Black Star Over Japan Rising Forces Of Militarism:

Black Star Over Japan Albert Axelbank, 2010-11-01 The Japanese are the only people in the world who have experienced the horror of nuclear weapons with their own flesh Atomic holocaust was followed by American occupation and the American inspired postwar Japanese Peace Constitution which explicitly outlawed Japanese military forces and the use of war as an instrument of state policy At the time of original publication the author argued that contemporary forces within Japan were combining to create a strong movement for revision of the constitution and for the acquisition of nuclear weapons by renewed and powerful military establishment The American government which had encouraged rearmament was beginning to wonder about the world effect of an economically powerful rearmed Japan and was weighing the consequences of considering Japan its only major ally in East Asia Albert Axelbank suggests that shifting international politics and the conservative momentum in Japan make revision of the constitution and the development of Japanese militarism and nuclear weapons almost inevitable

Gold Warriors Peggy Seagrave, Sterling Seagrave, 2020-05-05 In 1945 US intelligence officers in Manila discovered that the Japanese had hidden large quantities of gold bullion and other looted treasure in the Philippines President Truman decided to recover the gold but to keep its riches secret These combined with Japanese treasure recovered during the US occupation and with recovered Nazi loot would create a worldwide American political action fund to fight communism This Black Gold gave Washington virtually limitless unaccountable funds providing an asset base to reinforce the treasuries of America's allies to bribe political and military leaders and to manipulate elections in foreign countries for more than fifty years

Windows on Japan Bruce Roscoe, 2007 In *Windows on Japan* a New Zealander walks across rural Japan and ponders centuries old perceptions about the country that is still prisoner to an isolationist past In a deeply insightful commentary the author surveys cultural social and political mores explores the wellspring of racial perception and the problem of the memory of war *Windows on Japan* alternates chapters of physical travel with travel through perception about Japan and challenges the logic of much Western thought about the country that perplexes as much as it pleases The author walked a route that connects the ports of Niigata and Yokohama and from these windows on the world considers perceptions

of people and place He also assesses the effect of Japan on writers from Jonathan Swift to Oscar Wilde Shirley MacLaine and Paul Theroux with surprising results The trading entity that wraps its tentacles around the globe converses in most languages and understands most customs is perceptive and urbane and none appears more capable or cosmopolitan Yet the individuals who inhabit these islands take refuge in their language as a private habitat resent intrusions and are captured by a cultural particularism that distances them from others The author discusses this paradox as well as environmental and linguistic issues and topics of history and literature Along the way he lifts a veil on the life of a snow country geisha discusses current events with a priest and a reporter and takes advice on becoming a Japanese Though he is understood it is only on return visits to places he has come to love that he wins acceptance Notes on music delightfully enrich the narrative **From the Rising of the Sun** James M. Phillips, 2011-06-17 Here at last we have in Professor Phillips book an indispensable road map to guide us in our understanding of Christianity in postwar Japan His research is impressive prodigious and carefully conceived His findings are illuminating disturbing and hopeful I predict that this book will remain definitive in its field for many years to come Robert Lee San Francisco Theological Seminary author of *Stranger in the Land* The Church in Japan A helpful survey and source book for the understanding of the historical development of Christianity in Japan since 1945 Masao Takenaka Doshisha University Kyoto Japan This is an illuminating and scholarly study of the churches in Japan since 1945 churches of special interest because they have faced momentous changes and in some cases have been in continuous ferment This book has significance also because it is about churches in which there has been intensive theological and social activity as they have gained more and more independence of the west they have become a relatively new and very distinctive arena of Christian life John C Bennett former president Union Theological Seminary New York James M Phillips served for seventeen years as a church fraternal worker in Japan teaching church history at Tokyo Union Theological Seminary He also served as Visiting Professor of Church History at San Francisco Theological Seminary and the Graduate Theological Union

Area Handbook for Japan Donald P. broader body of students of International Relations Japan and Asia-Pacific Integration Pekka Korhonen, 2008-01-28 Japan and Asia Pacific Integration is a study of regional integration in the greater Pacific area during 1968-1996. It examines the political rationale of such international organisations as the Asia Pacific Economic Co-operation (APEC) forum and the East Asian Economic Caucus (EAEC). With the founding of their respective national states, the Meiji Empire in 1869 and the German Reich in 1871, Japan and Germany entered world politics. Since then both countries have developed in strikingly similar ways and it is not surprising that these two became close allies during the Second World War, although in the end this proved a fatal attraction **Sugamo Prison, Tokyo** John L. Ginn, 2024-12-04 In the aftermath of World War II, Sugamo Prison housed some of the most infamous Japanese war criminals, including Premier Hideki Tojo and Iwao Tokui. D. Aquino, better known as Tokyo Rose. In all, more than 2,000 war criminals and protected witnesses were held at Sugamo. Nearly 60 prisoners were executed and many others were sentenced to prison terms. This story of a largely forgotten part of World War II by a man who was a Sugamo guard for more than two years gives an inside look at the prison. Details are given about the prisoners, classified A, B, and C based on the severity of their crimes; the trials; the sentencing; the executions; and the American guards. Appendices include listings of the accused and those executed and a roster of American personnel.
