Essien,2013-10-08 There is no recent literature that underscores the transition from Pan Africanism to Diaspora discourse This book examines the gradual shift and four major transformations in the study of Pan Africanism It offers an academic post mortem that seeks to gauge the extent to which Pan Africanism overlaps with the study of the African Diaspora and reverse migrations how Diaspora studies has penetrated various disciplines while Pan Africanism is located on the periphery of the field The book argues that the gradual shift from Pan African discourses has created a new pathway for engaging Pan African ideology from academic and social perspectives Also the book raises questions about the recent political waves that have swept across North Africa and their implications to the study of twenty first century Pan African solidarity on the

African continent The ways in which African institutions are attracting and mobilizing returnees and Pan Africanists with incentives as dual citizenship for diasporans to support reforms in Africa offers a new alternative approach for exploring Pan African ideology in the twenty first century Returnees are also using these incentives to gain economic and cultural advantage The book will appeal to policy makers government institutions research libraries undergraduate and graduate students and scholars from many different disciplines **The Encyclopedia of Caribbean Religions** Patrick

Taylor,Frederick I. Case,2013-04-30 The Encyclopedia of Caribbean Religions is the definitive reference for Caribbean religious phenomena from a Caribbean perspective Generously illustrated this landmark project combines the breadth of a comparative approach to religion with the depth of understanding of Caribbean spirituality as an ever changing and varied historical phenomenon Organized alphabetically entries examine how Caribbean religious experiences have been shaped by and have responded to the processes of colonialism and the challenges of the postcolonial world Systematically organized by theme and area the encyclopedia considers religious traditions such as Vodou Rastafari Sunni Islam Sanatan Dharma Judaism and the Roman Catholic and Seventh day Adventist churches Detailed subentries present topics such as religious rituals beliefs practices specific historical developments geographical differences and gender roles within major traditions Also included are entries that address the religious dimensions of geographical territories that make up the Caribbean Representing the culmination of more than a decade of work by the associates of the Caribbean Religions Project The Encyclopedia of Caribbean Religions will foster a greater understanding of the role of religion in Caribbean life and society in the Caribbean diaspora and in wider national and transnational spaces Historical and Contemporary Pan-Africanism and the Quest for African Renaissance Francis Adyanga Akena,Njoki Wane,2019-01-08 This volume explores what it means to be

an African in a political context in which such people are called upon to re assert the value of identifying as African in order to counter the effects of neo colonialism This includes affirming visions of what Africanness can offer in terms of people s being in the world The book also discusses the benefits associated with working together as people of African ancestry as well as the evocation of Ubuntu It focuses on the possibility of revisiting the urge for African rebirth and shows how the idea of Pan Africanism helps to keep this dream alive It engages with a range of ideas that build on the Pan African philosophy for grounding African cultural and political rebirth and will contribute to debunking the mindset that prompts many African youths and adults to risk it all for an apparently better life on the other side of the Atlantic Ocean **The New Noir** Orly Clerge,2019-10-29 The expansion of the Black American middle class and the unprecedented increase in the number of Black immigrants since the 1960s have transformed the cultural landscape of New York In The New Noir Orly Clerge explores the richly complex worlds of an extraordinary generation of Black middle class adults who have migrated from different corners of the African diaspora to suburbia The Black middle class today consists of diverse groups whose ongoing cultural political and material ties to the American South and Global South shape their cultural interactions at work in their suburban

neighborhoods and at their kitchen tables Clerge compellingly analyzes the making of a new multinational Black middle class and how they create a spectrum of Black identities that help them carve out places of their own in a changing 21st century global city Paying particular attention to the largest Black ethnic groups in the country Black Americans Jamaicans and Haitians Clerge's ethnography draws on over 80 interviews with residents to examine the overlooked places where New York's middle class resides in Queens and Long Island This book reveals that region and nationality shape how the Black middle class negotiates the everyday politics of race and class
