The Book and the Magic of Reading in the Middle Ages Albrecht Classen, 1998 The computer revolution is upon us The future of books and of reading are debated Will there be books in the next millennium Will we still be reading As uncertain as the answers to these questions might be as clear is the message about the value of the book expressed by medieval writers The contributors to the volume *The Book and the Magic of Reading in the Middle Ages* explore the significance of the written document as the key icon of a whole era Both philosophers and artists both poets and clerics wholeheartedly subscribed to the notion that reading and writing represented essential epistemological tools for spiritual political religious and philosophical quests To gain a deeper understanding of the cultural significance of the medieval book the contributors to this volume examine pertinent statements by medieval philosophers and French German English Spanish and Italian poets

Vernacular Aesthetics in the Later Middle Ages Katharine W. Jager, 2019-07-03 *Vernacular Aesthetics in the Later Middle Ages* explores the formal composition public performance and popular reception of vernacular poetry music and prose within late medieval French and English cultures This collection of essays considers the extra literary and extra textual methods by which vernacular forms and genres were obtained and examines the roles that performance and orality play in the reception and dissemination of those genres arguing that late medieval vernacular forms can be used to delineate the interests and perspectives of the subaltern Via an interdisciplinary approach contributors use theories of multimodality translation manuscript studies sound studies gender studies and activist New Formalism to address how and for whom popular vernacular medieval forms were made

Miracles and Wonders in the Middle Ages and Early Modern Period Albrecht Classen, 2025-10-20 Despite the assumption that we live today in a rather rationalist and mechanized world there remain many aspects that neither medicine nor physics can fully explain The Catholic Church continues to pronounce individuals as saints because scientifically confirmed miracles are associated with them If we want to gain a solid understanding of the pre modern history of mentality emotions and everyday culture it proves to be highly revealing to examine what miracles and wonders had meant at that time both in the theological and medical field in the visual arts and

literature As a matter of fact people both in the East and in the West have consistently flocked to pilgrimage sites all over the world in the hope that a miracle might happen and solve issues for them The contributors to this volume based on a symposium at the University of Arizona May 2024 approach this critically important topic from many different perspectives taking us from the early Middle Ages to the early modern age examining hagiographical medical literary and alchemical texts discussing both miracles and wonders as relevant themes in the public discourses Both the passage through Inferno and Purgatorio as the crucial pathway toward Paradiso and the experience of women s miraculous conception are identified as deeply impactful for the pre modern world and this both in Christian and Muslim cultures Studying miracles and wonders through a kaleidoscope of different materials and concepts makes it possible to gain a closer understanding of people s mindsets power structures and the debate between medicine and religion These topics were also greatly important in other cultures as several papers on Arabic medieval literature indicate Further pursuing this global issue we recognize easily that the separation line between the Middle Ages and the early modern period is only a modern construct and often not that helpful because the discourse on miracles and wonders has continued and influences even us today Magic in the Middle Ages Richard Kieckhefer,2000-05-01 How was magic practised in medieval times How did it relate to the diverse beliefs and practices that characterised this fascinating period In Magic in the Middle Ages Richard Kieckhefer surveys the growth and development of magic in medieval times He examines its relation to religion science philosophy art literature and politics before introducing us to the different types of magic that were used the kinds of people who practised magic and the reasoning behind their beliefs In addition he shows how magic served as a point of contact between the popular and elite classes how the reality of magical beliefs is reflected in the fiction of medieval literature and how the persecution of magic and witchcraft led to changes in the law This 2000 book places magic at the crossroads of medieval culture shedding light on many other aspects of life in the middle ages *Christian Attitudes Toward the Jews in the Middle Ages* Michael Frassetto,2007 Publisher description *Nature in the Middle Ages and the Early Modern Times* Albrecht Classen,2024-07-01 The study of pre modern anthropology requires the close examination of the relationship between nature and human society which has been both precarious and threatening as well as productive soothing inviting and pleasurable Much depends on the specific circumstances as the works by philosophers theologians poets artists and medical practitioners have regularly demonstrated It would not be good enough as previous scholarship has commonly done to examine simply what the various writers or artists had to say about nature While modern scientists consider just the hard core data of the objective world cultural historians and literary scholars endeavor to comprehend the deeper meaning of the concept of nature presented by countless writers and artists Only when we have a good grasp of the interactions between people and their natural environment are we in a position to identify and interpret mental structures social and economic relationships medical and scientific concepts of human health and the messages about all existence as depicted in major art works In light

of the current conditions threatening to bring upon us a global crisis it matters centrally to take into consideration pre modern discourses on nature and its enormous powers to understand the topoi and tropes determining the concepts through which we perceive nature Nature thus proves to be a force far beyond all human comprehensibility being both material and spiritual depending on our critical approaches *Childhood in the Middle Ages and the Renaissance* Albrecht

Classen,2011-12-22 Earlier theses on the history of childhood can now be laid to rest and a fundamental paradigm shift initiated as there is an overwhelming body of evidence to show that in medieval and early modern times too there were close emotional relations between parents and children The contributors to this volume demonstrate conclusively on the one hand how intensively parents concerned themselves with their children in the pre modern era and on the other which social political and religious conditions shaped these relationships These studies in emotional history demonstrate how easy it is for a subjective choice of sources coupled with faulty interpretations caused mainly by modern prejudices toward the Middle Ages in particular to lead to the view that in the past children were regarded as small adults The contributors demonstrate convincingly that intense feelings admittedly often different in nature shaped the relationship between adults and children

Wings of the Doves Elena Lombardi,2012 The tragic love of Francesca da Rimini and Paolo Malatesta a classic story of passion and death revisited through the lenses of literature philosophy and theology *Imagining the Woman Reader in the Age of Dante* Elena Lombardi,2018 A study of the figure of the woman reader in medieval Italian literature that places her within the history of female literacy the material culture of the book and the ways in which writers and poets of earlier traditions imagined her Fleshly Things and Spiritual Matters Nicole Nyffenegger,Katrin Rupp,2011-01-18 This book

offers fresh insights into the plethora of medieval bodies and the multiple perspectives that can be assumed in their discussion The ten essays by internationally renowned scholars and young academics encompass diverse approaches to the body such as the function of gestures the gendered gaze the body s spatial and geographical positioning the dis integrity of the body or the connection between linguistic uses of body and physical bodies While most of the contributions of this collection are in the field of medieval English literature they underline the value of interdisciplinary approaches which connect them with neighbouring disciplines such as modern literature and arts history theology and gender studies

Contributors Katharina Berger Meister Guillemette Bolens Leslie Dunton Downer Laurie Finke Angelina Keller Andy Kelly Fabienne Michelet R Allen Shoaf Lotta Sigurdsson and Paul Taylor **Cultures of Religious Reading in the Late Middle Ages** Sabrina Corbellini,2013 Read often learn all that you can Let sleep overcome you the roll still in your hands when your head falls let it be on the sacred page St Jerome 384 AD With these words the Church Father Jerome exhorted the young Eustochium to find on the sacred page the spiritual nourishment that would give her the strength to live a life of chastity and to keep her monastic vows His call to read does not stand alone Books and reading have always played a pivotal role in early and medieval Christianity often defined as a religion of the book A second important stage in the development of the religion

of the book can be attested in the late Middle Ages when religious reading was no longer the exclusive right of men and women living in solitude and concentrating on prayer and meditation. Changes in the religious landscape and the birth of new religious movements transformed the medieval town into a privileged area of religious activity. Increasing literacy opened the door to a new and wider public of lay readers. This seminal transformation in the late medieval cultural horizon saw the growing importance of the vernacular, the cultural and religious emancipation of the laity and the increasing participation of lay people in religious life and activities. This volume presents a new interdisciplinary approach to religious reading and reading techniques in a lay environment within late medieval textual, social and cultural transformations. **Reading the**

Thresholds of Medieval Visual Culture Elina Gertsman, Jill Stevenson, 2012. Interdisciplinary approaches to the material culture of the middle ages from illuminated manuscripts to church architecture. **Magic in the Middle Ages**

Richard Kieckhefer, 2021-09-09. A revised and expanded edition of this fascinating interdisciplinary study of magic in the Middle Ages. *The Literature of Hope in the Middle Ages and Today* Flo Keyes, 2006-03-31. The influence of medieval

literature is instantly apparent in modern fantasy literature where knights and wizards populate castle strewn landscapes. Less obvious but still recognizable is the influence in science fiction which draws on medieval story structure and themes. Beyond these superficial similarities deeper connections become evident through an analysis of the literature's social function. Like the fantasy and science fiction of today, the romances of the Middle Ages were written in times of extreme and prolonged social upheaval. In all three genres the storytellers draw on the same archetypes: the hero, the quest, the transformation for stories whose goal is to provide hope. Using Jungian theory and comparative analysis, this book explores the connections between the three genres. It finds common ground among them in plots that often reflect the recurring cycle

of life and the elements of psychological rather than literal realism Representative texts such as Malory's *Le Morte D Arthur* the *Witch World* series by Andre Norton and *More Than Human* by Theodore Sturgeon are examined in depth and the use of archetypes in each is thoroughly explored Analysis reveals similarities in images structures and the pervasive belief that a perfectible universe is within man's capabilities if not now then someday

Telling the Story in the Middle Ages Kathryn A. Duys, Elizabeth Nicole Emery, Laurie Postlewait, 2015 Much of our modern understanding of medieval society and cultures comes through the stories people told and the way they told them Storytelling was for this period not only entertainment it was central to the law religious ritual and teaching as well as the primary mode of delivering news The essays in this volume raise and discuss a number of questions concerning the strategies contexts and narratological features of medieval storytelling They look particularly at who tells the story the audience how a story is told and performed and the manuscript and social context for such tales Laurie Postlewait is Senior Lecturer Department of French Barnard College Kathryn Duys is Associate Professor Department of English and Foreign Languages University of St Francis Elizabeth Emery is Professor of French Montclair State University

Women and Magic in Medieval Romance Jane Elizabeth Bonsall, 2025-04-08 Explores the conventions and contradictions inherent in archetypes of magical femininity from loathly ladies to monstrous mothers in a range of popular late medieval English romances The female characters in Middle English romances with particular power and agency are often portrayed as supernatural possessing either magical abilities or identities This book argues that a genre focused reading of these supernatural women reveals romance's strategies for working through and articulating anxieties about the changing world of the late medieval period as well as exposing their contemporary audiences unexpectedly flexible attitudes toward feminine authority and moral ambiguity It explores five distinct types of magical femininity the Tristan tradition's marvelously gifted healers the Muslim princess in *Bevis of Hampton* the endlessly wealthy fairy imagined by Sir Launfal and Partonope of Blois the monster mother Melusine and Morgan le Fay the prototypical witch By tracking the way each type first establishes then complicates generic patterns this study highlights the tension between romance's persistent fascination with feminine power and its simultaneous reiteration of the social and generic bounds on women's agency and authority Interrogating generic expectations from an intersectional feminist perspective it makes a case for a recuperative re-reading of romance one that asks us to revise our assumptions about the potentialities of women's power in the medieval imaginary

The Transformations of Magic Frank Klaassen, 2013 Explores two principal genres of illicit learned magic in late Medieval manuscripts image magic which could be interpreted and justified in scholastic terms and ritual magic which could not Provided by publisher
