Histories you can trust World War Two was the most devastating conflict in recorded human history It was both global in extent and total in character It has understandably left a long and dark shadow across the decades Yet it is three generations since hostilities formally ended in 1945 and the conflict is now a lived memory for only a few And this growing distance in time has allowed historians to think differently about how to describe it how to explain its course and what subjects to focus on when considering the wartime experience For instance as World War Two recedes ever further into the past even a question as apparently basic as when it began and ended becomes less certain Was it 1939 when the war in Europe began Or the summer of 1941 with the beginning of Hitler s war against the Soviet Union Or did it become truly global only when the Japanese brought the USA into the war at the end of 1941 And what of the long conflict in East Asia beginning with the Japanese aggression in China in the early 1930s and only ending with the triumph of the Chinese Communists in 1949 In *The Oxford History of World War Two* a team of leading historians re assesses the conflict for a new generation exploring the course of the war not just in terms of the Allied response but also from the viewpoint of the Axis aggressor states Under Richard Overy s expert editorial guidance the contributions take us from the genesis of war through the action in the major theatres of conflict by land sea and air to assessments of fighting power and military and technical innovation the economics of total war the culture and propaganda of war and the experience of war and genocide for both combatants and civilians concluding with an account of the transition from World War to Cold War in the late 1940s Together they provide a stimulating and thought provoking new interpretation of one of the most terrible and fascinating episodes in world history **The Oxford Illustrated History of World War II** R. J. Overy,2015

A history of the vegetable kingdom William Rhind, 1841 *Bulletin* Mercantile Library of Philadelphia, 1889 **Napoleon Bonaparte and His Times; Including an Historical Sketch of the French Revolution and the Wars Subsequent on that Event. [Illustrated and with Maps.]** Napoleon I (Emperor of the French), 1849 **The Life of Napoleon Bonaparte, Emperor of the French** Walter Scott, 1828 *The Fulfilment of Revelation; Or Prophetic History of the Declensions and Restoration of the Christian Church* William WARD (Prebendary of Salisbury.), 1818 **Africa and the Africans in the Nineteenth Century: A Turbulent History** Catherine Coquery-Vidrovitch, Mary Baker, 2015-02-12 Most histories seek to understand

modern Africa as a troubled outcome of nineteenth century European colonialism but that is only a small part of the story In this celebrated book beautifully translated from the French edition the history of Africa in the nineteenth century unfolds from the perspective of Africans themselves rather than the European powers It was above all a time of tremendous internal change on the African continent Great jihads of Muslim conquest and conversion swept over West Africa In the interior warlords competed to control the internal slave trade In the east the sultanate of Zanzibar extended its reach via coastal and interior trade routes In the north Egypt began to modernize while Algeria was colonized In the south a series of forced migrations accelerated spurred by the progression of white settlement Through much of the century African societies assimilated and adapted to the changes generated by these diverse forces In the end the West s technological advantage prevailed and most of Africa fell under European control and lost its independence Yet only by taking into account the rich complexity of this tumultuous past can we fully understand modern Africa from the colonial period to independence and the difficulties of today The History of the French Revolution Adolphe Thiers, 1838
