**Joy and Laughter in**

**Nietzsche's Philosophy** Paul E. Kirkland, Michael J. McNeal, 2022-06-16 Analyzing the importance of joy laughter and cheerfulness in Nietzsche s thought this volume addresses an under examined topic in the secondary literature By exploring disparate aspects of these interrelated emotions it provides new insights into his key ideas The contributors among them philosophers and political scientists illustrate the significance of these feelings to reveal political ramifications of their affirmative potential and their broader role in Nietzsche s philosophical aims These include how the joyful disposition Nietzsche commends informs his free spirit s self overcoming attempts to revalue all values and prospects of ultimately transfiguring humanity Among other topics scholars assess the barmensch and shared joy learning to laugh at oneself Schopenhauer s jokes Pascal s cheerfulness and the Dada movement s subversively playful aesthetic By contemplating

Nietzsche's emphasis on joy and laughter the volume reveals a thinker who far from being a caricature of hopeless nihilism is in fact the hitherto unrecognised champion of an alternative liberatory politics      *A Social Theory of Freedom* Mariam Thalos, 2016-03-17 In *A Social Theory of Freedom* Mariam Thalos argues that the theory of human freedom should be a broadly social and political theory rather than a theory that places itself in opposition to the issue of determinism Thalos rejects the premise that a theory of freedom is fundamentally a theory of the metaphysics of constraint and instead lays out a political conception of freedom that is closely aligned with questions of social identity self development in contexts of intimate relationships and social solidarity Thalos argues that whether a person is free in any context depends upon a certain relationship of fit between that agent's conception of themselves both present and future on the one hand and the facts of their circumstances on the other Since relationships of fit are broadly logical freedom is a logic it is the logic of fit between one's aspirations and one's circumstances what Thalos calls the logic of agency The logic of agency once fleshed out becomes a broadly social and political theory that encompasses one's self conceptions as well as how these self conceptions are generated together with how they fit with the circumstances of one's life The theory of freedom proposed in this volume is fundamentally a political one
