found in our history books For the tribes in the West the history before the 1840 s is poorly understood and when taken out of context seems to make no sense to the casual reader In particular the history of the Natives in Northern California seems to be completely overlooked These people had a turbulent history prior to the Gold Rush of 1849 and while run over in the flood of immigration their history continued This fascinating part of our Nation s history and the context in which it occurred is the heart of this work
