that make us think about what we believe about God and why. Despite repeated predictions of the death of the novel, thousands of works of fiction are published and read in Britain each year. Although Western society is less religiously observant than it was many 21st century novelists persist in pursuing theological, religious and spiritual themes. *Make Believe* seeks to explain why. With chapters offering analyses of novels from several genres: so-called literary fiction, historical fiction, science fiction, fantasy and dystopia, David Dickinson discusses a wide spectrum of novelists. Both those who are avowedly atheistic and those who have a vested interest in perpetuating biblical stories feature. Well-known writers such as Rushdie, McEwan, McCarthy and Martell rub shoulders with some you may be meeting for the first time. Appealing to literature students and people who simply enjoy reading, whether Christian or not, this study of God in novels invites us to open our minds and allow aspects of our culture to shape our understanding of God and to change our ways of talking about the divine.

Christian Release, *Literary Secularism* Amardeep Singh, 2008-12-18. *Literary Secularism: Religion and Modernity in Twentieth Century Fiction* shows the path to secularization in the modern novel in comparative perspective. Writers as diverse as George Eliot, James Joyce, Salman Rushdie, Orhan Pamuk, Taslima Nasrin and James Wood have all struggled with religious orthodoxy in their personal lives and are some of the most important and representative secular writers in the modern world canon. But their novels, which are far more than mere anti-religious manifestos, directly reflect the continued power of religious communities and institutions in the modern world. While religion is in a very real sense displaced from epistemological centrality in modernity, all of these writers suggest that religious texts, rituals and communities have a force that is in George Eliot's words still throbbing in modern life. In a series of close readings, *Literary Secularism* argues that the intimate, often deeply ambivalent representation of religion is a key feature of modern writing and is central to the larger intellectual and historical project of modernity. *Literary Secularism* is then a complex literary ethos which impinges as much on style, language and novelistic form as on theme. The close readings here of novels such as George Eliot's *Daniel Deronda*, Rabindranath Tagore's *Gora*, James Joyce's *Ulysses* and Salman Rushdie's *The Satanic Verses* all hinge on the ambiguity of religious and secular discourses. In some cases, the ambiguity is expressed through the affective and embodied experience of the protagonists whose private subjectivity often conflicts with their public identities. The conflict between present and private is also explored in a dedicated chapter on secularism and feminism in India as well as with regard to the global crisis of secularism that has emerged following the terrorist attacks of 9/11. While the particular experiences of the various narratives vary somewhat from author to author, all of the authors in this study are interested in defining a way of being secular that no sociological or ideological formula can fully describe. Correspondingly, while works of literature are certainly artifacts marking key moments in the history of secularisation, literature by itself doesn't produce secularism in either the cultural or the political context. In arguing for the literary as a historically specific social and cultural mode of secularity, *Literary Secularism* offers a unique perspective on the problem of secularisation that may be of interest to fields such as

literary criticism religious studies the sociology of religion and political theory

The Book of Job in Medieval Jewish Philosophy Robert Eisen, 2004-09-16 Medieval Jewish philosophers have been studied extensively by modern scholars but even though their philosophical thinking was often shaped by their interpretation of the Bible relatively little attention has been paid to them as biblical interpreters In this study Robert Eisen breaks new ground by analyzing how six medieval Jewish philosophers approached the Book of Job These thinkers covered are Saadiah Gaon Moses Maimonides Samuel ibn Tibbon Zerahiah Hen Gersonides and Simon ben Zemah Duran Eisen explores each philosopher s reading of Job on three levels its relationship to interpretations of Job by previous Jewish philosophers the way in which it grapples with the major difficulties in the text and its interaction with the author s systematic philosophical thought Eisen also examines the resonance between the readings of Job of medieval Jewish philosophers and those of modern biblical scholars What emerges is a portrait of a school of Joban interpretation that was creative original and at times surprisingly radical Eisen thus demonstrates that medieval Jewish philosophers were serious exegetes whom scholars cannot afford to ignore By bringing a previously overlooked aspect of these thinkers work to light Eisen adds new depth to our knowledge of both Jewish philosophy and biblical interpretation

Radiant General Knowledge - Book 10 , Marriage in the Book of Tobit Geoffrey David Miller, 2011-05-26 Apart from Genesis Tobit contains more information about marriage than any other biblical book It reflects third century beliefs and customs yet also serves a didactic function teaching Diaspora Jews what they should value in their

own marriages This monograph elucidates these elements by asking four questions 1 Whom should one marry 2 How does one get married 3 What role does God play in marriage 4 What do actual marriages look like By contextualizing Tobit in light of the Old Testament and relevant Ancient Near Eastern texts one can appreciate the book's unique claims Endogamy is defined more narrowly than in other Old Testament texts as Israelites are now enjoined to marry close relatives Monetary matters such as the payment of the bride price are downplayed while adherence to the Mosaic Law is emphasized in the marriage contract and the wedding ceremony Furthermore intertextual links with Genesis 24 cast Tobiah and Sarah as founders of a new Israel showing that God becomes involved in their marriage so that the nation of Israel will not die out Finally the author's portrayal of three married couples in the book reveals much about gender roles and also creates a realistic portrait of the marital relationship in terms of communication cooperation and conflict

The Image of Christ in Russian Literature John Givens, 2018-05-29 Vladimir Nabokov complained about the number of Dostoevsky's characters sinning their way to Jesus In truth Christ is an elusive figure not only in Dostoevsky's novels but in Russian literature as a whole The rise of the historical critical method of biblical criticism in the nineteenth century and the growth of secularism it stimulated made an earnest affirmation of Jesus in literature highly problematic If they affirmed Jesus too directly writers paradoxically risked diminishing him either by deploying faith explanations that no longer persuade in an age of skepticism or by reducing Christ to a mere argument in an ideological dispute The writers at the heart of this study understood that to reimage Christ for their age they had to make him known through indirect even negative ways lest what they say about him be mistaken for cliché doctrine or naïve apologetics The Christology of Dostoevsky Leo Tolstoy Mikhail Bulgakov and Boris Pasternak is thus apophatic because they deploy negative formulations saying what God is not in their writings about Jesus Professions of atheism in Dostoevsky and Tolstoy's non-divine Jesus are but separate negative paths toward truer discernment of Christ This first study in English of the image of Christ in Russian literature highlights the importance of apophaticism as a theological practice and a literary method in understanding the Russian Christ It also emphasizes the importance of skepticism in Russian literary attitudes toward Jesus on the part of writers whose private crucibles of doubt produced some of the most provocative and enduring images of Christ in world literature This important study will appeal to scholars and students of Orthodox Christianity and Russian literature as well as educated general readers interested in religion and nineteenth century Russian novels
