**Liberalism, Black Power, and the Making of American Politics, 1965-1980** Devin Fergus, 2009 In this pioneering exploration of the interplay between liberalism and black nationalism Devin Fergus returns to the tumultuous era of Johnson Nixon Carter and Helms and challenges us to see familiar political developments through a new lens What if the liberal coalition instead of being torn apart by the demands of Black Power actually engaged in a productive relationship with radical upstarts absorbing black separatists into the political mainstream and keeping them from a more violent path What if the New Right arose not only in response to Great Society Democrats but as significantly in reaction to Republican moderates who sought compromise with black nationalists through conduits like the Blacks for Nixon movement Focusing especially on North Carolina a progressive southern state and a national center of Black Power activism Fergus reveals how liberal engagement helped to bring a radical civic ideology back from the brink of political violence and social nihilism He covers Malcolm X Liberation University and Soul City two largely forgotten federally funded black nationalist experiments the political scene in Winston Salem where Black Panthers were elected to office in surprising numbers and the liberal nationalist coalition that formed in 1974 to defend Joan Little a black prisoner who killed a guard she accused of raping her Throughout Fergus charts new territory in the study of America's recent past taking up largely unexplored topics such as the expanding political role of institutions like the ACLU and the Ford Foundation and the emergence of sexual violence as a political issue He also urges American historians to think globally by drawing comparisons between black nationalism in the United States and other separatist movements around the world By 1980 Fergus writes black radicals and their offspring were more likely to petition Congress than blow it up That liberals engaged black radicalism at all however was enough for New Right insurgents to paint liberalism as an effete anti American ideology a sentiment that has had lasting appeal to significant numbers of voters New Perspectives in American Politics Lucius Jefferson Barker, 1989-01-01 The official publication of the National Conference of Black Political Scientists this annual publication includes significant scholarly

Persons, 2017-07-05. *Contours of African American Politics* chronicles the systematic study of African American politics and its subsequent recognition as an established field of scholarly inquiry. African American politics emanates from the demands of the prolonged struggle for black liberation and empowerment. Hence, the study of African American politics has sought to track, codify, and analyse the struggle that has been mounted and to understand the historic and changing political status of African Americans within American society. This two-volume set presents a selection of scholarship on African American politics as it appeared in *The National Political Science Review* from its initial launch in 1989 to the spring of 2009. Represented are contributions from some of the leading scholars of African American politics who have helped to establish and sustain the field. The volumes are organised around themes that derive from the unfolding real-life drama of African American politics and its subsequent scholarly treatment. The result is a window into the political efforts that meld the historically disparate strands of black political expressions into a reconstructed and strategically nimble electoral-based mass mobilisation necessary for optimising the impact of the African American vote. Sections in the volumes also chronicle the evolution of the National Conference of Black Political Scientists as a professional organisation. The two volumes illuminate a pivotal epoch in black political empowerment and provide a context for the future of black politics. **Ronald W. Walters and the Fight for Black Power, 1969-2010** by Robert C. Smith, 2018-02-01. Combines history and biography to interpret the last half century of black politics in America as represented in the life and work of a pivotal African American public intellectual. From his leadership of the first modern lunch counter sit-ins at age twenty to his work on African American reparations at the time of his death at age seventy-two, Ronald W. Walters (1938-2010) was at the cutting edge of African American politics. A preeminent scholar, activist, and media commentator, he was founding chair of the Black Studies Department at Brandeis, where he shaped the epistemological parameters of the new discipline. Walters was an early strategist of congressional black power and a longtime advocate of a black presidential candidacy. His writings on the politics

of race in America both predicted the constraints on President Obama in advancing African American interests and anticipated the emergence of the white nationalism found in the Tea Party and Donald Trump insurgency In this fascinating book Robert C Smith combines history and biography to offer an overview of the last half century of black politics in America through the lens of the life and work of the man often described as the W E B Du Bois of his time This book makes an invaluable contribution to our understanding of one of the most pivotal scholarly voices in global black politics of the twentieth century Smith has done an excellent job capturing the personality history and the interpersonal affections and loyalties of this extraordinary man Todd C Shaw author of Now Is the Time Detroit Black Politics and Grassroots Activism Organizing Ron s biography around the evolution of the black struggle is a really great and appropriate idea the struggle and Ron were one Mack H Jones author of Knowledge Power and Black Politics Collected Essays Black Enterprise ,1999-03 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance **African American Politics in Rural America** E.
