldiers, priests and prisoners, dancers and athletes, children and gods are central to the visual imagination of Western civilization. Written in accessible language, the extensive and insightful commentaries on the illustrations by distinguished art historians make this series invaluable for the general reader and the specialist alike.

The Black Image in the White Mind Robert M. Entman, Andrew Rojecki, 2024-05-31 Living in a segregated society, white Americans learn about African Americans not through personal relationships but through the images the media show them. *The Black Image in the White Mind* offers the most comprehensive look at the intricate racial patterns in the mass media and how they shape the ambivalent attitudes of Whites toward Blacks. Using the media and especially television as barometers of race relations, Robert Entman and Andrew Rojecki explore but then go beyond the treatment of African Americans on network and local news to incisively uncover the messages sent about race by the entertainment industry from prime time dramas and sitcoms to commercials and Hollywood movies. While the authors find very little in the media that intentionally promotes racism, they find even less that advances racial harmony. They reveal instead a subtle pattern of images that while making room for Blacks implies a racial hierarchy with Whites on top and promotes a sense of difference and conflict. Commercials, for example, feature plenty of Black characters. But unlike Whites, they rarely speak to or touch one another. In prime time, the few Blacks who escape sitcom buffoonery rarely enjoy informal, friendly contact with White colleagues, perhaps reinforcing social distance in real life. Entman and Rojecki interweave such astute observations with candid interviews of White Americans that make clear how these images of racial difference insinuate themselves into Whites' thinking. Despite its disturbing readings of television and film, the book's cogent analyses

and proposed policy guidelines offer hope that America's powerful mediated racial separation can be successfully bridged. Entman and Rojecki look at how television news focuses on black poverty and crime out of proportion to the material reality of black lives; how black experts are only interviewed for black-themed issues; and how black politics are distorted in the news. They conclude that while there are more images of African Americans on television now than there were years ago, these images often don't reflect a commitment to racial comity or community building between the races. Thoroughly researched and convincingly argued, *Publishers Weekly* Drawing on their own research and that of a wide array of other scholars, Entman and Rojecki present a great deal of provocative data showing a general tendency to devalue blacks or force them into stock categories. Ben Yagoda, New Leader, Winner of the Frank Luther Mott Award for best book in Mass Communication and the Robert E. Lane Award for best book in political psychology. *The ^AWhite Image in the Black Mind* Mia Bay, 2000-02-10

How did African American slaves view their white masters? As demons, deities, or another race entirely? When nineteenth-century white Americans proclaimed their innate superiority, did blacks agree? If not, why not? How did blacks assess the status of the white race? Mia Bay traces African American perceptions of whites between 1830 and 1925 to depict America's shifting attitudes about race in a period that saw slavery, emancipation, Reconstruction, and urban migration. Much has been written about how the whites of this time viewed blacks and about how blacks viewed themselves. By contrast, the ways in which blacks saw whites have remained a historical and intellectual mystery. Reversing the focus of such fundamental studies as George Fredrickson's *The Black Image in the White Mind*, Bay investigates this mystery. In doing so, she uncovers and elucidates the racial thought of a wide range of nineteenth-century African Americans: educated and unlettered, male and female, free and enslaved. *Theology for a Violent Age* Woody Carter, Ph. D., 2010-12

Any politician or pundit will agree we live in a violent and dangerous age. Our pent-up anger and rage fills our households and spills over into our neighborhoods and streets, leaving African American families who live in poverty and with limited capability to ward off shame and self-contempt as its unfortunate victims. **ADVANCED PRAISE FOR THEOLOGY FOR A VIOLENT AGE** There are many ideas in this little volume, and they are meaningful. They set the stage for an interpretation of certain African American youth, and by implication, other youth who are similarly situated in American Society. **ARCHIE SMITH, Jr., PhD** James and Clarice Foster, Professor of Pastoral Psychology and Counseling, Pacific School of Religion. In attempting to uncover the self-knowledge of African American people as reflected in Black dramatic literature, as conviction or secular theology, Woody Carter simultaneously reveals the dominant forces that influence Black life and the critical necessity to stand on our own African cultural ground. All Black thinkers, from intellectuals and scholars to teachers, preachers, and parents, to mental health workers, futurist, and community activist, who have struggled with the dilemma of DuBois's double consciousness and the significance of religion in the Black community, both of which I believe have never been properly understood, will find *Theology for a Violent Age* informative, insightful, and a strong provocation and challenge for the reader to continue to seek

the core essence of being Black and the searchlights necessary to envision our full humanity as more than reactions to white supremacy and racial domination and oppression

Theology for a Violent Age is deserving of a critical read and methodical application against the problems of our time

Social, Political, and Economic Contexts in Public Relations Hugh M. Culbertson, Dennis W. Jeffers, Donna Besser Stone, Martin Terrell, 2012-10-12 Two commissions within the Public Relations Society of America have recently defined courses in case study analysis research methods and behavioral science theory as central to an acceptable public relations curriculum To date these three streams within PR education have run independently of each other The authors produced this volume because they believe that there is a growing demand for an integrative applied theory approach to the study of public relations cases The need for PR professionals to study the social political and economic contexts of public relations carefully had been apparent for some time as issues management and environment scanning emerged as focal points of modern public relations Yet there was no systematic framework for such study This volume however with its strong foundation in theory provides just that framework and is highly suitable for graduate level courses in public relations

Comics and Pop Culture Barry Keith Grant, Scott Henderson, 2019-12-13 It is hard to discuss the current film industry without acknowledging the impact of comic book adaptations especially considering the blockbuster success of recent superhero movies Yet transmedial adaptations are part of an evolution that can be traced to the turn of the last century when comic strips such as Little Nemo in Slumberland and Felix the Cat were animated for the silver screen Representing diverse academic fields including technoculture film studies theater feminist studies popular culture and queer studies Comics and Pop Culture presents more than a dozen perspectives

on this rich history and the effects of such adaptations Examining current debates and the questions raised by comics adaptations including those around authorship style and textual fidelity the contributors consider the topic from an array of approaches that take into account representations of sexuality gender and race as well as concepts of world building and cultural appropriation in comics from Modesty Blaise to Black Panther The result is a fascinating re imagination of the texts that continue to push the boundaries of panel frame and popular culture

Crime and Racial Constructions Jeanette Covington, 2010-04-12 Crime and Racial Constructions Cultural Misinformation about African Americans in Media and Academia focuses on how film images of dangerous hedonistic blacks have assumed greater significance since blacks protested racial injustice during the Civil Rights Movement and the Black Power Movement of the 1960s and 1970s It does so by reviewing a number of films that have been released from the 1970s until the present in which black males are depicted as violent and threatening It likewise considers how these same films represent black females as prostitutes drug addicts and irresponsible abusive mothers who spawn violence in their children Because these on screen images of a violent apolitical and immoral black underclass find their way into the criminological literature the book also takes a look at how criminologists use these images to link crime to underclass culture Both Hollywood and criminologists alike manage to ignore how black activism during the 1960s social movements actually sparked black opposition to the kind of black on black crime that is routinely depicted on screen By taking a critical look at these negative images Crime and Racial Constructions seeks to correct some of the distortions that arise from the undue academic and cinematic focus on black criminals at the expense of racially conscious blacks
