Bonfires In The Rain:

The Golden Bough James George Frazer, Sir James George Frazer, 1995-12 A world classic *The Golden Bough* describes our ancestors primitive methods of worship sex practices strange rituals and festivals Disproving the popular thought that primitive life was simple this monumental survey shows that savage man was enmeshed in a tangle of magic taboos and superstitions Revealed here is the evolution of man from savagery to civilization from the modification of his weird and often bloodthirsty customs to the entry of lasting moral ethical and spiritual values *The Leucothea Dialogues* Cesare Pavese, 2025-10-14 A shifting primordial work by Cesare Pavese plumbing the netherworlds of philosophy myth human feeling and mortality Above all Pavese's novels are works of an extraordinary depth where one never stops finding new levels new meanings Each one of Pavese's novels revolves around a hidden theme something unsaid which is the real thing he wants to say Italo Calvino Cesare Pavese's *The Leucothea Dialogues* is peopled with gods centaurs clouds poets hunters snakes and nymphs These are the beings who spoke to him through the ancient plays and poems he read in primary school Here they speak again in the twenty seven dialogues that form the novel Pavese calls mythology a hothouse of symbols His hothouse is liveliest at night in the peculiar clarity of darkness Pavese's characters are more than characters they play like the dreams of earliest childhood they pose questions that seem to travel through the minds of the dead to the minds of the living and back again Through reeds shadows glens fields of blazing straw homes and villages on the edges of valleys and over cliffs we follow their harried stories In Minna Zallman Proctor's radiant translation *The Leucothea Dialogues* is an expression of an exhilarating intelligence *The Life of the Mind* Gregory McCulloch, 2005-07-08 *The Life of the Mind* presents an original and striking conception of the mind and its place in nature In a spirited and rigorous attack on most of the orthodox positions in contemporary philosophy of mind McCulloch connects three of the orthodoxy's central themes externalism phenomenology and the relation between science and common sense psychology in a defence of a thoroughly anti Cartesian conception of mental life McCulloch argues that the life of the mind will never be understood until we properly understand the subject's essential embodiment and immersion in the world until we give up the idea that intentionality and phenomenology must be understood separately The product of over twenty years thinking on these issues McCulloch's book is a bold and significant contribution to philosophy *The Golden Bough* Sir James George Frazer, 2012-04-26 Classic 1890 study of cults rites and myths of antiquity helped define terms of social anthropology influencing generations of thinkers Abridgment omits footnotes occasionally condenses text all main principles remain intact **Golden Bough** Sir James George Frazer, 2019-12-18 This 1890 study offers a monumental exploration of the cults rites and myths of antiquity and their parallels with those of early Christianity Abridged by the author from his 12 volume work **The Riflemen of the Ohio** Joseph A.
