Blank The Invisible Poem:

Blank (the Invisible Poem) Roger Giroux, 2001 Poetry Translated by Anthony Barnett The Poem is this place where nothingness comes to see comes to breathe from BLANK BLANK published in France in 1991 at Editions Unes is a soul searching frighteningly truthful prose meditation on life and the making of poetry from one of several notebooks by the author to be published following his early death from cancer Roger Giroux lived a mostly private life as an uncompromisingly pure poet He is best known for the single volume of poetry that appeared during his lifetime from Mercure de France in 1964 *L Arbres Le Temps* that was awarded the Prix Max Jacob **Blank Splendour** David Collings, 2024-07-31 Certain moments in British Romantic poetry and art depict a state from which the attributes of existence time and space subject and object language and visibility have fallen away leaving a domain prior to the world and to thought the condition of mere existence As *Blank Splendour* demonstrates poems by Wordsworth Coleridge Keats and Clare as well as paintings by Turner evoke a condition that transpires in a time without time a life without life David Collings argues that these works invite us to move beyond the subtle remnants of ontology that linger in current versions of posthuman thought such as affect theory and speculative realism by opening up a domain of affect without affect a world without objects Anticipating the philosophers Emmanuel Levinas and Maurice Blanchot these works bring into view the mode of a deconstruction that emerged before the linguistic turn one that meditates on the blank condition underlying modernity Ultimately *Blank Splendour* reveals how these works speak to our own moment when thought forced to contemplate its own extinction enters a new form of mere existence

new problems facing avant gardists in the age of late capitalism Silverberg highlights the family resemblances among the New York School poets identifying the aesthetic concerns and ideological assumptions they shared with one another and with artists from the visual and performing arts A unique feature of the book is Silverberg s annotated catalogue of collaborative works by the five poets and other artists To comprehend the coherence of the New York School Silverberg demonstrates one must understand their shared commitment to a reconceptualized idea of the avant garde specific to the United States in the 1950s and 60s when the adversary culture of the Beats was being appropriated and repackaged as popular culture Silverberg s detailed analysis of the strategies the New York School poets used to confront the problem of appropriation tells us much about the politics of taste and gender during the period and suggests new ways of understanding succeeding generations of artists and poets

Blanks, Print, Space, and Void in English Renaissance Literature Jonathan Sawday, 2023-06-20 Blanks Print Space and Void in English Renaissance Literature is an inquiry into the empty spaces encountered not just on the pages of printed books in c 1500 1700 but in Renaissance culture more generally The book argues that print culture in the sixteenth and seventeenth centuries helped to foster the modern idea of the gap where words texts images and ideas are constructed as missing lost withheld fragmented or perhaps never devised in the first place It re imagines how early modern people reacted not just to printed books and documents of many different kinds but also how the very idea of emptiness or absence began to be fashioned in a way which still surrounds us Jonathan Sawday leads the reader through the entire landscape of early modern print culture discussing topics such as space and silence the exploration of the vacuum the ways in which race and racial identity in early modern England were constructed by the language and technology of print blackness and whiteness together with lightness darkness and sightlessness cartography and emptiness the effect of typography on reading practices the social spaces of the page gendered surfaces hierarchies of information books of memory pages constructed as waste or vacant the genesis of blank forms and early modern bureaucracy the political and devotional spaces of printed books the impact of censorship and the problem posed by texts which lack endings or conclusions The book itself ends by dwelling on blank or empty pages as a sign of human mortality Sawday pays close attention to the writings of many of the familiar figures in English Renaissance literary culture Sidney Shakespeare Donne Jonson and Milton for example as well as introducing readers to a host of lesser known figures The book also discusses the work of numerous women writers from the period including Aphra Behn Ann Bradstreet

McCarthy, 2019-01-24 Romanticism and Speculative Realism features a range of scholars working at the intersection of literary poetics and philosophy It considers how the writing of the Romantic era reconceptualizes the

human imagination the natural world and the language that correlates them in radical ways that can advance current speculative debates concerning new ontologies and new materialisms In their wide ranging examinations of canonical and non canonical romantic writers the scholars gathered here rethink the connections between the human and non human world to envision speculative modes of social being and ecological politics Spanning historical and national frameworks from historical romanticism to contemporary post romantic ecology and from British and German romanticism to global modernity these essays examine life in all its varied forms in and beyond the Anthropocene

Wallace Stevens and Pre-Socratic Philosophy Daniel Tompsett, 2012-09-10 This book studies Wallace Stevens and pre Socratic philosophy showing how concepts that animate Stevens poetry parallel concepts and techniques found in the poetic works of Parmenides Empedocles and Xenophanes and in the fragments of Heraclitus Tompsett traces the transition of pre Socratic ideas into poetry and philosophy of the post Kantian period assessing the impact that the mythologies associated with pre Socratism have had on structures of metaphysical thought that are still found in poetry and philosophy today This transition is treated as becoming increasingly important as poetic and philosophic forms have progressively taken on the existential burden of our post theological age Tompsett argues that Stevens poetry attempts to play its audience into an ontological ground in an effort to show that his reduction of metaphysics is not dry philosophical imposition but is enacted by our encounter with the poems themselves Through an analysis of the language and form of Stevens poems Tompsett uncovers the mythology his poetry shares with certain pre Socratics and with Greek tragedy This shows how such mythic rhythms are apparent within the work of Friedrich Nietzsche Martin Heidegger and Hans Georg Gadamer and how these rhythms release a poetic understanding of the violence of a reduction of metaphysics

The Tao and the Logos Longxi Zhang, 1992-04-17 The author investigates the metaphorical nature of poetic language highlighting the central figures of reality and meaning in both Eastern and Western thought the Tao and the Logos
