Black Muslims:

The Black Muslims in America Charles Eric Lincoln, 1994 The updated edition about the important but little understood black Muslim movement *Black Muslims in the US* S. Rashid, 2013-07-03 Black Muslims in the U S seeks to address deficiencies in current scholarship about black Muslims in American society from examining the origins of Islam among African Americans to acknowledging the influential role that black Muslims play in contemporary U S society

Islamophobia in Higher Education Shafiqah Ahmadi, Darnell Cole, 2023-07-03 While Islamophobia was present in our society before 9 11 it has become more pervasive in recent years This is evidenced by the current social and political climate hate speech and hate

crimes directed at Muslims and the Supreme Court's upholding of Presidential Proclamation 645 that effectively bans Muslim immigration from coming to the U.S. What does this mean for Muslim students in college and indeed for institutions of higher education as they navigate law and policy on the one hand and adhere to their mission of achieving inclusive and equitable educational environments on the other? Two thirds of Muslims in the U.S. are vexed with current policy and there has been an alarming increase in reports of bigotry and discrimination against them since the 2016 presidential elections. The fear of Islam in general and Muslims specifically not only compels non-Muslims to differentially treat Muslims but also trade some of their own civil rights and civil liberties under the guise of national security. To address these issues, institutions require a nuanced understanding of laws and policies that institutionalize Islamophobia and a greater understanding of the diverse college students that identify as Muslim. This book fills what has been a dearth of research that explores the experiences and navigation of Muslim students in colleges and universities and addresses the even less studied domain of the experiences of Muslim students who hold multiple marginalized identities such as race, ethnicity, and LGBTQ status, as well as the intersection of those identities that may create multiple burdens of oppression and discrimination. This book begins by critically engaging with how current laws and policies institutionalize Islamophobia and affect the intersectionality and diversity within the Muslim community. It includes multidisciplinary voices such as an international human rights attorney, a civil rights attorney, a criminal law attorney, student affairs practitioners, and research faculty whose work on this marginalized student population is traditionally not recognized within academic settings and brings the voices of female Muslim scholars to the fore. Each chapter includes a critical analysis of the literature, a legal analysis when appropriate, a set of recommendations for policy and practice, and discussion questions.

Integration Or Separation? Roy L. Brooks, 1996
Brooks says with frank clarity what few will admit: integration has never worked and possibly never will. This book presents his strategy for a middle way between the increasingly unworkable extremes of integration and separation.

Muslim Women in Contemporary North America Meena Sharify-Funk, 2022-12-06
Muslim Women in Contemporary North America is a provocative study of how strongly held and divergent opinions, values, and beliefs, as well as misconceptions, overgeneralizations, and political agendas pertaining to Muslim women in the region, enter the public frame of reference. Interrogating contested topics in a series of case studies from both Canada and the United States, this book probes below the surface in pursuit of deeper understanding and more productive dialogue. Chapters analyze controversies over the hijab, literature dissident reformists, female religious leadership, veils, and the nature of emancipation in a compelling examination of the ways in which Muslim American and Canadian identities and values are being defined, differentiated, and projected. By pinpointing both sources of dissonance and unexpected patterns of resonance among complex, composite, and at times overlapping identity constellations, this book

Subject Cataloging Division,1988 [Feminism, Tradition and Change in Contemporary Islam](#) Shehnaz Haqqani,2024-10-17 The Islamic tradition has always been flexible changing over time and constantly adapting to the different societies Muslims find themselves in Few Muslims today would abide by the fatwa against the printing press under the Ottomans Moreover although Islamic law legislates for slavery and child marriage only a vanishing minority of Muslims consider these practices acceptable today and some will even argue that Islam never permitted them Yet some issues like the prohibition on female led prayer and female interfaith marriage seem curiously impervious to change Why is that Through a mixture of interviews with ordinary Muslims in Texas and critical analysis of contemporary and historical scholarship Shehnaz Haqqani demonstrates the gendered dimensions of change and negotiation in Islamic tradition She argues that a reliance on a mostly male scholarly consensus means that the tradition preserves male privilege at the expense of justice for Muslim women
