The Politics of Black Empowerment

James Jennings,2000-01-08 The Politics of Black Empowerment uses the experiences of grassroots activists to develop various conceptualizations and explanations of Black political behavior today In analyzing Black politics since the late 1960s James Jennings focuses on both the behavioral aspects such as individual and group characteristics of voting and nonvoting and elections as well as more fundamental philosophical and cultural questions regarding Black politics This study examines how the traditional face of Black politics and electoral activism interacts with a growing progressive face of Black politics While traditional Black political activists seek access or political incorporation another group aims for power sharing The traditional approach is sometimes satisfied with merely replacing white politicians with Blacks but the progressive constituency focuses on fundamentally changing the whole economic and political pie Activists desirous of Black empowerment are pursuing a political and economic orientation that goes beyond programs based on access to American institutional arrangements and attempting to change or alter given political arrangements and social relations between Blacks and whites on the basis of changing the social structure and the distribution of wealth and power Based on interviews with Black and Latino activists in several big cities as well as on a review of the literature and the Black newspapers around the country The Politics of Black Empowerment describes the characteristics of Black empowerment activism in America

Encyclopedia of African American Politics Robert C. Smith, 2003 An A to Z presentation of over 400 articles on African American politics and notable people from the abolitionist movement to Whitney Young People and Politics in Urban America, Second Edition Robert W. Kweit, Mary G. Kweit, 2013-11-26 First Published in 1998 Approximately 75 percent of Americans live in cities and surrounding suburbs and the characteristics of those cities inescapably affect the quality of their lives This book examines the extent to which these Americans use the political process to control the characteristics of life in their metropolises In addition this second edition revision places great emphasis on the role of political leaders while recognising the interdependence between those leaders and various interests in the city People & Politics in Urban America Robert W. Kweit, Mary G. Kweit, 2013-10-31 This revised textbook for courses on urban politics challenges the notion that the field is dominated by political economy showing that despite the undeniable importance of economic issues citizens do play a significant part in urban politics **Contours of African American Politics** Georgia A. Persons, 2014-03-31

Contours of African American Politics chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment Hence the study of African American politics has sought to track codify and analyze the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society The notion of a post racial America is one that was birthed by the election of Barack Obama as the first African American president of the United States However another reality is equally compelling that for some time now many African American aspirants for elective office have run against race specific issues putting individual desires to win office above the conventionally defined collective interests of black folk Clearly the Obama presidential election crystallized a complexity of change that had been underway in America prior to his election Indeed did the Obama election signal the end of black politics Does race remain a useful construct for framing the collective interests of African Americans Volume III of Contours of African American Politics examines all of these questions in an effort to understand the more poignant question of the future of that which we have known as black politics *God and Government in the Ghetto* Michael Leo Owens, 2008-11-15 In recent years as government agencies have encouraged faith based organizations to help ensure social welfare many black churches have received grants to provide services to their neighborhoods poorest residents

This collaboration activist churches explain is a way of enacting their faith and helping their neighborhoods But as Michael Leo Owens demonstrates in *God and Government in the Ghetto* this alliance also serves as a means for black clergy to reaffirm their political leadership and reposition moral authority in black civil society Drawing on both survey data and fieldwork in New York City Owens reveals that African American churches can use these newly forged connections with public agencies to influence policy and government responsiveness in a way that reaches beyond traditional electoral or protest politics The churches and neighborhoods Owens argues can see a real benefit from that influence but it may come at the expense of less involvement at the grassroots Anyone with a stake in the changing strategies employed by churches as they fight for social justice will find *God and Government in the Ghetto* compelling reading

Black Politics in a Time of Transition David Covin, 2017-09-29 *Black Politics in a Time of Transition* appears at an historic point in American politics From the vantage point of the maturation of the study of black politics this volume provides a framework for current and future discussion of this critical time Incorporating the expanded stream of work on today's black politics this latest volume of the *National Political Science Review* is also a new assessment of the period from which the study of black politics emerged Selected for this volume are chapters of contemporary relevance alongside those that reconsider an early twentieth century pioneer in black politics and history W E B Du Bois The volume also includes a robust book review section that spans a range of topics from the South's new racial politics to the aftermath of Hurricane Katrina This volume features work by varied and accomplished scholars including *Black Power in Black Presidential Bids From Jackson to Obama* Katherine Tate *But I Voted for Obama* Melodrama and Post Civil Rights Post Feminist Ideology in *Grey's Anatomy* Crash and Barack Obama's 2008 Presidential Bid Nikol Alexander Floyd *Afro Brazilian Black Linked Fate in Salvador and Sao Paulo* Brazil Gladys Mitchell and *Beyond Tactical Withdrawal An Early History of the National Conference of Black Political Scientists* Joseph P McCormick II

Charting the Range of Black Politics Michael Mitchell, David Covin, 2012 The election of 2008 brought onto the national stage complexities arising when the member of a minority group assumes power over national political institutions It also underlined the limits placed on that power by the double accountability such a figure faces The question posed in this volume of the *NPSR* is Might the ascendancy of President Obama lead to a deracialization of American politics or its opposite The contributions to this volume examine this question in a variety of ways David Wilson and Khalilah Brown Dean analyze black attitudes towards the candidates for the Democratic Party nomination in the presidential race of 2008 Lorenzo Morris asks how perceptions of race have defined expectations of the African American ambassadors to the United Nations Horace Bartilow and Kihong Eom use a game theoretic approach to examine US drug strategies in the Caribbean A works in progress section follows with personal reflections by Michael C Dawson and Andra Gillespe They relate how personal concerns and curiosities guide their research A book review section provides a discussion about works of interest to scholars studying black politics
