Dorr,2012-09-15 From Hell Hawks author Bob Dorr Mission to Tokyo takes the reader on a World War II strategic bombing mission from an airfield on the western Pacific island of Tinian to Tokyo and back Told in the veterans words Mission to Tokyo is a narrative of every aspect of long range bombing including pilots and other aircrew groundcrew and escort fighters that accompanied the heavy bombers on their perilous mission Several thousand men on the small Mariana Islands of Guam Saipan and Tinian were trying to take the war to the Empire Imperial Japan in B

29 Superfortresses flying at 28 000 feet but the high altitude bombing wasn't very accurate. The decision was made to take the planes down to around 8 000 feet even as low as 5 000 feet. Eliminating the long climb up would save fuel and allow the aircraft to take heavier bomb loads. The lower altitude would also increase accuracy substantially. The trade off was the increased danger of anti aircraft fire. This was deemed worth the risk and the devastation brought to the industry and population of the capital city was catastrophic. Unfortunately for all involved the bombing did not bring on the quick surrender some had hoped for. That would take six more months of bombing culminating in the atomic bombs dropped on Hiroshima and Nagasaki. As with Mission to Berlin Spring 2011 Mission to Tokyo focuses on a specific mission from spring 1945 and provides a history of the strategic air war against Japan in alternating chapters.

Preston John Hubbard, 1990 *Apocalypse Undone* recounts Preston Hubbard's four and a half year odyssey from a young idealistic CCC worker to a much older troubled man full of contempt for war and those who make it. He survived the Bataan Death March, imprisonment at Camp O'Donnell where the death rate exceeded 400 a day, a jungle work detail on Tayabas Isthmus, the starvation diet of Manila's Bilibid Prison, a 17 day voyage to Japan on a Hell Ship, and a Japanese POW camp bombed by American planes. *Zero, the Story of Japan's Air War in the Pacific - As Seen by the Enemy* Martin Caidin, 2012-04-25 This is the thrilling saga of war in the air in the Pacific Theater of Operations during World War II told from the Japanese point of view. It is the story of the men who created and fought in the deadly Zero fighter plane. In their own words, Jiro Horikoshi who designed the Zero, Masatake Okumiya, leader of many Zero squadrons, and Saburo Sakai, Japan's leading surviving fighter ace, as well as many other men, tell the inside story of developing the Zero and Japan's air force. They tell what it felt like to bomb American ships and to shoot down American airplanes and then of their shock when the myth of invincibility was shattered by the new Lightning, Hellcat, and Corsair fighters. They tell of the fight against the growing strength of a remorseless American enemy and how in desperation the Japanese High Command ordered the creation of deadly suicide squadrons, the Kamikaze. And finally, they reveal their reaction to the dropping of the atomic bombs on Hiroshima and Nagasaki. **Reports of General MacArthur: suppl. MacArthur in Japan: the occupation, military phase. v.2.
