Claire Hines, Terence McSweeney, Stuart Joy, 2024-01-09 For over six decades James Bond has been a fixture of global culture universally recognizable by the films combination of action set pieces sex political intrigue and outrageous gadgetry But as the British Empire entered the final stages of collapse as the Cold War wound down and the War on Terror began and as the visions of masculinity and femininity the series presented began to strike many viewers as outdated the Bond formula has adapted to the changing times Spanning the franchise s entire history from Sean Connery s iconic swagger to Daniel Craig s rougher more visceral interpretation of the superspy James Bond Will Return offers both academic readers and fans a comprehensive view of the series s transformations against the backdrop of real world geopolitical intrigue and sweeping social changes Leading scholars consider each of the twenty five films in the series showing how and why Bond has changed and what elements of the formula have stood the test of time Each chapter examines a single film from a distinct position giving readers a full picture of the variety and breadth of the longest running series in cinema history Close formal readings production histories tracings of the political social and historical influences analyses of the series use of then new filmmaking technologies reflections on the star personas that have been built around the character these and many more approaches combine to produce a wide ranging view of the James Bond film franchise Essential reading for Bond scholars and

aficionados alike James Bond Will Return brings out the many surprising complexities of an iconic character **Shaken & Stirred** Robert A. Caplen, 2010 **The Signs of James Bond** Daniel Ferreras Savoye, 2013-02-27 This book is an analysis of the most significant elements that compose the Bond formula such as names binary oppositions and narrative patterns It tackles Ian Fleming s novels as well as the 22 films of the Eon Productions series and follows the evolution of certain determining features paradigms from the text to the screen to determine their function within the narration This study reveals how the James Bond universe goes well beyond mere spy adventures to become a genre in itself as well as now a standard cultural reference The book also shows that the underlying ideology of the James Bond narration is not as conservative as it might appear for it promotes ideals of the Enlightenment period such as secularity pragmatism and the common good **Bond Girls** Monica Germanà, 2020 Since Ursula Andress s white bikini debut in Dr No Bond Girls have

been simultaneously celebrated as fashion icons and dismissed as eye candy But the visual glamour of the women of James
