Partridge,2012-11-12 The spectre of the UFO as popularized by shows such as The X Files has brought an astonishing slant to the face of modern religious practice But what motivates the fantastical and sometimes sinister beliefs of UFO worshippers UFO Religions critically examines some of the fascinating issues surrounding UFO worship abduction narratives UFO based interpretations of other religions the growth of pseudo sciences purporting to explain UFOs and the responses of the core scientific community to such claims Focusing on contemporary global UFO groups including the Raelian Movement Heaven s Gate Unarius and the Ansaaru Allah Community it gives a clear profile of modern UFO controversies and beliefs *The New Buddhism* James William Coleman,2002-05-16 In our multicultural society faiths formerly seen as exotic have become attractive alternatives for many people seeking more satisfying spiritual lives This is especially true of Buddhism which is the focus of constant media attention thanks at least in part to celebrity converts major motion pictures and the popularity of the Dalai Lama Following this recent trend in the West author James Coleman argues that a new and radically different form of this ancient faith is emerging The New Buddhism sheds new light on this recent evolution of Buddhist practice in the West After briefly recounting the beginnings and spread of Buddhism in the East Coleman chronicles its reinterpretation by key Western teachers in the nineteenth and twentieth centuries ranging from the British poet Sir Edwin Arnold to the Beat writer Alan Watts Turning to the contemporary scene he finds that Western teachers have borrowed liberally from different Buddhist traditions that never intersect in their original contexts Men and women practice together as equals ceremonies and rituals are simpler more direct and not believed to have magical effects Moreover the new Buddhism has made the path of meditation and spiritual awakening available to everyone not just an elite cadre of monks Drawing on interviews with noted teachers and lay practitioners as well as a survey completed by members of seven North American Buddhist centers Coleman depicts the colorful variety of new Buddhists today from dilettantes to devoted students and the dedicated teachers who guide their spiritual progress He also details the problems that have arisen because of some Western influences especially with regard to gender roles sex and power Exploring the appeal of this exotic faith in postmodern society and questioning its future in a global consumer culture The New Buddhism provides a thorough and fascinating guide to Western Buddhism today The Oxford Handbook of Meditation Miguel Farias,David Brazier,Mansur Lalljee,2021 A state of the art guide to meditation science and history its facts and myths Covers the development of meditation practices across the world exploring how the varieties of meditation techniques were created in different cultural and religious contexts Explores ethical social and religious implications and discusses controversial topics Book jacket American Gurus Arthur Versluis,2014 Versluis shows how the convergence of Asian religions and Western mysticism produce the contemporary phenomenon of spontaneously enlightened gurus in America **IBSS: Sociology: 1999** ,2000-12-07 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge on the social sciences *Educational Philosophy for a Post-secular Age*

David Lewin, 2016-10-04 *Educational Philosophy for a Post secular Age* reinterprets post secular insights for educational theory by recognising that the persistence of religion in contemporary life raises new questions about the place of religion in education. Two common assumptions are critically examined: first, that the better educated a society becomes the more secular it becomes; and second, that religion can and should be separated from public education. For too long religion has had an uneasy relationship with education, being seen either as a foreign invader, a problem to be solved, or as a mechanism by which to reinforce particular religious, cultural, or national identities. In order to move educational theory beyond the debates about indoctrination and competing rights between parents, children, and nation states, the argument undercuts rationalist conceptions of religion and education that tend to frame the debates in terms of competing truth claims or worldviews. Drawing on a diverse range of theological, philosophical, and educational sources, this book demonstrates the continuing significance of the Christian mystical tradition to educational theory. It proposes an exploration of democratic education that brings together two apparently irreconcilable poles: the meaning of religion in education and contemporary life, and the need for a deliberative democratic process that is fit for the post secular age. It argues that religious literacy can be served by democratic encounters in public religious education. *Educational Philosophy for a Post secular Age* will be of interest to researchers, academics, and postgraduate students in the fields of the philosophy of education, philosophy of religion, education policy, politics, anthropology, and cultural theory. It will particularly appeal to those of both secular and religious persuasions interested in the place of religion in education and public life. **Gurdjieff and Music** Johanna

Petsche, 2015-02-04 In *Gurdjieff and Music* Johanna Petsche examines the large and diverse body of piano music produced by Armenian Greek spiritual teacher G. I. Gurdjieff c. 1866-1949 in collaboration with his devoted pupil Thomas de Hartmann 1885-1956. Petsche draws on a range of unpublished materials and data from original field research to critically situate and assess this music within its socio-cultural and unique religio-spiritual context. Focusing on the tremendous role that music played in the life and teaching of Gurdjieff, Petsche chronicles the unique relationship and collaboration between Gurdjieff and de Hartmann, analyses the styles and possible sources of their music, and explores Gurdjieff's ultimate intentions for the music in light of his esoteric teaching. *Gurus in America* Thomas A. Forsthoefel, Cynthia Ann Humes, 2012-02-01 *Gurus in America* provides an excellent introduction to the guru phenomenon in the United States with in-depth analyses of nine important Hindu gurus: Adi Da, Ammachi Mayi Chidvilasananda Gurani, Anjali Maharishi, Mahesh Yogi, Osho, Ramana Maharshi, Sai Baba, and Swami Bhaktivedanta. All of these gurus have attracted significant followings in the U.S. and nearly all have lived here for considerable periods of time. The book's contributors discuss the characteristics of each guru's teachings, the history of each movement, and the particular construction of Hinduism each guru offers. Contributors also address the religious and cultural interaction, translation, and transplantation that occurs when gurus offer their teachings in America. This is a fascinating guide that will elucidate an important element in America's diverse and ever-changing spiritual
