

BLAIR'S BRITAIN

1997-2007

ANTHONY NEWSON

Blairs Britain

Anthony Seldon

Blairs Britain:

Blair's Britain, 1997-2007 Anthony Seldon, 2007-09-20 Tony Blair has dominated British political life for more than a decade Like Margaret Thatcher before him he has changed the terms of political debate and provoked as much condemnation as admiration At the end of his era in power this book presents a wide ranging overview of the achievements and failures of the Blair governments Bringing together Britain s most eminent academics and commentators on British politics and society it examines the effect of the Prime Minister and his administration on the machinery of government economic and social policy and foreign relations Combining serious scholarship with clarity and accessibility this book represents the authoritative verdict on the impact of the Blair years on British politics and society *Blair's Britain* Stephen Driver, Luke Martell, 2003-01-02 In this important new book Stephen Driver and Luke Martell examine how the Blair government is re shaping Britain Britain s place in Europe and British social democracy This timely study of Labour s first term in power for two decades challenges the view that New Labour has thrown in the towel to Thatcherite neo liberalism Driver and Martell argue that Tony Blair s government has in fact taken politics and policy making beyond Thatcherism But they also cast doubt on some of the social democratic claims of Labour modernizers While Labour s stunning election victories in 1997 and 2001 have given the Blair government an unprecedented opportunity to shape the political and policy landscape in Labour s image Blair s Britain continues to bear the imprint of eighteen years of radical Conservative government Blair s Britain explores the central policy dilemmas faced by the Labour Party in government in its second term and beyond the balance between social justice and economic efficiency strong government and pluralist politics and work and home life The authors explore how social democrats and progressive politicians across Europe in Germany France the Netherlands Scandinavia and the Mediterranean as well as the United States have responded to the challenges of globalization and social change and examine the comparative politics of social democracy across Europe and the rest of the world today This book is the most comprehensive survey of New Labour yet to appear and will be read by students of politics and sociology as well as being accessible to the general reader **Blair's Britain, 1997-2007** Anthony Seldon, 2007 Tony Blair dominated British political life for more than a decade Bringing together eminent academics and commentators this title presents a wide ranging overview of the achievements and failures of the Blair years **Blair's Britain** Hal Colebatch, 1999 **Blair's Successful War** Andrew M. Dorman, 2016-04-08 Andrew Dorman introduces Sierra Leone as Blair s second great military adventure after Kosovo and the first he undertook on his own It is tied to Blair s 1999 Chicago speech on the Doctrine of the International Community his move towards humanitarianism and the impact of the Kosovo experience The book links this move with the rise of cosmopolitan militaries and the increasing involvement of Western forces in humanitarian operations and their impact on the international system Furthermore it places it within the context of defence transformation and the emerging Western expeditionary capabilities in particular the European Union s new battle

group concept and developments in concepts such as Network Centric Warfare and Networked Enabled Capability

Examining the whole campaign and considering the impact on the Blair Government this book will prove to be a key reader on the topic **Britain and Norway in Europe Since 1945** Geir K. Almlid,2020-12-01 This book examines Britain and Norway in Europe from 1945 through to the former s departure from the European Union in 2020 It compares their European relations and investigates their bilateral relationship within the contexts of security trade and above all European integration Britain and Norway are outsiders in Europe and they have both been sceptical of the continental federalist approach to European integration The question of membership itself has been highly controversial in both countries the public has been divided on the issue it has plagued political parties and governments and prime ministers have resigned over European issues This book explores why these countries have struggled so deeply with the idea of Europe since 1945 and looks ahead to how the relationship between Britain and Norway might develop after Brexit Remoralizing Britain? Peter Manley Scott,Christopher R. Baker,Elaine L. Graham,2009-05-31 Drawing together theorists from a range of backgrounds this interdisciplinary collection gives a decade of New Labour an ethical and theological reckoning *The Foreign Policy Discourse in the United Kingdom and the United States in the “New World Order”* Lori Maguire,2009-01-14 The goal of this book is to examine some of the major foreign policy debates in the United Kingdom and the United States in the period from 1992 to 2008 from the end of the Cold War and the aftermath of the first Gulf War to the 2008 American presidential election The first President Bush spoke in 1991 of a new world order which seemed to mean an American hegemony The United States was now the world s only superpower although a superpower afflicted with weaknesses especially economic ones But by 2008 the new world order did not seem so new or so strongly American The period saw the terrorist attacks against the U S of 11 September 2001 military problems for the superpower in Afghanistan and Iraq and by the summer of 2008 near economic collapse In all of these developments Britain shared to a lesser or a greater extent It is hoped that this book will shed an important light both on each nation and on the so called special relationship between the two Furthermore this book is also not specifically concerned with policy or how policy is made but with the debate around policy and the rhetoric used to present different points of view The Special Relationship between the US and Britain remains an enigmatic ever changing but still very powerful factor in world politics As an examination of their foreign policy discourses reveals from the perspective of culture and values few Western countries are as different as the United Kingdom and the US With very few exceptions the foreign policies of Gladstone and Tony Blair and Chruchillian rhetoric unmatched by his supremely realpolitical politics British governments abhor talking about values and ideals The British cultural peculiarity is to dismiss ideology and values as packaging only to be caught by surprise time and again that they cannot do business with Herr Hitler or that people kill each other for their values religions constructed identities and ideologies Most American governments by contrast have had ideological and moral crusades embroidered on their banners in their foreign policy There is a

convergence with Britain when both proclaim that all they are doing is in their self interest but the Americans unashamedly assume that what is good for America is good for the world while the British discourse with the UK's decline since 1945 rarely goes that far. As an analysis of their discourses reveals the Special Relationship is thus clearly founded on something either deeper or more superficial than shared culture or values this volume sheds light on this surprising fact in most illuminating ways and Lori Maguire's achievement in bringing together these examinations is praiseworthy indeed. Prof Beatrice Heuser, University of Reading

Everyday Life in British Government R. A. W. Rhodes, 2011-04-21 In his fascinating new piece of political anthropology Rod Rhodes uncovers exactly how the British political elite thinks and acts

The Ethics of Foreign Policy David B. MacDonald, Robert G. Patman, Betty Mason-Parker, 2007-01-01 This ground breaking volume considers the ethical aspects of foreign policy change through five interrelated dimensions: conceptual, security, economic, normative and diplomatic. An impressive group of international scholars and practitioners makes it ideally suited to courses on international relations, security studies, ethics and human rights, philosophy, media studies and international law.

British History For Dummies Seán Lang, 2011-02-08 History is always a popular subject and British history has created some of the most lively and fascinating stories there are. Britain as we know it today has been shaped by centuries of political turmoil between state and church as well as international conflicts making its history a fascinating insight into how modern Britain has emerged. For this special hardback edition of British History For Dummies we've added over 100 black and white and colour photos for an even more explosive experience of British history. British History For Dummies Illustrated Edition. British history is still a major topic of interest emphasised by the continual TV coverage and documentaries. Inside you'll find rip-roaring stories of power, mad kings, executions, invasions, high treason, global empire building and forbidden love, not bad for a nation of stiff upper lips. Includes fascinating information in the fun For Dummies style from the Stone Age right through to modern day Britain and everything in between. Provides the ultimate British history experience and the hardback format with over 100 illustrations make it the perfect gift for amateur historians. [A/AS Level History for AQA The Making of Modern Britain, 1951-2007 Student Book](#)

David Dutton, Lucien Jenkins, Richard Kerridge, 2016-06-30 A new series of bespoke full coverage resources developed for the AQA 2015 A/AS Level History. Approved by AQA, this print Student Book covers The Making of Modern Britain 1951-2007 Depth component and provides valuable background information to contextualise the period of study. Supporting students in developing their critical thinking, research and written communication skills, it also encourages them to make links between different time periods, topics and historical themes.

Reforming the UK's Citizenship Test Thom Brooks, 2022-04-29 How many questions could you answer in a pub quiz about British values? Designed to ensure new migrants have accepted British values and integrated, the UK's citizenship test is often portrayed as a bad pub quiz with answers few citizens know. With the launch of a new post-Brexit immigration system, this is a critical time to change the test. Thom Brooks draws on first-hand experience of

taking the test and interviews with key figures including past Home Secretaries to expose the test as ineffective and a barrier to citizenship This accessible guide offers recommendations for transforming the citizenship test into a bridge to citizenship which fosters greater inclusion and integration **British Public Diplomacy and Soft Power** James Pamment,2016-10-17 This volume outlines two decades of reforms at the Foreign our toils make more sense for what he has done placing them in a historical and conceptual context John Worne Director of Strategy External Relations British Council 2007 2015

Exploring British Politics Mark Garnett,Peter Dorey,2016-04-14 Exploring British Politics is a concise comprehensive and accessible guide to the subject Fully updated and revised the new edition covers the 2015 general election and recent developments in the role of political parties changes in party ideology the UK s relationship with the European Union and the future of the UK itself Designed to stimulate critical analysis and provoke lively debate it provides new perspectives on two key themes the health of British democracy and the transition from traditional models of government to more flexible forms of governance The special features of the new edition include Comprehensive analysis of the 2015 general election and the 2014 referendum on Scottish independence A focus on topical controversies such as the relationship between politicians and the media and the arguments for and against Human Rights legislation Explanation of the ways in which British governments have responded to dramatic social change and to serious economic challenges in an era of globalisation Extensive guides to further reading at the end of each chapter Whilst it provides the essential historical background for a full understanding of British politics contemporary issues are to the fore throughout and readers are encouraged to scrutinise what is often taken for granted and to develop their own thoughts and ideas Whether studying the subject for the first time or revisiting it Exploring British Politics is the ideal undergraduate text **The EU's Common Foreign and Security Policy in Germany**

and the UK Nicholas Wright,2018-10-11 This book examines the impact on member states of long term foreign policy co operation through the EU s Common Foreign and Security Policy CFSP Focusing on Germany and the UK it provides an up to date account of how they have navigated and responded to the demands co operation places on all member states and how their national foreign policies and policy making processes have changed and adapted as a consequence As well as exploring in depth the foreign policy traditions and institutions in both states the book also offers detailed analyses of how they addressed two major policy questions the Iranian nuclear crisis and the establishment and development of the European External Action Service The book s synthesis of country and case studies seeks to add to our understanding of the nature of inter state co operation in the area of foreign and security policy and what it means for the states involved **Modern**

British Playwriting: 2000-2009 Dan Rebellato,2013-12-16 Essential for students of theatre studies Methuen Drama s Decades of Modern British Playwriting series provides a comprehensive survey and study of the theatre produced in each decade from the 1950s to 2009 in six volumes Each volume features a critical analysis and reevaluation of the work of four five key playwrights from that decade authored by a team of experts together with an extensive commentary on the period

Edited by Dan Rebellato *Modern British Playwriting 2000-2009* provides an authoritative and stimulating reassessment of the theatre of the decade together with a detailed study of the work of David Greig, Nadine Holdsworth, Simon Stephens, Jacqueline Bolton, Tim Crouch, Dan Rebellato, Roy Williams, Michael Pearce and Debbie Tucker Green. Lynette Goddard's volume sets the context by providing a chronological survey of the decade, one marked by the War on Terror, the excesses of economic globalization and the digital revolution. In surveying the theatrical activity and climate, Andrew Haydon explores the response to the political events, the rise of verbatim theatre, the increasing experimentation and the effect of both the Boyden Report and changes in the Arts Council's priorities. Five scholars provide detailed examinations of the playwrights' work during the decade, combining an analysis of their plays with a study of other material such as early play drafts and the critical receptions of the time. Interviews with each playwright further illuminate this stimulating final volume in the *Decades of Modern British Playwriting* series.

The British Constitution: Continuity and Change Matt Qvortrup, 2014-07-04

Vernon Bogdanor once told *The Guardian* that he made a living of something that doesn't exist. He also quipped that the British Constitution can be summed up in eight words: Whatever the Queen in Parliament decides is law. That may still be the case, yet in many ways the once elusive British Constitution has now become much more grounded, much more tangible and much more based on written sources than was previously the case. It now exists in a way in which it previously did not. However, though the changes may seem revolutionary, much of the underlying structure remains unchanged; there are limits to the changes. Where does all this leave the Constitution? Here constitutional experts, political scientists and legal practitioners present up-to-date and in-depth commentaries on their respective areas of expertise. While also a *Festschrift* in honour of Vernon Bogdanor, this book is above all a comprehensive compendium on the present state of the British Constitution. The new constitutional politics has spawned a new constitutional scholarship. This stimulating collection, skilfully put together by Matt Qvortrup, works both as a welcome snapshot of where we are now and as an expert audit from specialists in law, history and political science of the deeper issues and of the complex dynamics of continuity and change in the ongoing refashioning of Britain's constitutional architecture. Kevin Theakston, Professor of British Government, University of Leeds. The highly distinguished team of scholars assembled by Matt Qvortrup has produced a deeply thought-provoking collection on the profound constitutional changes that have occurred in the UK over the last twenty years. A book worthy of reaching a very wide readership. Roger Scully, Professor of Political Science, Cardiff University. Vernon Bogdanor understands like few others the connections between history, politics and institutions, and that is what makes him such an authority on the British system of government. The Rt Hon David Cameron, MP, Prime Minister. I think Vernon's guiding principle at Brasenose was to treat all his students as if they might one day be Prime Minister. At the time I thought this was a bit over the top, but then a boy studying PPE at Brasenose, two years beneath me, became Prime Minister. Toby Young, *The Spectator*.

Blair Unbound Anthony Seldon, 2008-09-04. The first volume of Anthony Seldon's riveting and definitive life of Tony Blair was

published to great acclaim in 2004 Now as the Labour Party and the country get used to the idea of a new leader and a new Prime Minister Seldon delivers the most complete authoritative and compelling account yet of the Blair premiership Picking up the story in dramatic fashion on 11 September 2001 Seldon recaps very briefly Blair's trajectory to what may now be regarded as the high point of his leadership and then brings us right up to date as Blair hands over the reins to his arch rival Gordon Brown Based on hundreds of original interviews with key insiders many of whose views have hitherto been kept private BLAIR UNBOUND serves both as a fascinating volume two of this masterclass in political biography and a highly revealing and compelling book in its own right

British foreign and defense policy Marc Nikolas Liehr, 2004-02-27

Inhaltsangabe Abstract Is Great Britain really a desperate European This was the question in mind whilst writing this essay Would Britain go to war against Iraq with the United States of America or would it search for a peaceful solution together with old Europe within the United Nations The answer to this question is well known today The UK decided to wage war on Iraq together with America Once again Britain gave its continental European partners the feeling to be more the fifty first state of America than a member of the European Union trying to find a common European position in foreign and security policy Why does the UK behave the way it does Is it really taking a reluctant position against an ever increasing importance of the EU in foreign and security affairs What is it about its relationship to the US and which role does the Commonwealth play in this area traditionally the domain of sovereign national politics The essay examining these questions will come to an astonishing conclusion At the moment Britain is celebrating its 30th anniversary of EU membership This should be an occasion to find out more about its foreign and defence policy At the time of writing Britain was the only European power coupled with the US in preparing for a war against Iraq The question has to be asked as to why Britain has adopted such a pro American stance Since Blair's election to power in 1997 time and time again he has emphasized that Britain's future is in Europe However certainly with regard to foreign and defence policy such a statement appears hollow What happened with those honourable aims of European integration like a Common Foreign and Security Policy which was established as a pillar of the EU by the Maastricht Treaty in 1992 Finding an agreed European Common and Foreign Policy certainly has not been obtained and could even be said to be in its worst state ever Nothing illustrated this better than the diversity of opinion within the EU concerning the possible war with Iraq Italy and Spain tended towards the position of the US and Britain France wanted to formulate a new UN resolution before deciding the course of action they wish to take Germany stood against the use of any force At present it would seem that the CFSP remains an objective to be realised at a later date Past and present none of the other EU members act as closely with the US as Britain Is Britain's policy influenced by American interests
