## **Blackstones Guide To Consumer Sales And Associated Guarantees:**

**Blackstone's Guide to Consumer Sales and Associated Guarantees** Robert Bradgate, Christian Twigg-Flesner, 2003  
Blackstone's Guide to Consumer Sales and Associated Guarantees provides a practical guide to the important new Guarantees Directive and its implementation. The Directive affects a consumer's rights and remedies against the seller where they purchase defective goods and by the enforcement of manufacturers' guarantees. The book deals with the relationship and interaction of these new rights with the existing sale of goods law. Written by leading experts in the field, the Guide is both clear and comprehensive in its coverage. It also contains the full text of relevant legislation including the Sale of Goods Act as amended and the EC Directive on Sale of Consumer Goods and Associated Guarantees. **Modernising and Harmonising Consumer Contract Law** Geraint G. Howells, Reiner Schulze, 2009  
In October 2008 the European Commission published the Proposal for a Consumer Rights Directive, a proposal that suggests far-reaching changes to the core of consumer contract law. Four current directives are replaced by a new overarching piece of legislation. In doing so, full harmonization should for the most part take the place of the minimum standard presently in force in the EU. Although a welcomed initiative, the extent and possible effects of the Proposal have certainly brought a number of issues to the fore. In January 2009, legal experts from universities, legal practices and the civil service met at Manchester University to address the issues raised by the Proposal and to address the question of the extent to which the Proposal can indeed contribute to the modernization and harmonization of European consumer contract law. This book contains the proceedings of the conference and includes papers that analyze, criticize and suggest improvements for the Proposal. **Consumer Sales Guarantees in the European Union** Aneta Wiewiórowska-Domagalska, 2012-10-30  
Die Vorbereitungen laufen bereits viele Jahre nun liegt er endlich vor der Entwurf der Europäischen Kommission für ein Gemeinsames Europäisches Kaufrecht als Optionales Instrument. Beteiligte an den Vorarbeiten und wichtige Kritiker derselben setzen sich in diesem höchst empfehlenswerten Buch mit dem Kommissionsentwurf auseinander. Wie wird die Harmonisierung des europäischen Vertragsrechts durch den Entwurf vorangetrieben? Wie schlägt sich der Entwurf im Vergleich zum BGB, zum DCFR oder zu den Acquis Principles? Belehrt werden insbesondere Irrtumsanfechtung, AGB-Kontrolle, allgemeines und besonderes Leistungsstörungsrecht beim Kauf und bei verbundenen Dienstleistungen sowie bergreifende Fragestellungen zum Verbraucherrecht. Der Band wird abgerundet durch eine Synopse des Kommissionsentwurfs und der vorangegangenen Machbarkeitsstudie, in der die Entwicklung des Textes deutlich wird. *The Yearbook of Consumer Law 2007* Geraint Howells, Annette Nordhausen, Deborah Parry, Christian Twigg-Flesner, 2018-12-18

Yet often it's our desire and the best interests of the environment for these goods to last. The contributors to this book, who comprise many of the most significant international thinkers in the field, explore how longer-lasting products could offer enhanced value while reducing environmental impacts. If we created fewer but better quality products, looked after them carefully and invested more in repair, renovation and upgrading, would this direct our economy onto a more sustainable course? The solution sounds simple, yet it requires a seismic shift in how we think, whether as producers or consumers, and our voracious appetite for novelty. The complex range of issues associated with product life spans demands a multidisciplinary approach. The book covers historical context, design, engineering, marketing, law, government policy, consumer behaviour and systems of provision. It addresses the whole range of consumer durables: vehicles, kitchen appliances, audio-visual equipment and other domestic products, furniture and floor coverings, hardware, garden tools, clothing, household textiles, recreational goods and DIY goods, as well as the re-use of packaging. *Longer Lasting Products* provides policy makers, those involved in product design, manufacturing and marketing, and all of us as consumers with clear and compelling guidance as to how we can move away from a throwaway culture towards an economy sustained by more durable goods      **Internet of Things and the Law** Guido Noto La Diega, 2022-10-14 *Internet of Things and the Law: Legal Strategies for Consumer-Centric Smart Technologies* is the most comprehensive and up-to-date analysis of the legal issues in the Internet of Things (IoT). For decades, the decreasing importance of tangible wealth and power and the increasing significance of their disembodied counterparts has been the subject of much legal research. For some time now, legal scholars have grappled with how laws drafted for tangible property and predigital offline technologies can cope with dematerialisation, digitalisation and the internet. As dematerialisation continues, this book aims to illuminate the opposite movement.

rematerialisation namely the return of data knowledge and power within a physical smart world This development frames the book's central question can the law steer rematerialisation in a human centric and socially just direction To answer it the book focuses on the IoT the sociotechnological phenomenon that is primarily responsible for this shift After a thorough analysis of how existing laws can be interpreted to empower IoT end users Noto La Diega leaves us with the fundamental question of what happens when the law fails us and concludes with a call for collective resistance against smart capitalism The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution CC BY 4.0 license
