Watch Jonathan Li-Chung Leung, 2019-04-30 The first book to capture and preserve the inside story of the exclusive brotherhood that manned the front lines of the Cold War Featuring interviews from seventeen veteran submariners Standing Watch American Submarine Veterans Remember the Cold War Era offers the perspective of the submariners themselves lending them a voice and paying homage to their service Jonathan Li Chung Leung provides an original glimpse into a world of unique challenges and characters a life isolated and submerged and a duty defined by the juxtaposition of monotonous routine and unparalleled excitement These personal accounts of life below the surface offer readers a front row seat to close encounters with Soviet submarines and the naval blockade during the Cuban Missile Crisis as well as an intimate understanding of daily life onboard the vessels the culture of military discipline and the religious like fervor exercised in honoring traditions big and small By applying first hand perspectives to a larger thematic overview this book uses authentic narratives to deliver a lively and colorful picture of the Silent Service Set against the backdrop of sobering geo political disputes and their own role as the nation s defenders against a seemingly ambiguous super enemy these veterans focus on their responsibilities and reflect on careers built on the simple axioms of pride and service This invigorating and unalloyed account is an unprecedented addition to the existing literature on naval and military history Proud Warriors Alexander M. Bielakowski, 2021-11-15 During World War II tens of thousands of African Americans served in segregated combat units in U S armed forces The majority of these units were found in the U S Army and African Americans served in every one of the combat arms They found opportunities for leadership unparalleled in the rest of American society at the time Several reached the field grade officer ranks and one officer reached the rank of brigadier general Beyond the Army the Marine Corps refused to enlist African Americans until ordered to do so by the president in June 1942 and two African American combat units were formed and did see service during the war While the U S Navy initially resisted extending the role of African American sailors beyond kitchens eventually the crew of two ships was composed exclusively of African Americans The Coast Guard became the first service to integrate initially with two shipboard experiments and then with the integration of most of their fleet Finally the famous Tuskegee airmen are covered in the chapter on air warfare Proud Warriors makes the case that the wartime experiences of combat units such as the Tank Battalions and the Tuskegee Airmen ultimately convinced President Truman to desegregate the military without which the progress of the Civil Rights Movement might also have been delayed **African Americans and the Pacific War, 1941-1945** Chris Dixon, 2018-09-20 Dixon provides the first comprehensive study of African American military and social experiences during the Pacific War *The Men* Stephen Leal Jackson, 2010 Submarine duty during World War II was one of the most statistically deadly physically demanding and emotionally challenging assignments in the U S Navy The boats had few crew comforts and war patrols typically thirty to sixty days in length were so exhausting that the submarine sailors often got a month of rest after each patrol What would motivate men to volunteer for this unmistakably difficult and dangerous job This is the question that *The Men* will answer

using the oral histories of enlisted submarine veterans a collection of letters of one sailor who did not return and other primary sources These volunteers from diverse locales and backgrounds ignored the danger accepted the privations and exalted in the camaraderie Their excitement fear and humble heroism is captured in their own words the real story of the undersea war in the Pacific told by the men who fought it A veteran of the United States Navy Stephen Leal Jackson spent eight years in the submarine force serving on the USS Los Angeles SSN 688 and the USS Florida SSBN 728 Jackson s service included several Western Pacific cruises to the oceans lands and ports described in *The Men* A lifelong student of American history Jackson s ongoing research concentrates specifically on World Wars I and II Jackson received his Master of Arts in American History from Providence College and is currently in the Ph D program at Salve Regina University Jackson has served as the primary spokesperson for a major electrical utility on nuclear and environmental issues His unique perspective as a onetime navy enlisted submariner trained historian and skilled communicator allows Jackson to provide clear and easy access to the fascinating experiences of the men who fought the undersea battles during World War II [Valor and Courage](#) Benjamin J. Knoblock,2015-12-24 Evidence of the early history of African Americans in New England is found in the many old cemeteries and burial grounds in the region often in hidden or largely forgotten locations This unique work covers the burial sites of African Americans both enslaved and free in each of the New England states and uncovers how they came to their final resting places The lives of well known early African Americans are discussed including Venture Smith and Elizabeth Freeman as well as the lives of many ordinary individuals military veterans business men and women common laborers and children The author s examination of burial sites and grave markers reveals clues that help document the lives of black New Englanders from the 1640s to the early 1900s [New England Shipbuilding: Vessels That Made History](#) Glenn A. Knoblock,2021 For more than four hundred years New England shipyards have contributed significantly to America s maritime and naval supremacy This compelling story is presented through the histories of seventy ships built from the colonial era down to modern times Well known vessels like the Constitution the Nautilus the Flying Cloud and the infamous whaleship Essex are included but so too are lesser known ships including the ill fated Wyoming and the far ranging voyager Union Every type of vessel is covered their building or voyages making nautical news often in exciting fashion and their exploits filled with adventure danger tragedy and survival Historian and author Glenn A Knoblock explores the construction life and demise of these ships and details their contribution to our nation s maritime heritage **First Man Back: The True Story of Lloyd Prewitt and the Return of the Black Man to the United States Navy ,** **Weathervanes of New England** Glenn A. Knoblock,David W. Wemmer,2018-01-25 First used to gauge New England s ever changing weather now viewed as American folk art historic weathervanes have been a part of the region s skyline for

more than three centuries Focusing on examples that can still be seen in public this comprehensive study of the development of the weathervane describes changes in form and function from colonial times to the present and also documents the histories of weathervane makers throughout New England The American Clipper Ship, 1845-1920 Glenn A.

Knoblock,2014-01-29 This work offers a new and comprehensive account of the fastest and most beautiful sailing ships ever built It explores the quest for speed on the seas from the early 1800s through the fast paced times of the 1850s spurred on by the California Gold Rush of 1849 Not only are the career details of such noted ships as the Flying Cloud and Challenge discussed in detail but they are also put in context with the times in which they operated Their builders in East Coast states from Maine to Florida are discussed in detail as are the men and a woman in one instance who commanded and manned these ships The book documents the roles that owners and shipping agents played what kinds of cargo the ships carried worldwide and the unusual trades in which they participated Presumed Lost Stephen Moore,2009-10-01 When

submarines failed to return to port from patrol they were officially listed by the Navy as overdue and presumed lost Loved ones were notified by the War Department that their siblings spouses and sons were missing in action and presumed lost While 52 U S submarines were sunk in the Pacific the Japanese took prisoners of war from the survivors of only seven of these lost submarines Presumed Lost is the compelling story of the final patrols of those seven submarines and the long captivity of the survivors Of the 196 sailors taken prisoner 158 would survive the horrors of the POW camps where torture starvation and slave labor were common This is the most complete and accurate record of their captivity experiences ever compiled Author Stephen L Moore draws on personal interviews with the survivors as well as on diaries family archives and POW statements to reveal new details and correct longstanding errors in previously published accounts Moore s research brought to light the following facts Most crewmen from USS Perch endured 1 298 days of captivity without their families ever being told that they were still alive The Perch and USS Grenadier were so badly damaged by enemy depth charge attacks that their crews were forced to scuttle their ships USS Sculpin and USS S 44 went down fighting with only forty two men from the Sculpin being taken prisoner and half of them perishing on the way to Japan USS Tang and USS Tullibee victims of their own faulty circling torpedoes had few survivors five of whom managed to escape from the sunken burning Tang when it was 180 feet below the ocean surface As many as six men survived the loss of USS Robalo after it struck a mine off Palawan but none of those survived the prison camps The book includes dozens of rare photos of the POWs many of which have never before been published Appendices include final muster rolls of the seven submarines and a complete list of the U S submariners who were held as POWs with details of their various camps of internment **African American World War**

Fremantle's Submarines Michael Sturma, 2015-09-15 From unpromising beginnings in March 1942 the Allied submarine base at Fremantle on the west coast of Australia became a vital part of the Allied offensive against Japan Pushed back from the Philippines and the Netherlands East Indies American submariners accompanied by a small group of Dutch forces retreated to Fremantle as a last resort The location was chosen for its good harbor and the fact that it was outside the range of land based Japanese aircraft Unfortunately the base was also far from their patrol areas and supply lines and it was difficult to reinforce should the enemy attack Thanks largely to a welcoming civilian population morale quickly improved The hospitality and sense of belonging fostered by Western Australians became legendary among Allied submariners and remains central to their wartime memories Perhaps as a result of such a positive experience the Allied forces became much more successful in combat Intertwining social and military history *Fremantle's Submarines* relates how courage cooperation and community made Fremantle arguably the most successful military outpost of World War II from the standpoint of troop morale
