Book Of Job In Medieval Jewish Philosophy:

The Book of Job in Medieval Jewish Philosophy Robert Eisen, 2004-09-16 Medieval Jewish philosophers have been studied extensively by modern scholars but even though their philosophical thinking was often shaped by their interpretation of the Bible relatively little attention has been paid to them as biblical interpreters In this study Robert Eisen breaks new ground by analyzing how six medieval Jewish philosophers approached the Book of Job These thinkers covered are Saadiah Gaon Moses Maimonides Samuel ibn Tibbon Zerahiah Hen Gersonides and Simon ben Zemah Duran Eisen explores each philosopher's reading of Job on three levels its relationship to interpretations of Job by previous Jewish philosophers the way in which it grapples with the major difficulties in the text and its interaction with the author's systematic philosophical thought Eisen also examines the resonance between the readings of Job of medieval Jewish philosophers and those of modern biblical scholars What emerges is a portrait of a school of Joban interpretation that was creative original and at times surprisingly radical Eisen thus demonstrates that medieval Jewish philosophers were serious exegetes whom scholars cannot afford to ignore By bringing a previously overlooked aspect of these thinkers work to light Eisen adds new depth to our knowledge of both Jewish philosophy and biblical interpretation

Medieval Jewish Philosophy and Its Literary Forms

Aaron W. Hughes, James T. Robinson, 2019-07-11 This well written accessible essay collection demonstrates a maturation in Jewish studies and medieval philosophy Choice Too often the study of philosophical texts is carried out in ways that do not pay significant attention to how the ideas contained within them are presented articulated and developed This was not always the case The contributors to this collected work consider Jewish philosophy in the medieval period when new genres and forms of written expression were flourishing in the wake of renewed interest in ancient philosophy Many medieval Jewish philosophers were highly accomplished poets for example and made conscious efforts to write in a poetic style This volume turns attention to the connections that medieval Jewish thinkers made between the literary the exegetical the philosophical and the mystical to shed light on the creativity and diversity of medieval thought As they broaden the scope of what counts as

medieval Jewish philosophy the essays collected here consider questions about how an argument is formed how text is put into the service of philosophy and the social and intellectual environment in which philosophical texts were produced

Evil and Providence in Maimonides'S Guide of the Perplexed Modestus Anyaegbu, 2014-11-21 Maimonides's rationalist rejection and interpretation of anthropomorphism play a major part in his reading of the problem of evil and providence in the Guide of the Perplexed The debate has been on finding an explanation as to why the righteous suffer and the vicious prosper in a world under the providence of a divine Creator The anthropomorphic bent given to the legendary case of the biblical Job has given us the concept of God as a personal agent But confronted with the reality of his innocent suffering this image of God leaves much to be desired We shall argue that Maimonides's theory of providence as consequent upon the intellect and evil as consequent upon the absence of intellectual perfection are based on the concept of God as existence It is the absence of intellectual perfection that marks man qua animal and leaves him open to chance occurrences and evil A Promotional Write Up The present work places before us the strange position and it must be said a little bit shocking to us of the great Jewish thinker on the question of providence Only the intelligent that is to say the human beings who have effectively actualized their intellects and have come to an accomplished knowledge are considered and personally protected by the Eternal In other words the traditional piety that is usually asked of the believers by religious authorities is not sufficient This piety is still marked by illusion and does not procure for man the true knowledge of God which is worthy of him The individual ought to overcome pietistic representations in order to open himself to divine truth which is accessible only through knowledge This is what the Book of Job illustrates At the time when the actuality does not cease to present before us the question of the status of religion and the religious within modernity the attempt by Maimonides to articulate these two styles carries an indisputable force of conviction as shown with abundant evidence in the work presented by Modestus Anyaegbu

Three Approaches to Biblical Metaphor Mordechai Z. Cohen, 2021-10-01 This volume explores how the poetic technique of biblical metaphor was analyzed within the Jewish exegetical tradition that developed in Muslim Spain during the Golden Age of Hebrew poetry and was then transplanted to a Christian milieu Abraham Ibn Ezra

and Maimonides applied concepts from Arabic poetics hermeneutics and logic to define metaphor and interpret it within their philological literary readings of Scripture David Kimhi integrated their methodologies with the midrashic creativity and sensitivity to nuance typical of his native Provence to create a new literary interpretive system that highlights the expressiveness of metaphor This study is important for readers interested in metaphor the Bible as literature the history of biblical interpretation and the inter relation between Arabic and Hebrew learning *The Book of Job in Jewish Life and Thought* Jason Kalman, 2021-12-20 Despite its general absence from the Jewish liturgical cycle and its limited place in Jewish practice the Book of Job has permeated Jewish culture over the last 2 000 years Job has not only had to endure the suffering described in the biblical book but the efforts of countless commentators interpreters and creative rewriters whose explanations more often than not challenged the protagonist's righteousness in order to preserve Divine justice Beginning with five critical essays on the specific efforts of ancient medieval and modern Jewish writers to make sense of the biblical book this volume concludes with a detailed survey of the place of Job in the Talmud and Midrashic corpus in medieval biblical commentary in ethical mystical and philosophical tracts as well as in poetry and creative writing in a wide variety of Jewish languages from around the world from the second to sixteenth centuries Ethical Ambiguity in the Hebrew Bible Shira Weiss, 2018-09-06 Elucidates the Scriptural moral tradition by subjecting ethically challenging biblical texts to moral philosophical analysis **A Philosopher of Scripture** Raphael Dascal, 2019-08-05 Tan um b Joseph ha Yerushalmi d 1291 Fus Egypt was a rigorous linguist and philologist philosopher and mystic and a biblical exegete of singular breadth As well as providing us with an insight into the inner world of a profound and original thinker his oeuvre sheds light on a Jewish historical and cultural milieu that remains relatively poorly understood the Islamic East in the post Maimonidean period In *A Philosopher of Scripture The Exegesis and Thought of Tan um ha Yerushalmi* Raphael Dascal presents the first detailed intellectual portrait of Tan um ha Yerushalmi Tan um emerges as a polymath with a clear intellectual program an eclectic thinker who brought multiple traditions together in his search for the philosophical meaning of Scripture Print, Power, and Cultural Hegemony Federico Dal Bo, 2024-09-23 Federico Dal Bo examines the design of early Hebrew books from the late fifteenth and sixteenth centuries focusing not only on the words in these early books but also on how they were arranged on the page He follows in the tradition of scholars such as Christopher de Hamel Marvin J Heller and David Stern who have explored the importance of these Hebrew books in influencing Jewish learning and attracting the interest of Christians The author discusses important prints such as the first Talmud and rabbinical bibles which marked a shift from being for Jewish readers only to being for both Jews and Christians The collaboration between Jewish editors and Christian printers changed the way these books looked and the audience for whom they were intended At first these early prints copied the style of handwritten Hebrew manuscripts The simple layout could be difficult to read especially for long books like the Bible or Talmud But over time influenced by the humanism of the Italian Renaissance the layout became more complex The book also

looks at how the layout changed from full page commentaries to a more complicated design in which the main text and commentaries shared the same page This shift challenged the idea of who was the primary author and emphasized the role of editors The layout with the main text in the center and the commentaries on the sides created a kind of unwritten rule for how to read religious texts Dal Bo s study also includes new information about a 1553 trial in which the Talmud was burned Overall it explores how the layout of these early Hebrew books shaped cultural power and influenced how people read
