Blasted Allegories An Anthology Of Writings By Contemporary Artists:

Blasted Allegories Brian Wallis, 1987 *Blasted Allegories* is the first comprehensive collection of writing by contemporary artists making available the best and most representative examples from the past ten years an era marked by such pluralism and eclecticism that the voice of the artist may be the clearest one to listen to **Blasted Allegories** Brian Wallis, 1987

Selected Writings in Art Criticism, 1967-1992 Adrian Piper, 1996 *Out of Order Out of Sight* is an artistic and intellectual autobiography and commentary on mainstream art art criticism and American culture of the last twenty five years Cover **The Films of Yvonne Rainer** Yvonne Rainer, 1989-12-22 To read Rainer's screenplays is to rediscover even reinvent the films all over again but more importantly to realize that images and mise en scene are as key to how Rainer's films work as is language *The Independent* The scripts record the unique structure of Rainer's films the stresses strains and crackling of voices layering over and into one another Their publication is an important moment for feminist film Cineaste Rainer's films are not highly accessible but are important to the critical imagination as an example of the sustained exploration of political and feminist theory Choice Rainer's important work in the area of avant garde filmmaking in the seventies and eighties is amply recorded in this book Cantrills Filmnotes The scripts of Rainer's five films presented here along with essays an interview and bibliography demonstrate the evolution of her political consciousness as well as her creative engagement with the contemporary film and cultural scene These texts challenge the illusionist and ideological presumptions of mainstream culture and cinema *Disciplinary and Dissent in Cultural Studies* Cary Nelson, Dilip Gaonkar, 2013-10-28 First published in 1996 As recently as the early 1990s people wondered what was the future of cultural studies in the United States and what effects its increasing internationalization might have What type of projects would cultural studies inspire people to undertake Would established disciplines welcome its presence and adapt their practices accordingly *Disciplinary and Dissent in Cultural Studies* answers such questions It is now clear that while striking and innovative work is underway in many different fields most disciplinary organizations and structures have been very resistant to cultural studies Meanwhile cultural studies has been subjected to repeated attacks by conservative journalists and commentators in the public sphere Cultural studies scholars have responded not only by mounting focused critiques of the politics of knowledge but also by embracing ambitious projects of social political and cultural commentary by transgressing all the official boundaries of knowledge in a broad quest for cultural understanding This book tracks these debates and maps future strategies for cultural studies in academia and public life The contributors to *Disciplinary and Dissent in Cultural Studies* include established scholars and new voices In a series of polemic and exploratory essays written especially for this book they track the struggle with cultural studies in disciplines like anthropology literature and history and between cultural studies and very different domains like Native American culture and the culture of science Contributors include Arjun Appadurai Michael Denning Lawrence Grossberg Cary Nelson Constance Penley Andrew Ross and Lynn Spigel *The*

Terrorist Album Jacob Dlamini, 2020-05-05 An award winning historian and journalist tells the very human story of apartheid's afterlife tracing the fates of South African insurgents collaborators and the security police through the tale of the clandestine photo album used to target apartheid's enemies From the 1960s until the early 1990s the South African security police and counterinsurgency units collected over 7 000 photographs of apartheid's enemies The political rogue's gallery was known as the terrorist album copies of which were distributed covertly to police stations throughout the country Many who appeared in the album were targeted for surveillance Sometimes the security police tried to turn them sometimes the goal was elimination All of the albums were ordered destroyed when apartheid's violent collapse began But three copies survived the memory purge With full access to one of these surviving albums award winning South African historian and journalist Jacob Dlamini investigates the story behind these images their origins how they were used and the lives they changed Extensive interviews with former targets and their family members testify to the brutal and often careless work of the police Although the police certainly hunted down resisters the terrorist album also contains mug shots of bystanders and even regime supporters Their inclusion is a stark reminder that apartheid's guardians were not the efficient if morally compromised law enforcers of legend but rather blundering agents of racial panic With particular attentiveness to the afterlife of apartheid Dlamini uncovers the stories of former insurgents disenchanted with today's South Africa former collaborators seeking forgiveness and former security police reinventing themselves as South Africa's newest export security consultants serving as mercenaries for Western nations and multinational corporations The *Terrorist Album* is a brilliant evocation of apartheid's tragic caprice ultimate failure and grim legacy

The Choreographic Jenn Joy, 2014-10-10 An investigation of dance and choreography that views them not only as artistic strategies but also as intrinsically theoretical and critical practices The choreographic stages a conversation in which

artwork is not only looked at but looks back it is about contact that touches even across distance The choreographic moves between the corporeal and cerebral to tell the stories of these encounters as dance trespasses into the discourse and disciplines of visual art and philosophy through a series of stutters steps trembles and spasms In *The Choreographic* Jenn Joy examines dance and choreography not only as artistic strategies and disciplines but also as intrinsically theoretical and critical practices She investigates artists in dialogue with philosophy describing a movement of conceptual choreography that flourishes in New York and on the festival circuit Joy offers close readings of a series of experimental works arguing for the choreographic as an alternative model of aesthetics She explores constellations of works artists writers philosophers and dancers in conversation with theories of gesture language desire and history She choreographs a revelatory narrative in which Walter Benjamin Pina Bausch Francis Al s and Cormac McCarthy dance together she traces the feminist and queer force toward desire through the choreography of DD Dorvillier Heather Kravas Meg Stuart La Ribot Miguel Gutierrez luciana achugar and others she maps new forms of communicability and pedagogy and she casts science fiction writers Samuel R Delany and Kim Stanley Robinson as perceptual avatars and dance partners for Ralph Lemon Marianne Vitali James Foster and Janet Cardiff and George Bures Miller Constructing an expanded notion of the choreographic Joy explores how choreography as critical concept and practice attunes us to a more productively uncertain precarious and ecstatic understanding of aesthetics and art making

Picture-Work Diana Kamin, 2023-11-21

How the image collection organized and made available for public consumption came to define a key feature of contemporary visual culture The origins of today's kaleidoscopic digital visual culture are many In this book Diana Kamin traces the sharing of photographs to an image economy developed throughout the twentieth century by major institutions *Picture Work* examines how three of these institutions the New York Public Library the Museum of Modern Art and the stock agency H Armstrong Roberts Inc defined the public's understanding of what the photographic image is while building vast collections with universalizing ambitions Highlighting underexplored figures such as the first rights and reproduction manager at MoMA Pearl Moeller and visionary NYPL librarian Romana Javitz and underexplored professional practices Diana Kamin demonstrates how bureaucratic work communicates ideas about images to the public Kamin artfully shows how the public interfaces with these image collections through systems of classification and protocols of search and retrieval These interactions in turn shape contemporary image culture including concepts of authorship art property and value as well as logics of indexing tagging and hyperlinking Together these interactions have forged a concept of the image as alienable content which has intensified with the advent of digital techniques for managing image collections To survey the complicated process of digitization in the nineties and early aughts Kamin also includes interviews with photographers digital asset management system designers librarians and artists on their working practices
